Dr. Dysart E. Holcomb with his wife and four children came to Texas Western in the summer of 1955. Dr. Holcomb, well-qualified for the position of President, attended Texas Tech from 1933 until 1937, where he earned a Bachelor's Degree in Chemical Engineering. He then went to the University of Michigan until 1941. In 1938 he received his Masters of Science Degree in Chemical Engineering and then his Doctorate in Philosophy.

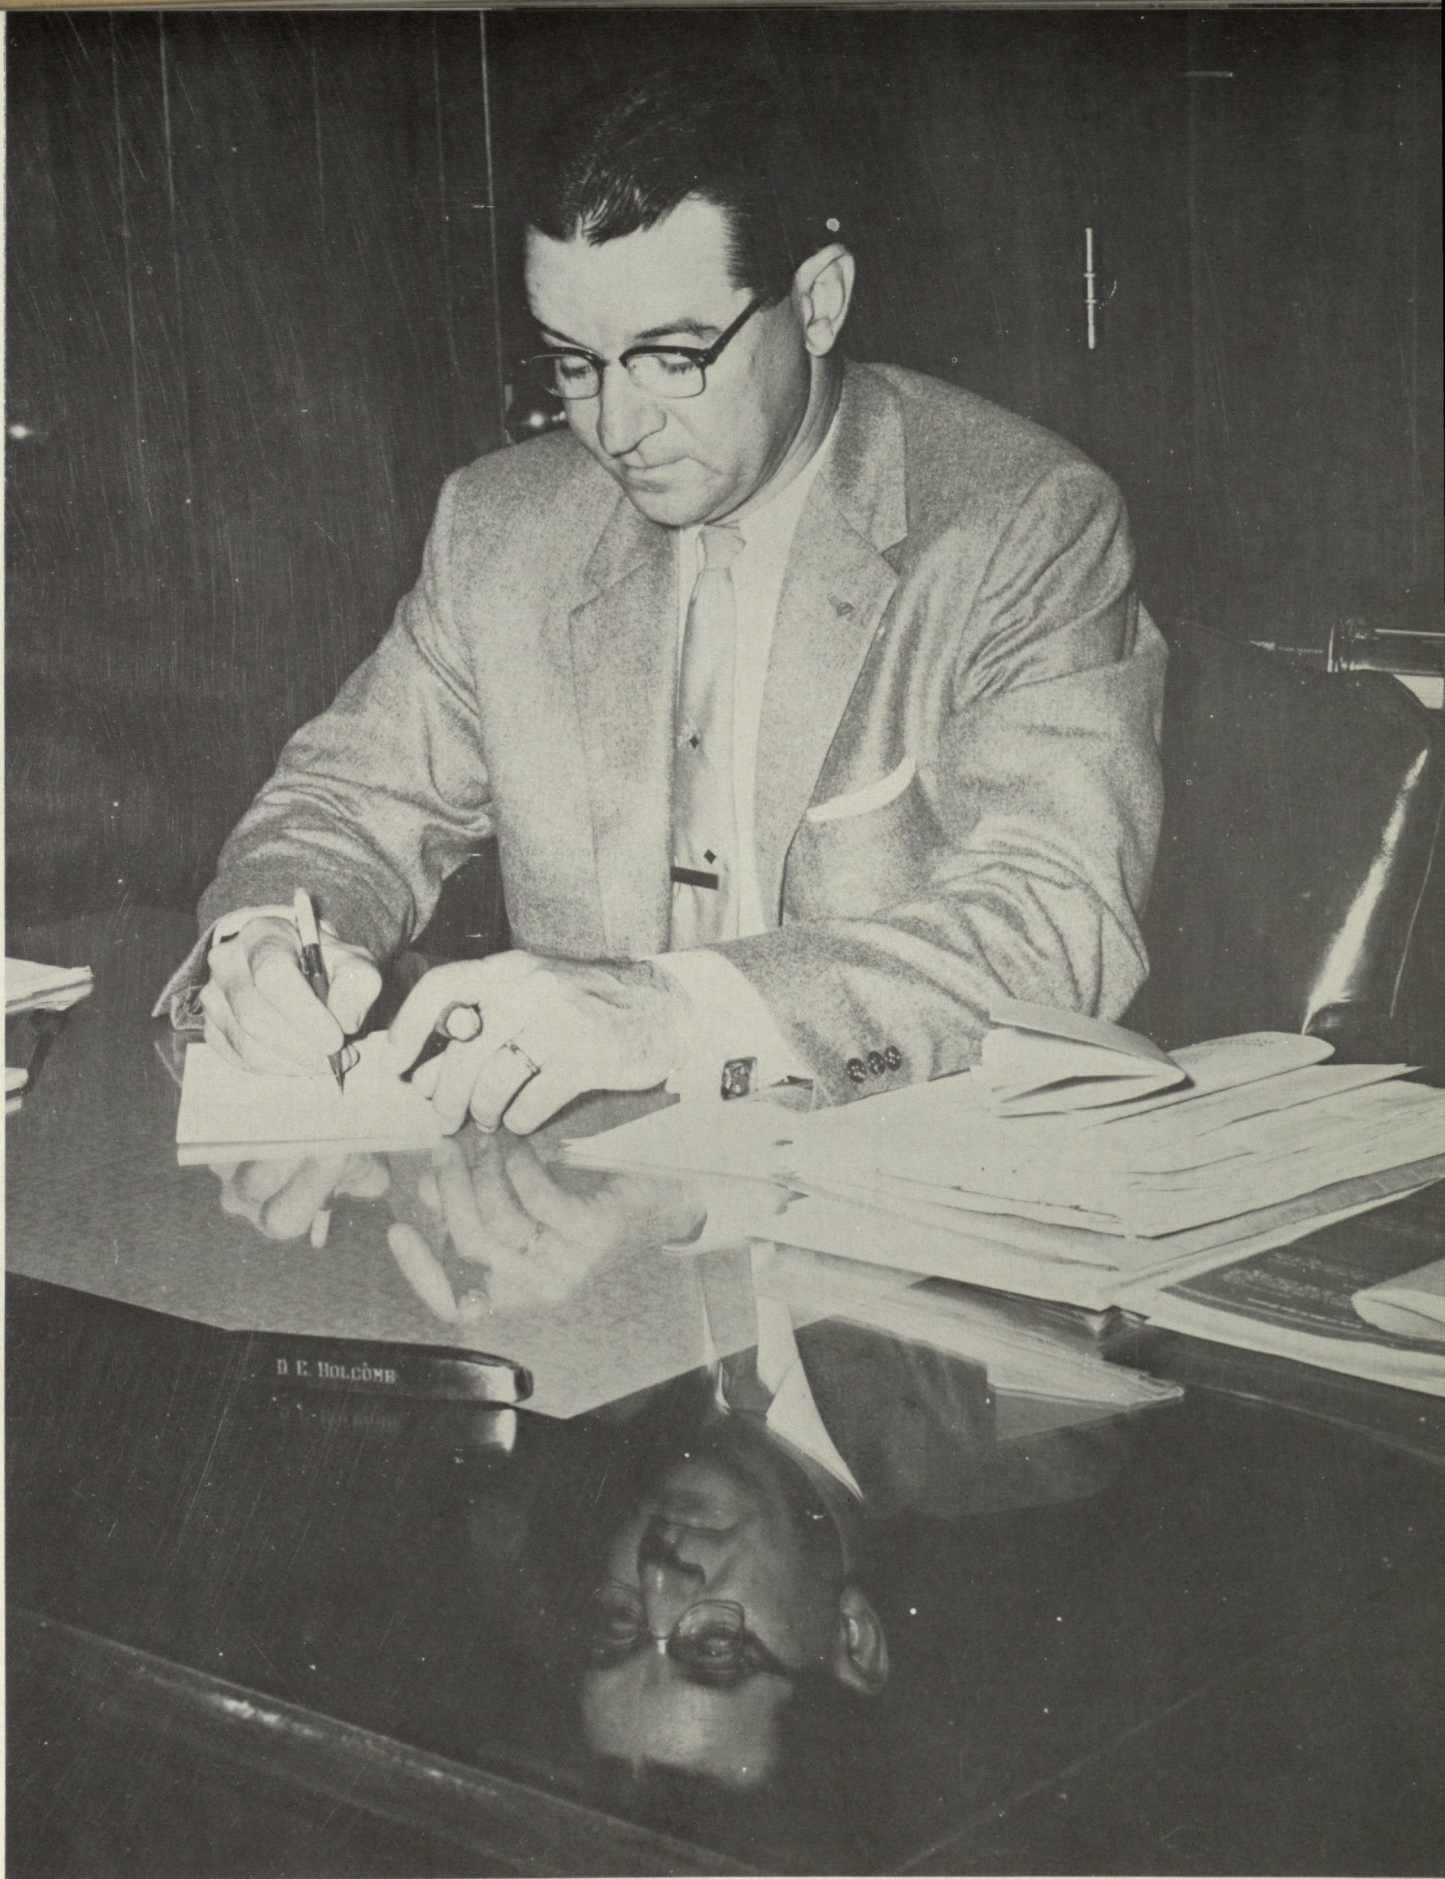

Dr. Holcomb finds time now and then to play a few holes of golf. He is also interested in woodworking. Since coming to Texas Western, the President has taken an interest in lapadery, the art of metal work and jewelry making.

Dr. Holcomb hopes to make Texas Western one of the outstanding schools in the Southwest. He said, "the raising of academic standards cannot be done overnight, but there must be a gradual increase in the minimum standards of the school. Although the size of the school is of no consequence, there are definite needs for the expansion of physical facilities. A critical need exists at the present time for a large classroom building and an office building." Dr. Holcomb says that the construction of these buildings should begin in 1958.

PRESIDENT HOLCOMB CONGRATULATES MAJOR GENERAL ROBERT WOOD ON HIS COMMENCEMENT ADDRESS

*President of Texas Western*

*DR. DYSART E. HOLCOMB*

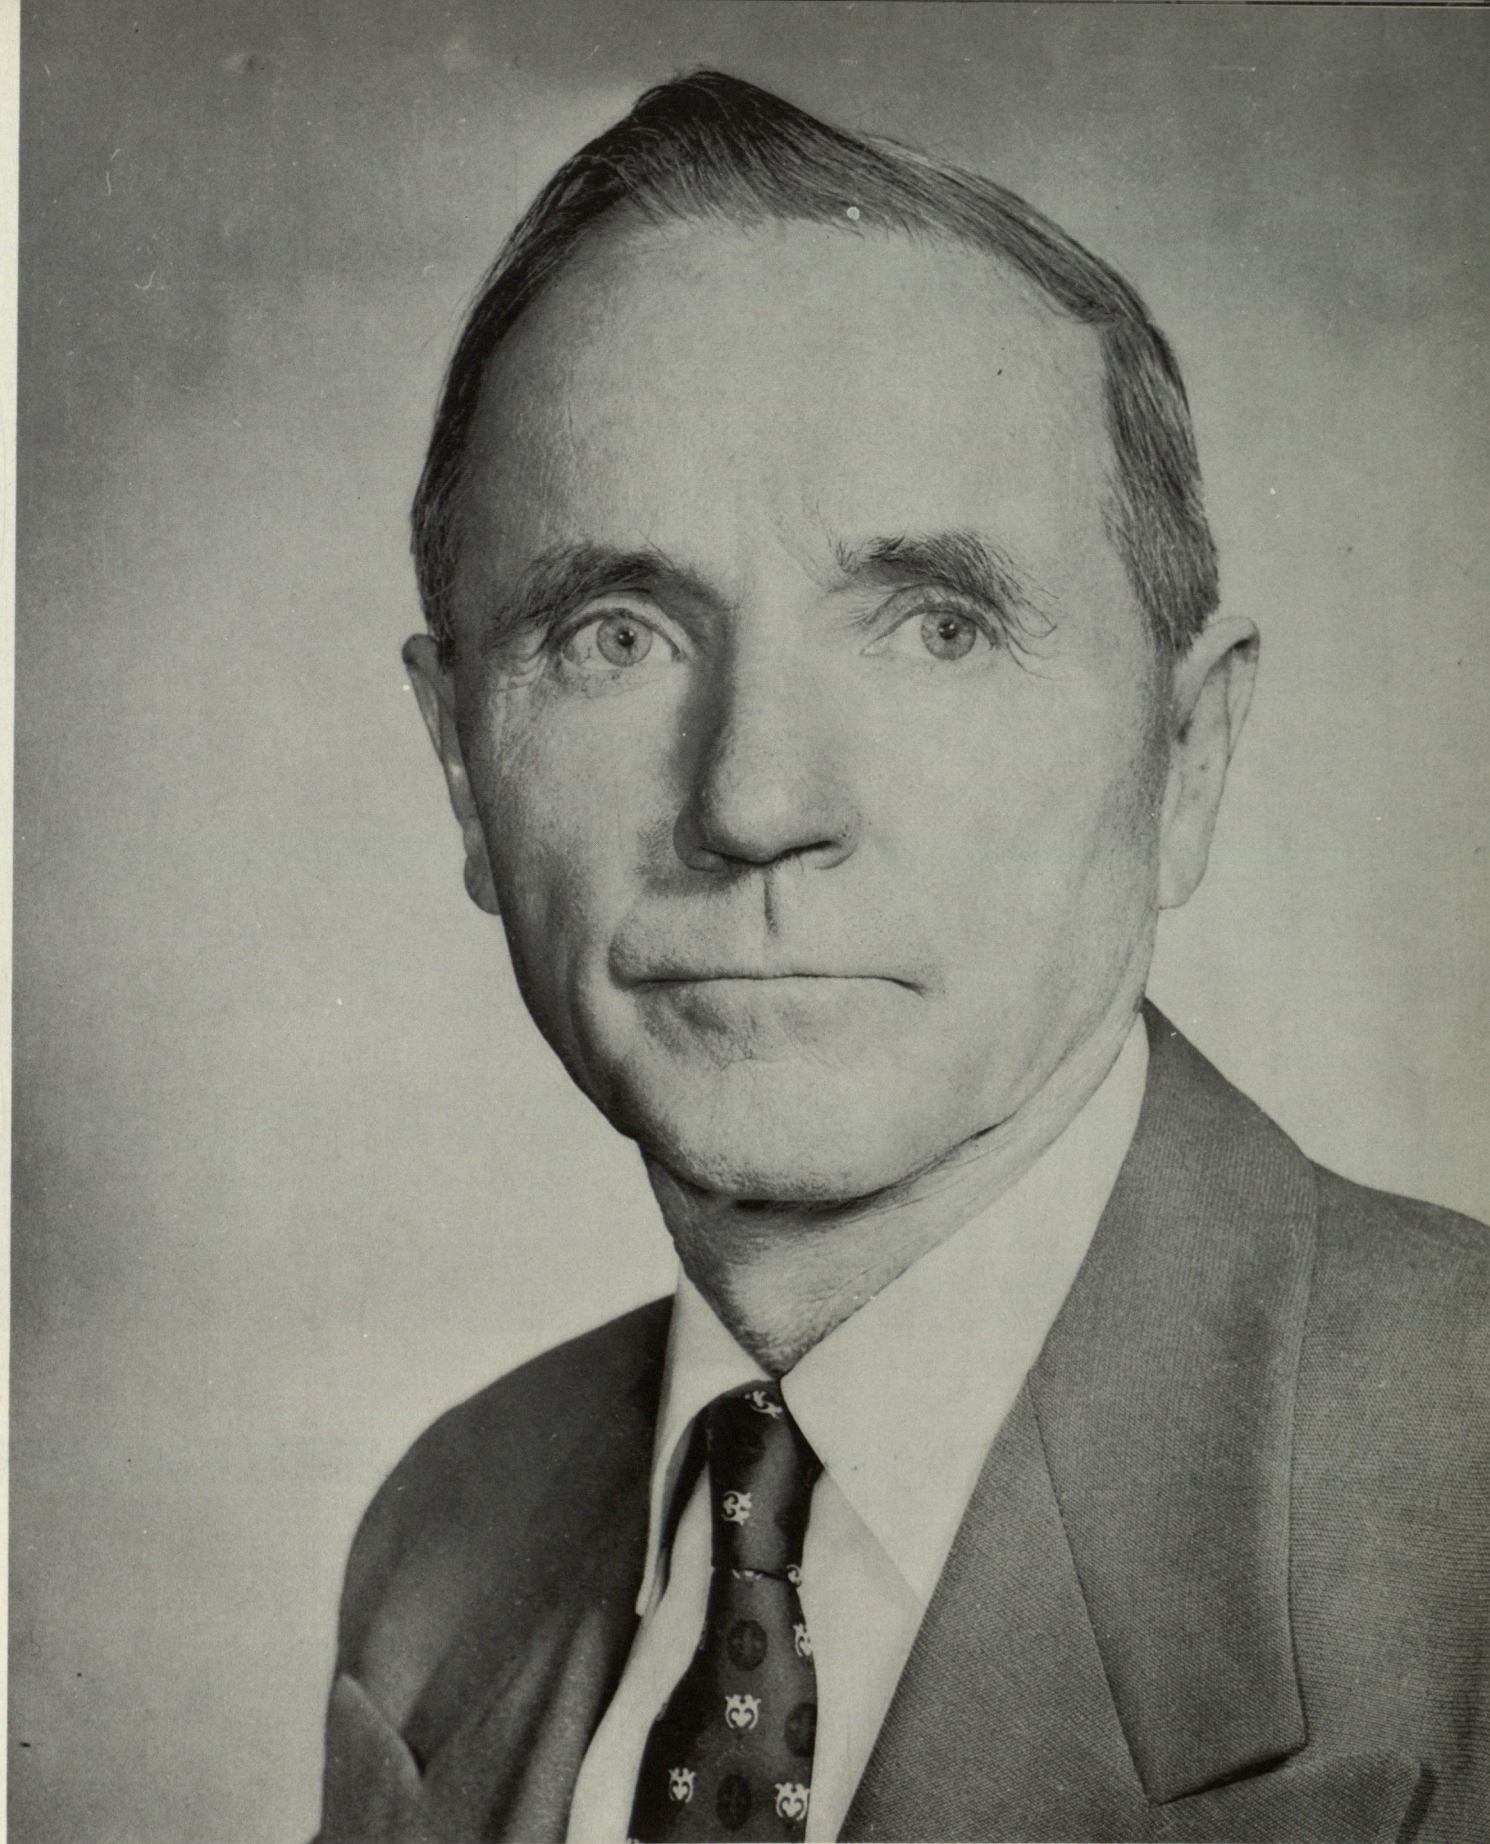

To Dr. John L. Waller, Dean of the Graduate Division, we dedicate this 1957 Flowsheet, in gratitude for the service he has rendered this school and its students for the past twenty-five years.

Dr. Waller has taught since 1906, except for time out for graduate work and overseas duty in World War I. He came to Texas Western in 1931 to serve as Chairman of the enlarged Department of History and Government, when the college was authorized to offer a Bachelor of Arts degree. In 1940, when the Graduate Council was established, Dr. Waller was made its first chairman. Since that time he has served in this capacity.

We of the Flowsheet are proud to present this annual to this man who has been an integral part of Texas Western's growth.

#### HISTORY OF TEXAS WESTERN COLLEGE

El Paso's own college was created in 1913 as the College of Mines and Metallurgy by a legislative act. This act charged the institution with teaching and research in mining and metallurgy and allied subjects and placed it under the control of the University of Texas.

The school opened in September, 1914, in the building of the former El Paso Military Institute, which was donated by the city of El Paso. In 1916 the main building burned, resulting in a decision to move to the present site on the west side of Mount Franklin. The Legislature voted an emergency appropriation of \$100,000 for new buildings.

The name was changed to Texas Western College on June 1, 1949, to recognize the expansion of the curriculum into various fields.

Dear Miss Maris:

The difficult, though pleasant, task of choosing your Beauty Contest winner and honorees is completed.

I found myself in as great a quandary as Moses in our motion picture, THE TEN COMMANDMENTS, when he is asked to choose from among Jethro's seven beautiful daughters. He says, "The shadow of my wisdom has fled. Can a man choose from among the stars of the sky?"

The shadow of my wisdom having fled I felt the compulsion to select 7 honorees instead of 4 - in fact it was difficult not to include many others.

My congratulations to the winners - and to Texas Western College for its high standard of feminine loveliness.

Sincerely,

#### KIDD FIELD AND HOLLIDAY HALL

The Miner's stadium was begun in 1921 at a cost of \$11,000. It was without a name until 1933, when the stadium was named for John W. Kidd, dean of the engineering school from 1914 until 1946.

Adjoining Kidd Field is Holliday Hall, which was constructed in 1932. Here was the center of Border Conference sports and the location for assemblies and dances for many years. This building was named for Tom Holliday, who was engaged to coach the Mines' squad in 1921.

The cheerleaders add spirit to the Miners' games.

The TWC Golddiggers added a great deal of color to the Miner home games. Their fine precision marching was enjoyed by all. Headed by Sue Dickerson, the Golddiggers were only a part of the Marching Cavalcade which entertained at half-time. The other units included in the Cavalcade are: The Texas Western Marching Band, directed by Dr. John Carrico, with Tidley Moseley as Drum Majorette, and the Majorettes with Freda Howey as Feature Majorette. These groups combined their efforts and backed the Miners at every game.

Mike Brumbelow completed his seventh season as head coach of Texas Western by being selected by his fellow coaches to be Border Conference "Coach of the Year," the second time in three years he has been named to this honor. He led the Miners to their most successful season with a record of 9 wins and 1 loss, sweeping all Border Conference games without tie or defeat to win their first conference title in history. The climax to such a fine season was fitting, an invitation to be host team in the Sun Bowl. Mike's teams have been noted for their fine defensive play and a thorough knowledge of fundamentals. He is held in highest regard by the men who are the best judges of a coach's ability, the coaches themselves. The Texas Western football fans also give him their wholehearted support. Perhaps the highest tribute that can be paid him is to say that the men who play for him want to give him their best, every game.

THREE GOOD REASONS FOR TEXAS WESTERN'S FINE TEAM

## TEXAS WESTERN 0      GEORGE WASHINGTON UNIVERSITY 13

A classic battle of power versus speed was expected as the favorite Texas Western met Bo Sherman's Colonials of George Washington University. The Miners had the advantage of speed and the home field but had to cope with the husky Colonial line and a weight advantage of 20 pounds per man. The big, rugged, Colonials shattered TWC offense, shackled its speed, and struck twice for touchdowns and a Sun Bowl victory. The sizeable weight advantage and a solid foundation of fundamental football were big advantages for the

Colonials. They outblocked and out-maneuvered the Miners. The visiting team threw up an almost impenetrable pass defense which hurt the Miner chances for winning. TWC's backfield got loose just once in the game and traveled 50 yards to the Colonial 26-yard line. A 15-yard penalty called them back and the drive was killed quickly. Penalties, fumbles and the excellent Colonial pass defense cost the Miners their first loss in Sun Bowl play.

A 10-yard field goal by Berman Corbell in 16 remaining seconds clinched victory for the Miner eleven in the 1956 opening game. The Miners led at the half by a score of 3 to 0 but fell victim to the Red Raiders third-period drive of two Touchdowns. With four minutes gone in the 4th period, Hugh Harmon went across

#### COACH GEORGE McCARTY

This year the Miner Basketball squad finished one of their finest seasons. Coach George McCarty led his men to a record of 15 wins and 8 losses. He coached them to their second Border Conference win, the first since 1941. The players that have worked with Coach McCarty hold him in their minds with respect and admiration. This editor would like to express the feeling all TWC has for him by saying thanks for a job well done.

## STUDENT COUNCIL

This year the Student Council has attempted to increase participation in student activities and interest in student government. The first step toward this goal was to lower the price of the S. A. card and yet offer more activities to S. A. members. To increase interest in student government, class officers were requested to attend all Student Council meetings, and organizations were invited to send a representative to the meetings. As a result of the efforts of the Student Council, an average of fifty people now take an active part in student government each Monday night.

The interest and participation in Student Council has allowed this governing body to expand, thus offering more to the individual student in his campus life. Committees have been established to review campus organizations, traffic problems, freshman orientation, academic problems, and disciplinary problems.

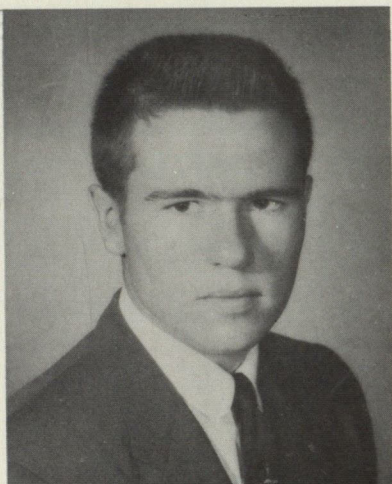

Permanent additions to the campus include a marquee, activity signs for the S.U.B., and our glass burro. The Student Union Board was created this fall to increase on-campus activities.

Rho Delta chapter of Chi Omega was chartered in 1939 on TWC's campus. Rho Delta is one of the 119 chapters of Chi Omega, the largest women's fraternity.

Active in all campus activities the members of Chi Omega have represented their group as Football Queen and duchess, Snow Fiesta Queen, two beauty contestant finalists, two Top Ten students, five members of Who's Who, Sophomore Secretary, one cheerleader, student body secretary, presidencies of six campus clubs, and SAE sweetheart.

The sixty members raised the most money to win Campus Chest and the title of Miss Golddigger this year.

In addition to social activities — dinner dances, luncheons, frat parties, informal teas, — vesper services are held before Christmas and Easter. The group entertains orphans at Easter and adopts a needy family at Christmas. A T.V. set was presented to the Detention Home this year. The flower is the white carnation and the colors are cardinal and straw.

Alpha Phi Omega, Texas Western College's first fraternity, was founded in 1919. It is limited to men with engineering, geology, or physics majors and math minors. APO is not affiliated with any national organization and its members direct its policies themselves. Any man who meets the major and minor requirements notifies the fraternity that he wishes to pledge. The mem-

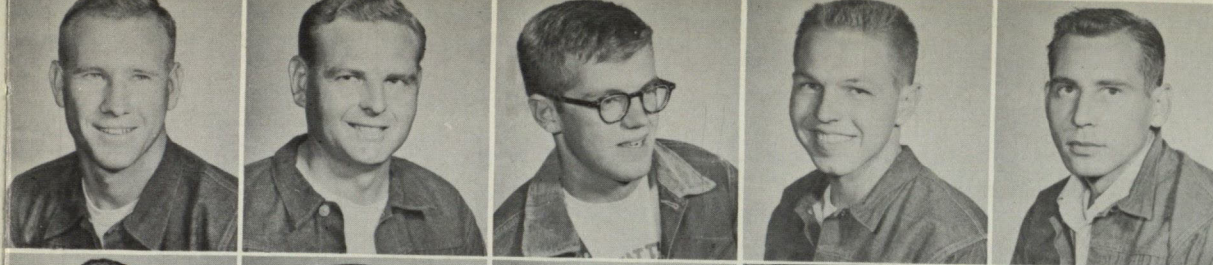

bers then decide whether or not to pledge him.

The fraternity sponsors many traditional events on the campus. They started and are still in charge of "M" day and initiation and picnic for engineers on St. Pat's day. They also usher at the rodeo and participate in campus activities.

Phi Kappa Tau, the first national fraternity at Texas Western, had a highly successful year. It was capped by the chapter being voted the chapter with the most achievements of any other Phi Kappa Tau chapter in the nation between 1953 and 1956. This was largely due to the installation of the swimming pool at the lodge. In addition, a fence, bath house, storage house and patio were built. Members of the fraternity did most of the construction. Phi Tau held a Halloween party for

the Southwest Children's Home, and made luminarios for the Christmas Lighting Contest in Cielo Vista, which won first place in the city contest. Phi Tau also won first place in the Homecoming Parade, "Sing Song", and softball contest. Activities for the year include a Spring Formal and Woman Haters' Week. Many of the Phi Taus have held important student offices on the campus this year.

The fifty actives and fifteen pledges participate in all campus activities and are now in second place in

the Intramural race. Their act for Variety Show has had several engagements.

There are over 300 active SAEs in the El Paso area and the chapter has always had a strong alumni organization back of them.

Campus Colleagues Club was founded in 1941, under the name Mu Epsilon Chi. It is one of the oldest clubs on campus, and it has the distinction of being the only co-educational social organization at Texas Western. In October 1956, Campus Colleagues celebrated its fifteenth anniversary. During the past year, the club has participated in many of the college activities.

The Tri-Cs won first place in the non-Greek class of the Homecoming Parade. Besides being a social organization, the Colleagues participate in various community projects. Campus Colleagues works with the Lulac Club of El Paso, which serves as its off-campus advisory council. The purpose of Tri-C is to establish better relations between non-Greek students at TWC.

This particular gun is a German anti-tank canon, which was captured in the early part of World War II.

By the end of the war it was an obsolete model, since much heavier guns were then being built to withstand the new armored tanks.

**ENGINEERING BUILDING** The Engineering Building is the home of the Schellenger Foundation in Electricity. Through the will of Emma H. Schellenger the Foundation was established in honor of her husband, Newton G. Schellenger. The purpose is to encourage and conduct research and development in the field of electricity. One of the first projects was the development of an electronic cardiograph in cooperation with William Beaumont Hospital.

The Alpha Lambda Chapter of Sigma Gamma Epsilon, national professional fraternity for students of the earth sciences, was installed at Texas Western in 1940. Qualifications for membership are an above average scholastic record and the presentation of a technical paper. The fraternity works toward a closer interest in the allied fields of geology, mining, metallurgy, and petroleum engineering.

## AMERICAN SOCIETY OF CIVIL ENGINEERS

Officers: F. R. Stouse, Jr., Contact Member; E. Carreon, Vice-President; H. Corbett, Contact Member; L. Depanfilis, President; R. Collier, Secretary; D. Bierd, Treasurer.

In 1948, twelve men formed the Texas Western Chapter of the American Society of Civil Engineers. Students majoring in civil engineering who have sophomore standing or above are eligible for membership. The chapter gives the civil engineering students a chance to become acquainted, to introduce them to topics of interest in civil engineering, and to foster development of a professional spirit.

Officers: R. Moss, Secretary; L. Langley, President; W. Olmsted, Vice-President; J. Kellen, Reporter; Mr. Decker, Sponsor.

The student chapter of the American Institute of Electrical Engineers was established at Texas Western in May, 1948, under the sponsorship of Mr. Floyd A. Decker, professor and chairman of the department of electrical engineering. The aims of the chapter are the advancement of theory and practice of electrical engineers together with allied arts and sciences, development of individual engineers and participation in inspection trips to places of engineering interest.

# AMERICAN INSTITUTE OF MINING AND METALLURGICAL ENGINEERS

Officers: B. Garner, Treasurer; J. Westrope, President; Dr. J. C. Rintelen, Sponsor; J. Mock, Vice-President; S. Morrison, Secretary.

The history of the Texas Western chapter of the American Institute of Mining Engineers goes back to the Scientific Club which was established at the College of Mines in 1915. The organization became a part of A. I. M. E. in 1944. The group stimulates interest in various sciences and promotes fellowship between professional men and students.

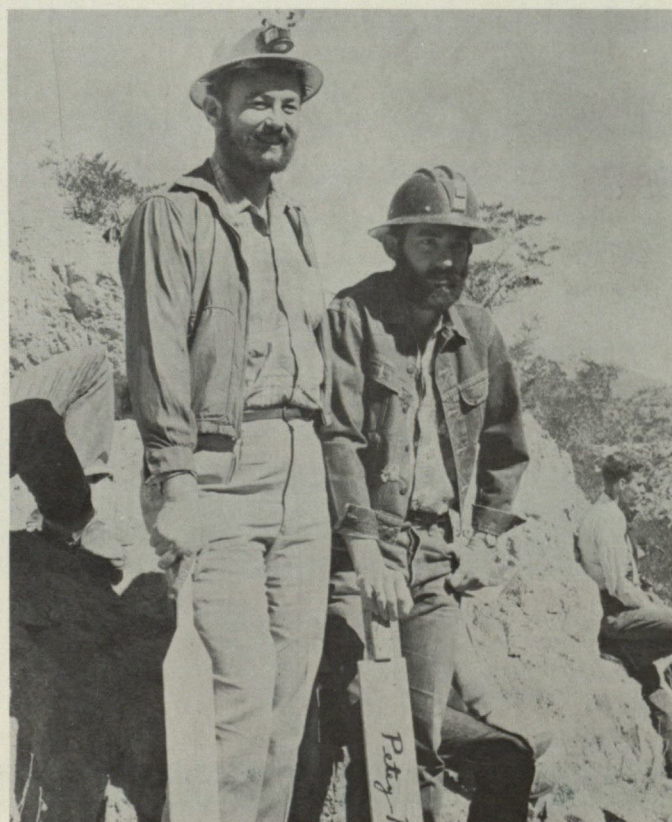

# ST. PATRICK'S DAY

St. Patrick is the patron saint of engineers. His day is celebrated by the engineering students of Texas Western College with a trip to Oro Grande, New Mexico. Here freshman students are initiated. Blindfolded, they are taken through the mine. The trip is ended with the kissing of the Blarney Stone and shaking hands with "St. Patrick." The days activities are concluded with a bean-feed given by the engineering societies.

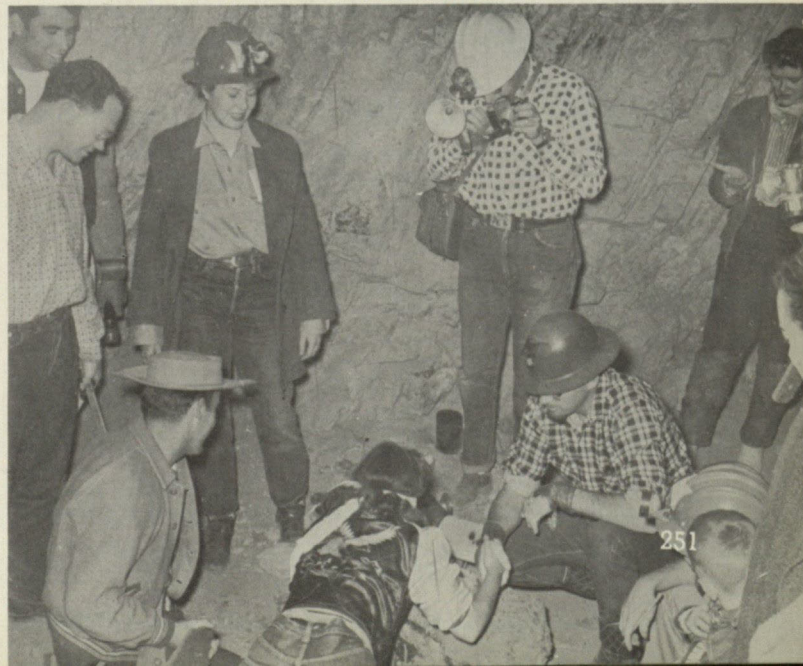

With anxious faces, initiate engineers await entrance to the mine.

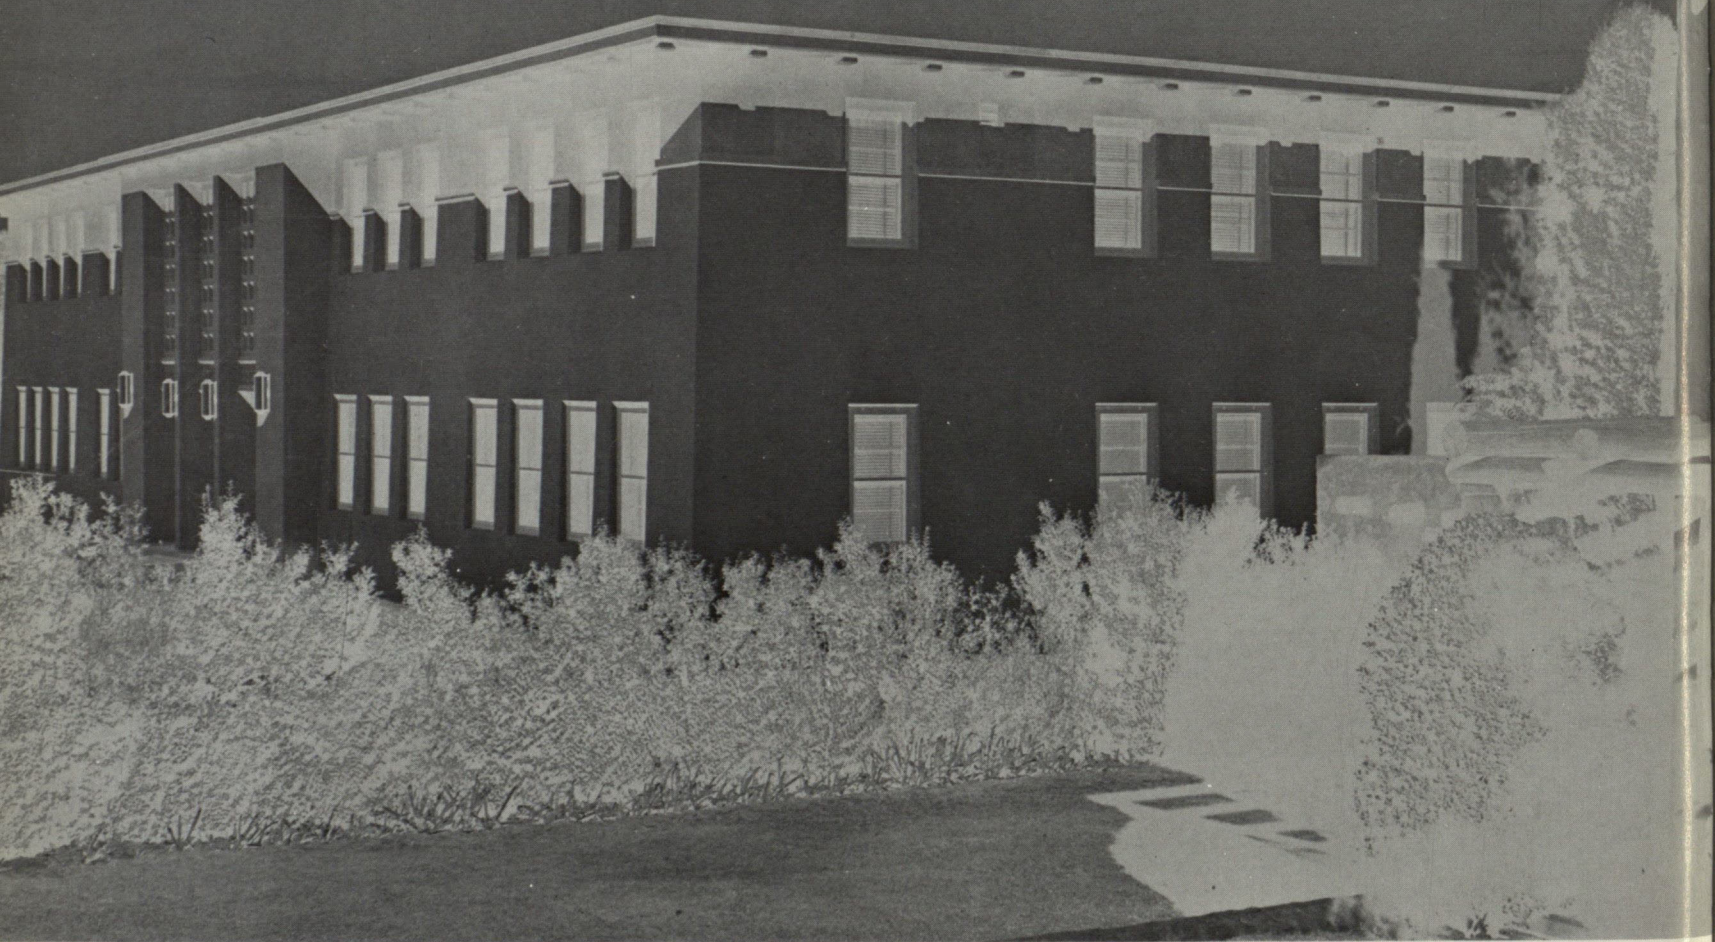

"O. K. What's the square root of two."  
Kissing the traditional Blarney Stone  
and shaking hands with "St. Patrick."

Senior engineers look forward to St. Patrick's Day.  
"It wasn't as bad as I thought it  
would be."

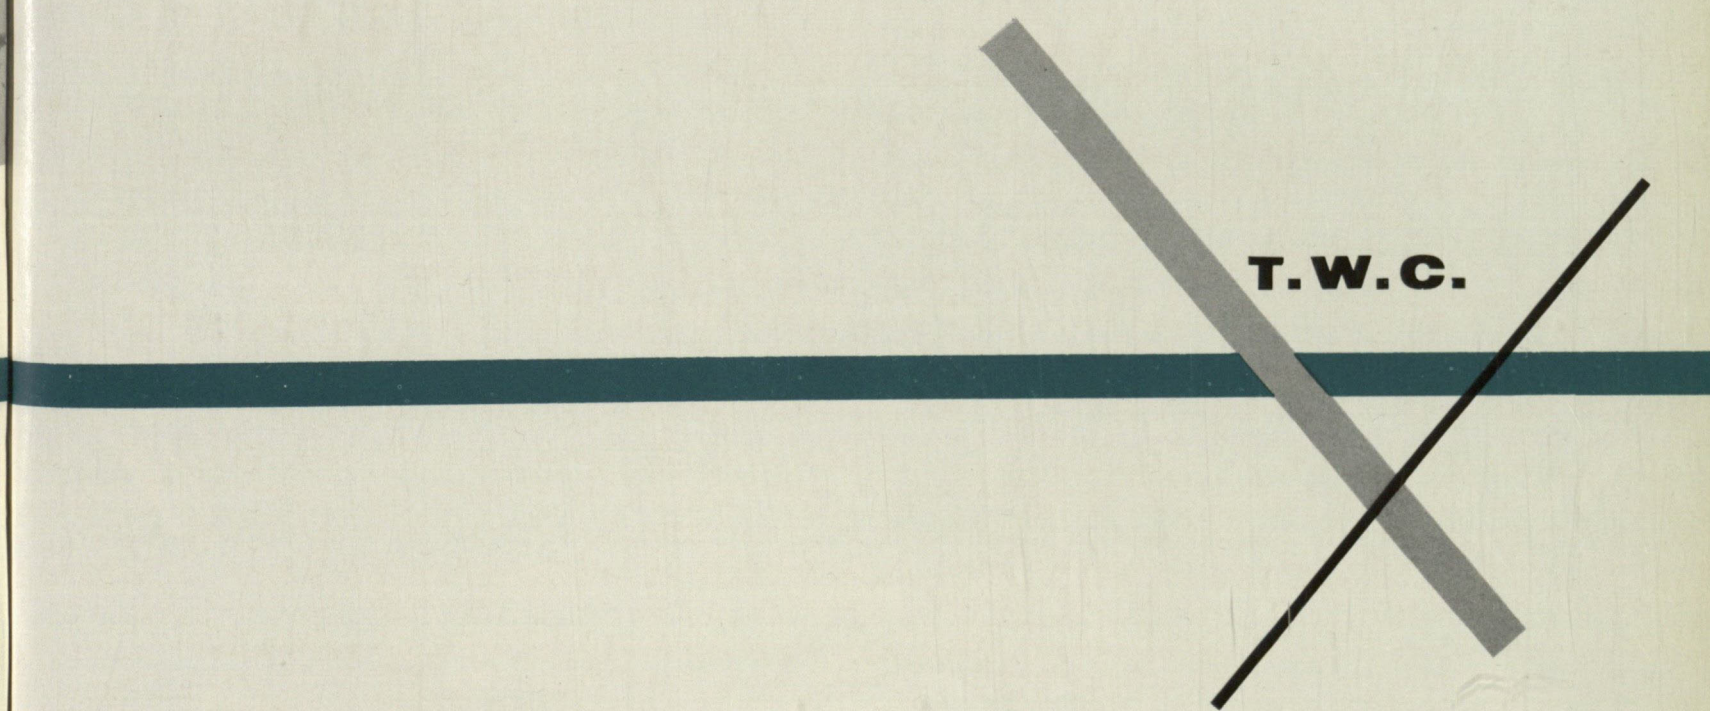

**ADMINISTRATION BUILDING** The newest building on the Texas Western campus is the Administration Building. This three story structure, costing around \$301,000, follows the Tibetan style architecture of the other buildings on the campus. The offices of the president, the vice-president, and the deans of the college are located here. Also the registrar's office, the business office, and the purchasing office are found in this building.

**PHYSICS BUILDING**—This building, first known as Old Main, is one of the four original buildings on the campus. It was the first of the four to be completed in 1917, and in it were housed the administration offices, museum, library, classrooms, physics, and geology labs.

The Tibetan style architecture is found in this first building.

In 1950 Old Main was remodeled. Modern lighting equipment was installed and the interior was painted, as well as changes in the internal structure.

**KELLY HALL** One of the oldest buildings on the campus and formerly the boy's dormitory is Kelly Hall.

Today Kelly is outstanding as the home of KVOF. This is the only FM station in this section of the country. It is a non-commercial, educational station which directs most of its programs to listening groups in the El Paso Public Schools. From two until eight P. M. the station is programmed for the average listener. KVOF is operated entirely by TWC students working for radio broadcasting degrees.

## SPORTSWEAR

Clothes so carefully casual they look like they might have been grown outdoors. Natural scenic wonders, every one of them, with "The Priceless Look" of good taste and clearly-cut simplicity. A week-end program of play clothes by Sacony . . . Shorts, Skirts, Pedal Pushers, Shirts, Tapered Slacks, in fine drip-dry Poplin, Ducklyn, Cotton Knits and Palm Beach, in a great variety of sun-drenched colors. All misses sizes.
