Dear Mrs. Zlabovsky:

Please note the enclosed copy of letter from the State Department.

I am very glad that people who travel into Mexico by routes other than by sea do not have to wait two years in Mexico before getting a visa to enter the United States. This is indeed good news.

Sincerely yours,

Cecilia Razovsky

My dear Miss Razovsky:

I refer to your letter of August 22, 1938 concerning the case of an alien now in the United States who expects to make application for an immigration visa at the American Consulate at Ciudad Juarez, Mexico.

As an applicant for an immigration visa may not spend his waiting time for a quota number in the United States, the name of the alien in question will not be registered on the list of prospective immigrants until he has left the United States and taken up his residence in the consular district where he expects to apply for a visa intending to remain abroad until his turn is reached under the quota.

~~A two year period of residence in foreign contiguous territory is required by Section 17 of the Immigration Act in cases where applicants for admission into the United States were brought to such territory by a transportation company which had failed to submit to and comply with all the requirements of the Act. The requirement is understood to apply in the cases of prospective immigrants traveling to Mexico by sea with navigation companies but not in the cases of aliens traveling overland to Mexico from the United States by railroad.~~

Sincerely yours,

Miss Cecilia Razovsky

IMPORTANT:

Re: Herbert Nuernberg, L.L.D.

Dear Miss Cecelia Razovsky: The aforementioned was sent to El Paso from the Chicago Office, arriving August 28th. His case was immediately presented to the Consul in Juarez, Mexico. His application was accepted and a cable was sent the same day to Berlin. On the morning of the 20th a reply cable came from Berlin granting quota number for December issuance (No. 3337). Mr. Nuernberg was advised to remain on Foreign soil until the number is granted to him. He was beside himself and demanded that I send a telegram, which you received. He was at that time illegally in Mexico. I took immediate steps to legalize his entry into that Country. After legalization into Mexico, he called on the Inspector of Immigration, asking permission to cross into El Paso daily for the purpose of visiting the library. The crossing privilege was granted him on the strength of his unexpired visa from Germany. When the American Vice-Consul heard of this procedure, he advised Mr. Nuernberg that if he is seen on United States soil he would lose the right to the number, which is at present time in their office.

I advised Mr. N. to immediately cancel the privilege of crossing into El Paso, which he did under protest. He now claims that I have done him a great injustice by legalizing his entry into Mexico because the German Government will confiscate his \$100,000 holdings in Germany if they found that he was trying to legally enter the United States. A further complication is that his Passport expires on November 9th and he says that the German Consul will refuse a further extension.

Washington, D.C.

As a test case I wonder if it is possible that when an applicant receives his number as in this case, when his application and medical examination are fully approved, whether he can be paroled to the United States for the period between the date of application and the issuance of the number, or if he may be given the privilege of a crossing card when living on the border as in this case.

Chicago Office, receiving August 28th. His case

Will you be able to have his passport extended by the German Consul in New York? Because his number will be issued to him on December 1st, his passport will have to be extended to February 1, 1939.
