## El Paso, Texas.

Our El Paso City Directory for 1901 showed the city to have a population of 21,792. Our 1903 edition, just issued, shows a population of 38,135, an increase of 16,333, or 75 per cent, in the city's growth in five years. During this period, there has been no boom to attract and no great commercial enterprise has come to bring a large number of persons for some single purpose. The growth has been steady and natural, such as has been required to meet the improving conditions and increasing necessities of the city's life.

The coming year promises to bring the greatest growth in El Paso's history, through the coming of the general offices, divisional headquarters and mechanical department of the El Paso and Southwestern System. This system has in course of construction great shops and a large office building to meet these new conditions.

To meet the wants of and her obligations to her new citizens, El Paso has shown her enterprise in building two magnificent new schools; in extending her streets; in laying out and grading others; in the erection of new residences as rapidly as her money would command the material and labor at home or in other markets; in a water system, furnishing an ample supply of purest water to meet the necessities, not only of the present, but of her future growth; in issuing bonds to pave and improve her streets; and in the further extension of her already efficient electric railway system.

In his address at the opening of the Chicago Exposition, in describing the Chicago spirit, the mayor of that great city said: "Chicago never conceived anything she would not undertake and never undertook anything she did not consummate." We believe El Paso has the same progressive spirit, and that with her great trunk railways extending from ocean to ocean, from the great lakes to the gulf and to the very heart of Mexico; with her natural geographical position as the southern gateway between the oceans and to Mexico; with the 200,000 acres of marvelous fertile lands of the Rio Grande valleys, about to be reclaimed through irrigation, around her, the chief commercial center of which she must be in the fruition of its development; with the ever increasing development of the richest mining country of the continent at her very doors; with all these, her natural advantages, and the liberal and progressive spirit of her people, we believe El Paso will continue to grow in commercial importance, and will continue, as she is to day, the empire city of her vast territory; and that because of her unrivaled climate, her magnificent schools, her unsurpassed facilities of transportation; her abundant supply of pure water and surpassing civic improvements, she is destined also to become the home of the families of those controlling and directing the development of the mineral wealth that yet lies hidden in her vast tributary territory.

Thanking our friends and patrons for their many kindnesses and generous patronage and wishing them a happy and prosperous new year, we respectfully submit our El Paso City Directory for 1906.

# Don't Knock

*If There is a Chance To Boom Business*

## BOOM IT

*Don't Be a Knocker*

Don't pull a long face and get sour on the stomach. Hope a bit. Get a smile on you. Hold up your head. Get a hold with both hands. Then pull. Bury your hatchet. Drop your tomahawk. Hide your little hammer. When a stranger drops in tell him this is the greatest town on earth. It is. Don't get mulish. Don't roast. Be jolly. Get popular. It's dead easy. Help yourself along. Push your friend with you. Soon you'll have a whole procession. Be a good fellow.

No man ever helped himself by knocking other people down. No man ever got rich trying to make people believe that he was the only good man on earth. You can't climb the ladder of fame by stepping on other people's corns. They're their corns; not yours. And they're tender. Keep off the corns.

All men are not alike. Once in a while you may find one who is very much alike. But some are different. You're not the only shirt in the wash. If you don't like their style let 'em alone. Don't knock. You will get used to it. There's no end of fun minding your own business. And it makes other people like you better. Better have others get stuck on you than get stuck on yourself. Nobody gets stuck on a knocker. Don't be one. Be good. Patronize the City Directory and become a first class citizen.

# Don't Knock

*If There is a Chance To Boom Business*

## BOOM IT

*Don't Be a Knocker*

Don't pull a long face and get sour on the stomach. Hope a bit. Get a smile on you. Hold up your head. Get a hold with both hands. Then pull. Bury your hatchet. Drop your tomahawk. Hide your little hammer. When a stranger drops in tell him this is the greatest town on earth. It is. Don't get mulish. Don't roast. Be jolly. Get popular. It's dead easy. Help yourself along. Push your friend with you. Soon you'll have a whole procession. Be a good fellow.

No man ever helped himself by knocking other people down. No man ever got rich trying to make people believe that he was the only good man on earth. You can't climb the ladder of fame by stepping on other people's corns. They're their corns; not yours. And they're tender. Keep off the corns.

All men are not alike. Once in a while you may find one who is very much alike. But some are different. You're not the only shirt in the wash. If you don't like their style let 'em alone. Don't knock. You will get used to it. There's no end of fun minding your own business. And it makes other people like you better. Better have others get stuck on you than get stuck on yourself. Nobody gets stuck on a knocker. Don't be one. Be good. Patronize the City Directory and become a first class citizen.
