EL PASO.

In presenting the fourth volume of the El Paso City Directory, the publishers desire to congratulate her citizens upon the wonderful progress that has been made during the past year in all lines of commercial activity. It can be truly said that there is no city in Texas that is being developed in so substantial a manner, nor in such a marked degree, as is El Paso at this time. It can also be truly said that there is no city in Texas whose citizens are more progressive or more active in reaching for new enterprises, as well as caring for those already established within her gates.

Since the publication of our last directory, many costly improvements of public and private nature have been completed.

The City Hall on San Antonio street and Myrtle avenue, which cost \$31,000, is as cozy a home as any city fathers in this broad land can boast of.

The Gamewell Fire Alarm System has been placed in operation at a cost of \$6,320; the Fire Hall has been erected at a cost of \$13,000, and is furnished with as good apparatus and as brave fire laddies as could be desired.

The education of the children has been carefully looked after in the shape of a \$6,000 addition to the 3rd ward school, a \$13,000 building in the 2nd ward and a \$9,000 building in the 2nd ward for Mexican children; in addition to this, \$75,000 in bonds have been voted for general improvements.

JOHN F. WORLEY & CO.'S

In addition to all this, building permits for private improvements to the amount of \$487,379 have been issued for fourteen months ending August 31, 1900.

Our census shows a population of 21,792, a clear gain of 1,269 over last year.

Thus it will be seen that El Paso is on the forward march. She has all the advantages of a metropolitan city—incomparable climate, unsurpassed hosteleries, an alert and intelligent press, excellent educational advantages, banking institutions—monuments of strength—officered by conservative men. In short, a glance at the directories issued from time to time will show decisively that the citizens of El Paso have good cause to be proud of their city.

In conclusion, we beg to thank those who have been loyal to us, rendering material assistance in the publication of this work, and we trust that our efforts will clearly demonstrate the fact that "he who minds his own business well succeeds the better."

POSTOFFICES IN TEXAS.

[From the U. S. Postal Guide, compiled and published by
Metropolitan Job Print, New York, N. Y.]

The postoffices in Texas are divided into four classes, the first three being called presidential postoffices, for the reason that when the salary of a postmaster reaches the sum of one thousand dollars, the appointment by law vests in the president. In the fourth class are found nearly all the offices; the salary being less than one thousand dollars, the postmaster is appointed by the postmaster-general. The first-class contains all offices where the salary is at least three thousand dollars; the second-class runs from two thousand to three thousand dollars, and the third-class from one thousand to two thousand dollars.

Total population of the United States as per U. S. census of 1900, was 76,000,000; of Texas, 3,048,710.
