DEDICATION

BAXTER POLK

Since Mr. Polk's arrival to the "College of Mines" in 1936, he has had one goal—to make the library more useful and more attractive to both graduates and undergraduates. From a mere 12,000 volumes that were in the library at the time of his appointment as head librarian, the number of tomes has grown to more than 150,000. Plans for the next ten years include an even greater increase up to 500,000 volumes.

Mr. Polk received his B. A. in English and Spanish from Hardin Simmons, his B. S. in Library Science from

the University of Oklahoma, and his M. S. degree in Library Science from Columbia University. Besides Mr. Polk's duties as librarian, he has performed in many dramatic productions, and he has also participated in many cultural projects in the El Paso area.

Because we are grateful for our library, because we are proud of our library, because of our librarian's personable wit, and because he is our friend—we dedicate this, our Golden Anniversary Edition of the Flow-sheet, to Baxter Polk.

CAMPUS LIFE

September. We greet old friends. We make new friends. We smile. We are gay. We pack sundresses away. We wear dark cottons. We stand in transcript lines, clutching a quarter all the while. We wade through registration. We watch classes close. We grab the wrong class cards. We see Dean Small. We cry for Dean Small. We stand in bookstore lines. We spend money. We spend too much money. We wear beanies. We carry buckets of whitewash. We check out the freshman ladies. We tremble through rush. We pledge. We carry paddles. We wait on actives. We go to class. We smile at the professor. We growl at the professor. We study. We play. We cheer the Miners on to victory. We sing folksongs. November. We build house decorations and floats for Homecoming. We celebrate. We park on campus. We park off campus. We collect parking tickets. We dance. We go to Coed Ball. We go to the Military Ball. We sing Christmas carols. We pray during the silence of a free-throw. February. We take part in Sing Song. We are in Variety Show. We grow beards. May. We go to the Campus Carnival. We throw sponges at pseudo-mermaids. We have fun. We laugh. We cram. We have finals. We cry. We graduate. We live.

We are the students, from 1913 to 1964—and this is our Campus Life.

*Cheerleaders teaching yells,
bus rides to the mountain,
freshmen lugging sacks of lye up the slope,
then passing cans of whitewash
to be thrown by others on the hillside letter.
This is the traditional painting of the "M."*

*Bean feeds are a back to school must,
for they let students meet one another
and relax from the chores of unpacking,
while the women students are treated
to a show of campus fashions and
a preview of T. W. C. cheers.*

*The confusion of registration,
no matter what the student's experience,
results in fees that are always too high,
conflicting classes, general chaos,
and -- alas! -- the plague of every freshman,
those orange and white beanies.*

Registration lasts for days, seeming never to end.

S. A. cards, class cards, resident cards,

deans' cards, activity cards —

until finally you're through —

and can leave the building to

relax in a quiet campus spot.

*Rush leaves many
memories to be remembered
from Dean Resley's lecture
to an Hawaiian Luau.*

*After all the fun
of imitating Daisy Mae,
bringing South Pacific to El Paso
and enjoying the luscious food,
comes the happy news of being
one of the selected few.*

*Meeting new friends,
playing poker, dancing,
and having fun,
are just a few
of the academic skills
learned at Texas Western.*

*It's fun being surrounded
by pretty girls, introduced
to important society, and
danced with to all forms
of flexibility.*

174883

LIBRARY
TEXAS WESTERN COLLEGE
EL PASO, TEXAS

*Due to the well-working microphones,
the students sang aloud with zest,
and made the Hootenanny a real success.*

*An exciting run and a well-executed play
are enjoyed in the new Sun Bowl stadium
while students and fans show their spirit
as the Miners attempt a victory.*

Staying up late at night

to work on a float

produces a winning design.

Bands, Golddiggers, and trombones

contribute to the Homecoming parade.

*Riding in vintage automobiles
and miniature fire trucks
is all a part of our Jubilee
Year Homecoming Parade.
Then on to campus to see the
prize winning house decorations,
and the prize winners themselves.*

*Football season, at Texas Western College,
with its many exciting and worry filled moments,
is remembered for the colorful orange and white displays
of the football team, band, goldiggers, and cheer-
leaders.*

*The press-box of the new Sun Bowl stadium
held many hopeful watchers
each time the TWC Miners faced
another opposing team.*

*Each of the five sororities
on the Texas Western campus
proudly displayed their newly acquired pledges
at the Pledge Open House held in the fall.*

*President Kennedy's assassination
affected Texas Western students
much the same way as the rest of the country.
They held a candlelight parade
to honor the stricken hero.*

*Cheerleaders, megaphones, and milling crowds
are common football game occurrences
while the Miner burro, the Golddiggers
and Marching Cavalcade are TWC's
own contribution to the sport.*

*While the Miners completed an exciting season
football sweethearts, after-game dances,
and homecoming preparations were the
parts played by the other TWC students.*

*Buying books and trying on beanies
are only the initial part of school,
for soon there follows many long hours in the library
and last minute cramming for finals.*

The highlight of Greek Week was the faculty bean feed and although the lines were long, the food was good. The Greeks also collected for the United Fund, and added a generous amount to the city's fund.

Basketball season and beauty contest time

come at the same point on the calendar.

In fact, these five lovely coeds were named

TWC's most beautiful girls the night that

our nationally ranked team beat Wichita.

The faculty is often the host to a visiting group, so afternoon teas are a regular occurrence for them where they can relax and enjoy each other's company.

*Cosmopolitan Club dances in the Sub,
Borges Hall, the men's new dorm,
coeds riding in an open car,
pizza at Ardovino's, and
luncheons honoring the intellectual elite
are every day sights on the TWC campus.*

*The annual Sing Song
sponsored by the Student Association
saw grand entertainment from
the college groups
and Chi Omega sorority
as the Sweepstakes winner.*

*Fun in the sun,
Fun in the water,
and Fun watching the pretty girls
highlight the activities
on All TWC Day
held each spring.*

*Pretty Toni Wiggs was crowned queen of
the annual summer school dance
amidst colorful crepe paper streamers
and resounding trumpets.*

*At Texas Western College there
is a sharp contrast of interests
among the students. Here the
judoka and the cowboy meet
and mingle. The Orient and
the Southwest come together.*

*The football game, with the
cheerleaders, the Golddiggers,
and the band, presents
the true spirit of Texas
Western College.*

<i>Juniors</i>	136
<i>Sophomores</i>	146
<i>Freshmen</i>	156

At the first commencement of the College of Mines in 1916, three proud men received their degrees. It was a thrilling moment for them and a thrilling moment for the school. These were the first graduates of a new college; their achievement gave great joy to a few dedicated men who had strived, under great difficulties, to lead them towards this happy day. The College was small; the equipment was meager; the budget was inadequate; nevertheless, the end had been attained.

In 1914, twenty-seven students were working towards the one degree offered at that time. In 1923, most of the 65 students then enrolled turned out to mark out and paint the "M" on Mount Franklin. Ten years later there were 338 men and 328 women in our college. Yes, the College of Mines was expanding. By 1939, 663 degrees had been conferred, and two years after a graduate study program was initiated.

Today 7365 students have received their degree at Texas Western College, 454 issued to undergraduates this last year, while 45 were Master degrees.

In 1914, there were twenty courses offered to the students. Thirty years later this number had increased to 285. Today, excluding the individualized music program, there are almost 800 different courses listed in our catalogue. Thirteen degrees are conferred. The student body numbers more than 6000 and grows every semester. What a proud achievement from such small beginnings!

GRADUATES

This is the first year that a graduate section has been included in the Flowsheet. The Graduate School is a rapidly growing section of Texas Western College, and currently there are 100 students working towards their Master's degrees. Graduate degrees are offered in English, Education, and Physics.

FACULTY

When, fifty-years ago, the State School of Mines and Metallurgy opened its doors to twenty-seven eager students, the faculty consisted of four professors, three lecturers, and a student assistant. The subjects taught were all allied to engineering, and the professional qualifications of these very able, practical men were either Bachelor of Science or Engineer of Mines degrees. Conversational Spanish was taught twice a week by one of the students, a native of Mexico. This was the nucleus of a faculty that was to grow in size and stature — figuratively speaking, of course—until it attained its present proportions.

With the annexation of the Junior College of El Paso in 1927, and the consequent broadening of the curriculum to include a liberal arts program, the faculty increased to five professors, three associate and seven adjunct professors, and sixteen instructors and lecturers.

In 1950, when the college was renamed Texas Western College, there were 114 full time faculty members, twenty four of which held a doctorate degree.

Today, there are over 6,000 students at this College. They are inspired and guided by some forty-eight professors, forty-three associate professors, fifty-four assistant professors, fifty-seven instructors, one football coach with three assistants, and one special lecturer. Assisting them are thirty-six part-time instructors. Sixty-eight of this total of 243 have obtained their doctorate. Certainly that nucleus of 1914 has grown in size and stature.

We, the students, are proud of our great body of learned men who have dedicated their lives to the imparting of knowledge for the betterment of humanity.

May these men and women find deep joy and satisfaction in the knowledge that their efforts are greatly appreciated by their students who take pride in being a part of this growing college.

Joseph M. Ray

ART

E. Coogler

J. Baird

Dr. J. L. M. Baird
Department Head

The function of the Department of Art is that of providing thorough and careful training in the fundamentals and techniques of the basic arts; drawing, painting, sculpture, jewelry making and silversmithing, ceramics, and graphics. This program includes the study of the development of art and acquiring appreciation through courses in art history. The Art Department also offers special courses of commercial design in advertising and interior decoration; and for the prospective teacher,

art education classes deal with the processes of teaching art at the elementary and secondary levels. Furthermore, the Art Department offers to the professionally oriented art student a research course especially designed to allow him to select and explore intensively in an approved art area with the guidance of a member of the art staff. Texas Western's Art Department takes great pride in its art students.

BIOLOGICAL SCIENCES

Dr. J. B. Reeves

Texas Western's Biological Science Department; which at the present time consists mostly of pre-med and pre-dental students, places its greatest emphasis on giving the graduate a sound foundation in the basic biological sciences—as well as the development of outstanding scholarship.

P. Chrapliwy

E. Duke

C. Landolt

The Department of Chemistry plays a dual role on the Texas Western Campus; it is a service department as well as a degree granting department. It teaches the elementary courses in chemistry that are so important to the modern engineer or chemistry major; and at the same time, it offers programs leading to the Bachelor of Science and Bachelor of Arts Degrees in chemistry. The department's program is designed to aid the advanced technical education of exceptionally adept students, to allow the beginning student speedy advancement through his basic courses, and to offer advanced courses in qualitative and quantitative analysis. The chemistry department extends its curriculum from biology and medicine on the one hand to theoretical physics on the other. It offers almost unlimited possibilities for research.

The Department of Economics and Business Administration serves three functions: It provides instruction in the particular business careers of Accounting, Economics, Finance, Foreign Trade, Management, Marketing, and Secretarial Studies. It offers a major program leading to the Bachelor of Arts Degree of Business Administration and to the Bachelor of Business Administration Degree. And it strives in getting the graduate an excellent reception and acceptance in his chosen field by not only continually improving its curriculum, but also by gaining publicity for the department through its faculty's presenting papers, attending national meetings and conferences, and writing dissertations. Individual economics and business administration courses, as well as the entire curriculum, are kept up to date by frequent revisions. For instance, the department now has a statistics and computer center of calculators to modernize the courses in data processing and accounting and a classroom full of IBM "Selectric" typewriters, the latest model developed by IBM. The department takes pride in its goal—that of gaining recognition and a reputation for its graduate.

ECONOMICS and BUSINESS ADMINISTRATION

Dr. R. W. Burns
Department Head

EDUCATION

The Department of Education, which has the largest number of majors on the TWC Campus, emphasizes two levels of development: the undergraduate courses pertaining to elementary and secondary education and to special education of exceptional or mentally retarded children, and the graduate division primarily stressing training counselors leading to the Master of Education. The principal aim of the Department of Education is to turn out good teachers—all under three significant areas. First, the program of general education gives every student in the field of Liberal Arts an excellent academic foundation. Second, considerable work is emphasized in an area of specialization; for example, the students “practice teach” in public schools—thirty-six hours at the elementary level and forty-eight hours at the secondary level. And third, a professional attitude is developed through introduction of practice teaching in the education classes. This program should give every student a broad foundation in education; it should prepare an individual to teach in his area or areas of specialization; it should give some understanding in regard to how students grow and mature, in the procedures of evaluating students, how students learn, and how to develop curriculum units. The students are exposed to various teaching methods, in addition to actual teaching. Because there are unlimited opportunities in teaching profession, it is not surprising that at Texas Western more degrees are granted in Education than in any other field.

In the Department of Engineering at Texas Western College the student has a choice of curricula in Civil Engineering, Electrical Engineering, Mechanical Engineering, and Drawing. These Curricula are designed to prepare the student upon graduation to hold positions in various fields of engineering.

The civil engineering courses range from problem solving and data analysis to advanced structural analysis, engineering systems, and concrete design. The electrical engineering program includes curricula ranging from electromagnetic field theory and engineering electronics to advanced topics in communication, engineering electronics, digital and analog computers, and energy conversion. Mechanical engineering ranges from such courses as mechanisms and thermodynamics to mechanical engineering measurements and system analysis.

In the research laboratories students perform several of the classic experiments of engineering and several dealing with recently discovered phenomena.

ENGLISH

ENGLISH

The Department of English endeavors to make significant contributions to the education of the Texas Western student in two ways. First, it seeks to teach the art of speaking and writing well. In its freshman advanced courses it demands analytical thinking, logical organization of ideas, and the expression of these ideas in clear, precise language. Second, the Department seeks to help the student know and realize the present world around him and the world of the past. It hopes that through the study of these literary works, the TWC student will grow in an awareness of the human assets which enrich life and the mind. The Department of English gives to professionally-minded students courses that broaden not only his scope, but also his view of all mankind.

Dr. J. M. Leach
Department Head

J. James S. Justice R. La Fontaine T. Penfield

J. Quarm E. Richeson L. Sipiora R. Small

G. Smith R. Spiese P. Stroud R. Walker J. West

The Department of Geology and Geography offers course work leading to various fields of specialization—chemistry, physics, paleontology, and all the geological fields. The student may also complete a curriculum in other major branches of engineering. Experiencing an outstanding growth in the last few years, the department also offers service courses to other academic departments.

GEOLOGY

L. Cardenas

R. Meek

S. Myers

M. Straus

L. Nelson

The Department of Government strives to give the student an understanding in the various kinds of governmental systems, doctrines, and relations. Courses investigate the organization, powers, function, business methods, principles and political problems involved in international relations of the states of the world with particular emphasis on nationalism and imperialism. This year, besides being a new department within itself, the Government Department had added a new course; Inter-American International Relations, which involves the political, economic, and cultural relations among the Latin American states. The department aims to give the graduate a thorough study of the processes involved in the management of men and materials in the accomplishment of the purposes of government.

GOVERNMENT

HEALTH and PHYSICAL EDUCATION

The Department of Health and Physical Education at Texas Western College, believing that every student needs a well-rounded education, has organized a program to meet these needs. Service courses for men are designed to provide vigorous, strenuous, and aggressive activities that will be of lasting value; service courses for women are designed to provide activities that are mentally and physically stimulating, as well as promoting grace, vigor, and poise through group and individual instruction. All service courses are provided to promote vigorous, mental, emotional, social and physical health; to further the education of the individual through physical activities; to develop motor skills; and to prepare for leisure time activity. In addition, the Department trains the student for teaching.

Ben Collins
Department Head

K. Craig L. Glardon D. Hardin M. Loper

M. Broaddus M. Dickson W. Fuller J. Harvey R. Strickland C. Warner

The Department of History provides its students with an opportunity to survey civilization from its beginning to the present, including the major political, social, economic, and cultural trends of the past and present which have influenced the world situation of today. The Department strives to give the students a broad background of man's evolution from a historical viewpoint.

HISTORY

JOURNALISM and RADIO -T. V.

The Department of Journalism and Radio-Television, realizing the need for professionally trained men and women in the field of communications, offers a complete curricula in the field of journalism and radio-television. Organized on a professional basis, the Department aims to provide students with a broad background in English and history, economics, political science, and business—plus realistic training under professional newsmen and radio-television men as instructors. Texas Western facilities are new, modern, and complete, offering the prospective student unsurpassed opportunities for learning every phase in the field of communications.

J. Middagh

MATH and PHYSICS

Virgil Hicks, Department Head

The function of the Department of Math and Physics is that of providing thorough and careful training in the concepts and techniques of mathematics and physics. Because of the extremely rapid growth of knowledge in scientific and technical areas during the past few years, the Department's program includes the modern facilities for teaching. The major departmental objectives are to offer courses leading to a bachelor's degree with adequate preparation for graduate study, to offer courses necessary for public school teacher certification, and to offer service courses as requested by other academic departments. The Department now offers a Master of Science degree in Physics, a new addition to the degrees conferred upon Texas Western students.

MINING and METALLURGY

W. Heer

E. Thomas

The Mining and Metallurgy Department offers a curriculum designed to give the engineering student a comprehensive study of the applicability, safety, production, and comparative costs of mining methods; of mine examination and valuation; of mineral and rock mechanics; of the principles of metal extraction, processing, and refining; and of the structures and properties of metals and alloys. The Department of Mining and Metallurgy fulfills its function of providing the careful training necessary for any engineering curriculum.

G. Bond

J. Briggie

J. Neely

C. Kiefer

J. Woodyard

The Department of Military Science strives to produce junior commissioned officers who by their education, training, and inherent qualities are suitable for continued development as officers in the United States Army. Training in military leadership is emphasized, as well as instruction in subjects common to all branches of the Army. Upon successful completion of the four-year ROTC program, students who qualify as Distinguished Military Graduates are eligible for appointment as commissioned officers in the Regular Army.

MILITARY SCIENCE

MODERN LANGUAGES

The Department of Modern Languages provides its students with an opportunity to acquire an officially approved language as a tool of research and a medium of cultural enrichment. The methods of instruction employed aim at the development of all skills necessary for practical use of the language. All these skills are developed equally in all of the classes. The impact of language in the modern world of today affects the sources which the college student must use in order to obtain technical information. The Modern Languages Department meets this need by making available to the student the language he needs to understand these new sources. Of prime importance to any collegiate student is a knowledge of a language which he does not use everyday.

MUSIC

In the Department of Music the student has a choice curricula designed to satisfy several objectives: Teacher training, professional training, and avocational interest. The departmental program aims to give the student a sound foundation in music theory, literature, and education. Also part of the program is applied music: Band, Choir, Orchestra, Chorus, Lab Dance Band, a fully equipped symphony orchestra, a concert and marching band, a laboratory band, small chamber groups and two larger choirs. Also, many non-majors participate in these activities in addition to the departmental majors. Study and public performance are important parts of the life of the music major.

E. Eicher R. Henderson H. Hillyer M. Meyer H. Nelson L. Thayer O. Eidbo

PHILOSOPHY and PSYCHOLOGY

Dr. John Haddox
Department Head

Man and his behavior, a search for truth through logical reasoning rather than factual observation, man's internal and external relationships, the various phases of human culture, and the principles of growth and development improvise the general curricula topics provided by the Department of Philosophy and Psychology. The problems of matter, life, mind, truth and value are investigated to give students a thorough understanding of the problem of knowledge and human behavior.

G. Barrientos

T. Chism

R. Whitworth

The Department of Sociology specializes in man's relation with man—human relationships, a subject of universal interest today. In order to understand the world of today, one must have an appreciation of the ways in which individuals, groups, and nations have related themselves to each other in the past as well as in the present. Political, economic, religious, educational, and family systems are investigated by means of the specialized techniques of sociology in an effort to give students at Texas Western familiarity with and understanding of man's behavior in association with his fellow men.

M. Quinn B. Hollingsworth

Dr. Clark Knowlton
Department Head

SOCIOLOGY

STAFF

The Staff of Texas Western College patiently give their time and effort in working "behind the scenes" to maintain all the facilities necessary to provide a well-organized college system. They strive endlessly in always trying to obtain the needs of Texas Western College.

BOARD of REGENTS

Left to Right: John S. Redditt, Levi A. Olan, Wales H. Madden, Jr., A. G. McNeese, Jr., W. W. Heath, Walter P. Brenam, Frank C. Erwin, Jr., H. F. Connally, Jr., Mrs. J. Lee Johnson, III.

Front row, left to right: Chris P. Fox, Conrad P. Ramirez, Mayor Judson F. Williams, chairman, Mrs. Jack Kitchen, Mrs. J. Burges Perrenot, Mrs. Thad A. Steele, President Joseph M. Ray, Marshall Willis; second row: Richard W. Mithoff, Dr. Ray Small, William Latham, Jack C. Vowell, Jr., Francis Broadus, Jr., Francis Morgan; third row: Edward F. Schwartz, Theodore

R. Lind, Dr. Milton Leech, Frank Hunter, Col. J. T. Meteri; fourth row: Dr. H. E. Charles, Dr. M. P. Spearman, J. M. Hanks, Richard C. White, Granville M. Green, Dr. Floyd S. Fierman; top row: Jack V. Curlin, Dr. L. D. Hadkew, William B. Hardie and Edwin W. Carroll.

These people are the civic and business leaders in our community who will be responsible for the projected growth and academic success of Texas Western College within the next ten years. Through their efforts, the T.W.C. students of 1973 will enjoy advantages we can only dream of.

MEMBERS of MISSION '73

In this Jubilee year, let us look at some of the groups that were formed in the early days of our college, but which fell by the wayside in the passage of time.

Groups of aspiring authors have banded together from time to time; the Scriblerus Club which, with the students from the Junior College of El Paso in 1927, was followed by the Quill Club, who produced their own Magazine, *The Parchment*.

However, there does remain at this college one unsolved mystery. Who were the R. F. D. Co-ed Club of 1924? If, after scanning the various college organizations in this section, there should be someone with the necessary time and inclination, why not form a group for the purpose of clearing up this riddle?

Charles Tupper

Betty Jane Thomas
Secretary—Spring

The Executive Branch of the Student Association exists to implement the laws of the Student Senate and the constitution and to carry out the policies of the President. Within this branch is found an Executive Council and Executive Cabinet. The Council consists of representatives from various councils on campus such as the Interfraternity Council, Interfaith Council, Honorary Council, Business Council, Engineering Council, The Independent Club Council, Panhellenic Council, and the Interdormitory Council. One cheerleader also sits on the council. The cabinet consists of the elected officers and President of the Associated Women Students. The cabinet is responsible for administering the laws of the legislature. These students on this page are the members of the Cabinet, and those on page 194 are the members of the council.

The Student Senate is the workhorse of the student government. Out of it come up to twenty different committees during the course of the year. These committees, under the direction of the Rules committee and the Student Association Vice-president, accomplish whatever work is necessary for the success of the many activities on the campus which fall under Student Association jurisdiction.

Membership in the Senate consists of either one or two representatives from each campus-recognized organization. Each organization, be it Greek or independent, social or service, is allowed one representative if its membership falls below 25 and two if it has over 25 members. In addition, a maximum of ten unaffiliated students may be seated.

STUDENT COUNCIL

STUDENT ACTIVITIES BOARD

The Student Activities Board was organized in the Spring of 1963. The board sponsors five student activities committees: Exhibits, Film, Forum, Music, and Publicity. The objectives of the Student Activities Board are to contribute toward the development of an intellectual climate, to supplement classroom experiences with a variety of educational programs, to promote student initiative and leadership, to develop student loyalty and to provide wholesome leisure-time activities for all students.

The Associated Women Students group is composed of representatives from every women's organization on campus. A.W.S. is nationally known as I. A. W. S., Intercollegiate Associated Women Students. It occupies the unique position of being the only national women's student government group in the United States. The purpose of A. W. S. is to further in every way the spirit of unity among the women of the college; to increase their sense of responsibility toward each other; and to maintain in every way high standards of college life. One of the important activities is an orientation program for new women students, and another is the sponsorship of the annual Co-ed Ball.

INTER FRATERNITY COUNCIL

Interfraternity Council membership is derived from representatives of the one local and seven national fraternities on campus. The council acts as a supervisory body and handles rush and fraternity policy. Fraternities constantly maintain a scholastic average above the all men's average and above the all campus average. The I. F. C. awards a scholarship trophy to the fraternity with the highest average each semester. I. F. C., along with the Panhellenic Council, also sponsors an annual Greek Week.

Kit Detwiler
President

PANHELLENIC

Panhellenic Council is the governing body for the sorority groups and is composed of representatives from each of the five national sororities on campus. One of the major responsibilities of the council is the organization and supervision of sorority rush. A Panhellenic sponsored workshop is held each Spring for the purpose of promoting and improving sorority-campus relations.

Sophomore women who have maintained at least a 2.5 grade average and who have participated in campus activities are eligible to wear the Golden Spur of this scholastic and service organization. Under the sponsorship of Pat Hamilton, a former Spur, and the leadership of Beverly Grose, Spurs participated in various service projects throughout the school year. The girls don their white uniforms and can be seen ushering or serving at various functions and baby-sitting at the football games. This year the Spurs attended a regional convention in Las Cruces at New Mexico State University where Norma Fulks was nominated for Regional Director.

Students interested in the medical profession are eligible to become members of the Pre-Med Club. At regular meetings they view educational films and have speakers from the various medical specialties.

MECHANICAL ENGINEERING SOCIETY

The Mechanical Engineering Society was organized at Texas Western College in 1959. The primary purpose of the society is to become a student chapter of the American Association of Mechanical Engineers. Mr. John A. Whitacre is the sponsor of the society. This past year the society had many guest speakers from industrial areas around El Paso. The society was also in charge of the Joint Engineering Council and the "Hard Luck" Dance which ended the Saint Patrick's Day festivities.

MODERN DANCE CLUB

* Modern Dance Club is for all Girls interested in modern dance at TWC. Try-outs judged by modern dance teachers across the city are held for those interested in joining. The group gives demonstrations for high schools, presents programs for any interested organizations and works with the Drama Department. This year they plan to participate in the Variety Show and are presently working with the Speech Chorale group. Ushering at the rodeo was one of this year's projects. They have given two modern dance demonstrations at local high schools thus far.

KVOF - FM RADIO

The Radio and Television Department was founded by and has been under the full direction of Virgil C. Hicks since it began. The department was organized in 1945 and went on the air in 1947. FM radio was licensed in 1952 and TV in 1956. The department, which originally occupied a single room on the first floor of Kelly Hall, seventeen years ago has expanded and now covers all the third floor. There are two radio control rooms and two TV control rooms which have two cameras.

KVOF-FM provides an educational program from 9 a.m. to 3 p.m. which is broadcasted to the El Paso Public Schools. The program includes lessons on science, history and kiddie sessions for story telling. KVOF also presents selected music programs and covers Texas Western College sports events.

Texas Western College's weekly campus newspaper likes to think of itself as "The Assayer of Student Opinion." In its thirty years of publication, Prospector articles and stories have mirrored more than any other campus publication, the daily goings-on around the once Texas School of Mines, later Texas College of Mines, and today's Texas Western College.

The Prospector is distributed every Saturday morning throughout the regular school year. It is published by Student Publications, Inc., and printed by The American Printing Company.

The Inter-Faith Council coordinates the religious activities of the various faiths represented on campus. Each year the council sponsors Religion-In-Life-Week. A prominent speaker in the field of theology is invited to come to the campus to speak and discussion groups are held in the evening in conjunction with the speaker.

The United Campus Christian Fellowship, the UCCF, is comprised of the following faiths: the United Lutheran Church, Assembly of God, Presbyterian Church, United Church of Christ, Christian Church, and the Congregational Church. The sponsor and faculty board members are the Rev. Harold Edwards, Mr. C. E. Miculka, Dr. Wayne Fuller, Mr. Virgil Hicks, and Dr. Olav Eidbo. The purpose of UCCF is to provide Christian fellowship and projects for TWC students.

BAPTIST STUDENT UNION

The Baptist Student Union is a religiously affiliated organization whose purpose is to provide Christian influence and growth for students. As a group, BSU has participated in and provided Intramurals, worship programs, study groups, mission endeavors, and recreation facilities. This club provides an opportunity for students to receive help in spiritual development. Officers of the club are Arsie Laughman—President, Shirley Rouse—Vice President, and Keith Peters—Secretary-Treasurer.

HILLEL

Hillel is a social, cultural and religious organization for Jewish students on the TWC campus. Hillel is associated with the B'nai B'rith National Hillel Foundations, which has units at more than 240 American and Canadian colleges and universities. The TWC Hillel is four years old and it is sponsored by the El Paso Reuben Weinstein Lodge of B'nai B'rith. The counselor is Mr. Ralph Lowenstein. President is Thelma Levine, Vice-President is Sandra Epstein, and Secretary is Eileen Morgan.

NEWMAN CLUB

The Newman Club, a religious club organized for Catholic students, sets religious, educational, and social goals in balancing secular education with religious education. During the year the Newman Club participated in the Homecoming activities and received first place in the independent division. In intramurals the Newman Club received second place in boy's football and in girl's volleyball. They recently sent a student to the National Newman Convention in Lafayette, Louisiana. Dr. Haddox is the faculty advisor and officers are the following: Alicia Aceves—President, Bill Ross—Vice-President, Angella Gallegos—Secretary, and Grace Malon—Treasurer.

AMERICAN INSTITUTE OF MINING, METALLURGICAL AND PETROLEUM ENGINEERS

The Student Chapter of the American Institute of Mining, Metallurgical, and Petroleum Engineers, also known as the Kidd Mining Club, is a professional organization promoting interest in and knowledge of earth science. Films and lectures concerning earth science, the yearly banquet in honor of the professional chapter in El Paso, and the introduction of prospective employees with various employers are a few of its activities. Officers of the club are: President—Ray Will, Vice-President—Jim Johnson, Secretary—Jim Chapin, and Treasurer—Bob Grimsley.

RODEO CLUB

The Texas Western Rodeo Association was officially recognized in the 1962-63 school year. Since its organization, the Rodeo Association has sponsored many Invitational College Ropings, the girls team brought home the first rodeo trophy won at Texas Tech, and a member of the association, Miss Sandi Prati, was chosen Miss Rodeo America—1964. The future holds many contests for the group to compete in starting this spring with the Rodeo team attending various college Rodeos.

The Texas Western College Judo Club is striving to promote the art and science of Kodokan Judo in Texas, but more particularly in the El Paso area. The club hopes to promote better relationships among Judoka (the student) on a higher level of sportsmanship and friendly endeavor, and maintain participation in Judo activities of Texas and national organizations.

Although the Judo Club is barely a year old, it has already participated in various contests. A shiai in Roswell, New Mexico, and the Second Annual Fort Hood Invitational Judo Tournament are two of their more important contests.

The largest item on the club's agenda for the 1964 spring semester is the National Collegiate Judo Championships which are going to be held at TWC.

Beltran and Gonzalez are about to start a throw—engaging in right natural posture.

The club is going through "Taiso" or the warm-up exercises.

Phrateres International is a democratic, non-Greek, service organization. Sigma chapter has several service projects, one being the adoption of a needy family for one year. At Thanksgiving and Christmas, the girls of Phrateres provide them with food, and at Easter, they buy the family clothes. Once a month, they buy the family's supply of milk. Another service project is helping out at the Youth Center, and the campus service is that of tying orange and white streamers on the cars before every football game. They also usher at various campus events.

Scholarship is stressed in Phrateres, and while pledges must make a 2.0 to become actives, they must maintain a 2.5 overall grade point average to remain actives. Officers must have an even higher average.

Phrateres has won the best Independent Organization on Campus award for the last three years, and this year they won first place in the car division of the Homecoming parade.

The officers this year were Emma McKnight, President; Kelli Rocha, Vice President; Irene Soriana, Secretary; Paula Ronquille, Historian-Parliamentarian; Myrna Matoy and Lynn Moresco, Pledge Mistresses; and Nancy Patterson, Intramurals Director.

OR PROTECTION

GREEKS

The Greek system at Texas Western College is almost as old as the campus itself. The first Greek group on campus was Alpha Phi Omega, a local organization, which was founded in 1919, forty-five years ago. There followed numerous local Greek social clubs for both men and women, and in the late 1930's, the women's groups affiliated with National Panhellenic Council Fraternities. The local men's organizations joined National Inter-Fraternity groups during the 1940's, and since that time the system has grown to include eight fraternities and five sororities.

Panhellenic Council and Inter-Fraternity Council work closely together to coordinate their groups. Together, they sponsor a Pledge Council which is comprised of representatives of each sorority and fraternity pledge class. Their job is to bind the pledge groups closer together so they can fully cooperate with one another as active members.

The Greek system on campus also sponsors an annual Greek Week, which is a week of service performed by the fraternities and sororities. This year, they sponsored a faculty bean feed, where they presented awards to the outstanding faculty man and woman. All students and faculty members on campus were invited. Also, the groups volunteered to assist with collecting for the United Fund. For entertainment during the week, an All-Greek party was held, as well as a very successful hootenanny in the Sub ballroom.

The Greek system is successful on our campus, and this is proved by their ever-increasing numbers and their above-average scholarship. Greeks are encouraged to participate in all the campus activities and thus are seen in every phase of campus life.

Janet Lawless collects for the United Fund while Dr. E. Richeson enjoys the Greek Week Faculty Bean Feed.

ALPHA EPSILON PHI

Rush is one of the most important and fun events for all sorority girls. AE Phi members presented an outstanding skit to excited rushees during their Sayonara Party.

A. Sherwin

Pretty costumes and singing dominated the scene at the AE Phi rush parties.

Alpha Epsilon Phi was founded on October 19, 1909 at Brandeis University in New York. A relatively new sorority on the TWC campus, AE Phi was established here in the fall of 1961, and currently, there are 55 chapters throughout the country. Their colors are green and white, their flower the lily of the valley, and their jewel the pearl. Their national philanthropy is a scholarship program to aid deserving students. AE Phi's local civic service is adopting needy families at Thanksgiving, Christmas, and Easter in order that these people may have as happy a time as more fortunate families.

Alpha Epsilon Phi is very active on campus, having members on the student council, on Panhellenic council, and in student senate. They entered Sing Song with a medley of love songs, and they made a very impressive sight in their black dresses. Among their honors, Sheila Hoffman is the sweetheart of Sigma Alpha Mu, Ann Reznikov was a finalist in the Flow-sheet beauty contest, and Ann Sherwin is the El Paso Queen of Restaurants.

Heading Alpha Epsilon Phi this year were Sandra Menacker, President; Thelma Levine, Vice President; Linda Ulin, Recording Secretary; Sandra Epstein, Corresponding Secretary, Eileen Morgan, Treasurer; Ann Sherwin, Rush Chairman; and Sheila Hoffman, Ritual Chairman.

Α Ε Φ

Rushees seem to be amazed at the antics of AE Phi members.

CHI OMEGA

Chi Omega was founded in 1895 at the University of Arkansas in Fayetteville, Arkansas. Rho Delta of Chi Omega was established here at Texas Western in 1939. Betty Jane Thomas acted as President for the 1963-64 school year. Serving with her were Liz McCutcheon as Vice President, Zelda Rippe as Secretary, Pat Fletcher as Treasurer, and Christy Upshaw as Pledge Trainer.

Active participation in campus activities is a sorority must! Chi Omega placed first in campus house decorations and second in the car parade to climax Homecoming Week. Singing a medley of Rodgers and Hammerstein favorites, Chi Omega won the Sweepstakes trophy in the annual Sing Song held December 17th. With a take-off on "Gone with the Wind," Chi Omega placed third in Variety Show.

Chi Omega can list such honors as two Flowsheet beauties, the Freshman Favorite, members of the Military court, the A.W.S. president, president of Chenrzig, Miss El Paso, and the Miss T.W.C. beauty division winner to their string of activities, as well as several fraternity sweethearts.

Delta Delta Delta, founded on the Texas Western campus in 1938, has at the present time seventy-two members, forty-seven actives and twenty-three pledges.

Their active participation in campus activities can be seen through their numerous trophies. In the spring semester the Tri-Deltas took home a first place variety show win with their interpretation of A Grim Fairy Tale. Dressed in flapper costumes, the girls formed a chorus line back-ground for the sad Cinderella who wanted to go to the ball. The 1963 Homecoming activities brought them the sweepstakes trophy. The entire front part of the Tri-Delta lodge was covered in such a manner as to represent a giant mountain at whose base was a Miner. Other Achievements of this group include first place in the sorority division of the 1963 annual Sing Song in which they sang a medley of Christmas songs and the Sweepstakes award in the Campus Carnival.

Heading this group of girls are President, Diane Dreckman, Vice-President, Mary Calderella, Secretary, Beverly Milner, Treasurer, Stevie Rogers, and Chaplain, Diane French.

Carol Schade, president of Kappa Delta, often demonstrated her *expert?* cooking ability for the members.

Kappa Delta Sorority of Texas Western College, formerly Phi Beta Chi, a local sorority on campus, received its national affiliation on the 17th of November 1963. Kappa Delta Sorority was founded in October of 1897 in West Virginia, and at present there are 101 chapters of Kappa Delta Sorority.

During the past year the group has participated in several of the campus and city activities. One of the most enjoyable activities was participation in the annual variety show. Kappa Delta Sorority did a skit concerning the founding of a sorority and the building of a sorority lodge. During the year the girls have participated in several beauty contests including the Miss El Paso and Miss

T.W.C. contests. When election time came around several members ran for class favorite and for A.W.S. officers. In the area of scholarship, the 1963 Spring pledge class won a trophy for having the highest pledge class average.

The 1963 Homecoming Parade gave Kappa Delta another chance for participation on campus. Like many of the other groups Kappa Delta built a float. On the float was a very large gold football with the date of Texas Western's founding and the date of the 50th anniversary. Goal posts with the Texas Western and Texas Tech colors formed a background for the 1962 homecoming queen, Peggy Wright.

A gay time was enjoyed by all during the Spanish setting of Kappa Delta's second night of fall rush.

Z E T A T A U A L P H A

Zeta Tau Alpha was founded at Longwood College, Farmville, Virginia on October 15, 1898. It was the first social fraternity to be officially chartered by the Virginia State Legislature. Gamma Gamma Chapter of Zeta Tau Alpha was founded on the Texas Western College campus in 1838 making the seventy-sixth chapter. There are now one hundred and fifteen college chapters comprising the international fraternity, one chapter being in Canada.

Last spring Zeta took honors in the campus carnival as the first place winner in the sorority division. The booth with pink and white striped canopy sold sandwiches and beverages. Zeta entered a winning float in the Golden Jubilee Homecoming Parade by taking first place in the sorority division. The daz-

zling float, done in shining gold with mirrored sunbursts, carried out the theme of "Ring out the old, ring in the new" by having models of both the Campus of the College of Mines in 1913 and today's Texas Western Campus. At the invitation of the Sun Carnival Association, Zeta Tau Alpha entered her float in the Sun Carnival parade. Zeta's are also outstanding in the field of scholarship. In the spring Zeta actives won the scholarship trophy among the sororities. Zeta also received the award for outstanding scholarship on campus.

Officers of the group are Pennye Pinnell, President; Barbie Reeves, Vice-President; Dorothy Aiken, Secretary; Sue Hayes, Treasurer; and Bernadette Flynn, Chaplain.

Palm trees shade the talking girls at the Zeta's South Pacific rush party.

These are the engineering symbols that are so familiar to the members of APO.

Alpha Phi Omega is the oldest fraternity on the Texas Western Campus. It was founded in 1919 when TWC was the Texas College of Mines. Since its inception it has restricted membership requirements to second semester freshmen and up who have maintained a two point grade average; but who must also be enrolled in some phase of the engineering, mathematics, physics, geology, metallurgy, or mining programs. As scholarship is of prime importance, Alpha Phi Omega presently holds the Inter-Fraternity Council trophy for the highest fraternity grade point

on campus. Of the many civic activities in which the APO's participate, ushering at the annual Southwestern Rodeo is the one for which they are best known. Of course, the APO milk fund drive is familiar to all TWC students. APO pledges are seen stopping cars around the campus and other costumed pledges solicit contributions, the proceeds going to a needy organization. Being a social fraternity, the annual Christmas Party and Spring Formal top the social calendar. Alpha Phi Omega has remained a local fraternity with no national fraternity affiliations.

Here, some APO pledges are shown in their regalia trying to get money for their milk fund.

APO

DELTA CHI

The Texas Western Chapter of Delta Chi, chartered in April, 1961, has proven to be one of the fastest growing Greek organizations on campus.

The founders and original members of this chapter first met three years ago in the tower of Hudspeth Hall. From that time the fraternity's growth has taken it through three houses to its current location at 1515 N. Mesa.

Now the brothers have a large residence with facilities for members living in the house. Activities range from an extensive social calendar to a personalized scholarship program.

Nationally, Delta Chi was originally formed in 1890. Our current living membership now total's more than 16,500.

The Epsilon Xi Chapter of Kappa Sigma has been on the Texas Western campus since 1949. With an accent on athletics, Kappa Sigma has won the intramural championship six times out of the past ten years. Last year they won the school championship by bringing down first place honors in baseball, volleyball, handball, and second in football and basketball with third in swimming and track competition. Three members of this year's first string TWC football squad are Kappa Sigs. Kappa Sigma is also aware of its civic responsibilities and has an annual Christmas party for the Southwestern Children's Home. Also this year the chapter aided the home by doing some necessary painting and repairs.

Proud members of Kappa Sigma display their championship trophies.

Kappa Sigma's entry in the Homecoming Parade won the third place trophy.

One civic responsibility performed by Kappa Sigma was the painting of the Southwestern Children's Home.

Phi Kappa Tau is the oldest national fraternity at Texas Western being founded here in 1941. Since that time the chapter has flourished to the point where the membership totals around seventy-five men and the physical facilities include a lodge complete with outdoor barbeque and swimming pool.

Phi Tau is essentially a social brotherhood but does perform various services throughout the year. These include Christmas and Easter parties for various groups of orphans and participation in fund raising drives for different charities.

Tekes working on Golden Jubilee Float.

Working on a float is a sticky business.

A growing organization both nationally and locally, Tau Kappa Epsilon prides itself on selecting its men "Not for wealth, rank, or honor, but for personal worth and character." Teke was founded in 1899 at Illinois Wesleyan University and is now the largest fraternity in the world, with 200 chapters in the United States and Canada. The Tekes at Texas Western follow the national tradition of loyalty to the *alma mater* by stressing scholarship and school support, as well as a social program.

SPORTS

Sport is an integral part of campus life in American Colleges; this has been the case at Texas Western from the word "Go!"

In 1914, under the direction of Professor Kidd and Instructor Dwyer of the Engineering Department, every living student with two legs, two arms, and two lungs—in other words, all twenty seven students—had to report at the City Ball Park for the bi-weekly football practices. By 1920, however, work had commenced on a new athletic field, which, though providing at first seating accommodations only for the College hierarchy and the city dignitaries, did become our present Kidd Field—a lasting tribute to our first "coach."

The College of Mines, in 1924, still had no gymnasium. The basketball squad played out-of-doors on any court available. Most frequently this was at the City Community Center. Franklin D. Roosevelt's W. P. A. Plan furnished them with Halliday Hall Gymnasium in 1934, thus allowing them the luxury of indoor practice.

1934 saw the Miners members of the Border Intercollegiate Athletic Conference, and the following year the first Sun Bowl game was held in Kidd Field. The Sun Bowl Game, the second oldest in the Nation, has featured the Miners on five occasions, three of which they have been cheered as winners. The season of 1956 will always stand out in the annals of Texas Western, for that year of great achievement saw both our football and basketball teams win the Border Athletic Conference.

Today, our College boasts a sports program encompassing fencing, judo, wrestling, golf, tennis, track, cross-country, rifle-shooting, baseball, basketball, and football. It has fine gymnasiums, two fine stadiums with a total seating capacity of 42,500, and a fine team of coaches.

Yes! We have come a long way in fifty years.

CHEERLEADERS

The Texas Western College Cheerleaders are elected each Spring for one year by the student body of the college. This is the first time in many years that there have been men on the cheerleading squad, and this year the squad was increased from six to eight members to accommodate our new Sun Bowl Stadium. The cheerleaders accompany the football team on most of their out of town games as well as initiating spirit for the home town football and basketball games.

FOOTBALL COACHES

This was Warren Harper's first season as head coach of the Texas Western College Miner football team. He brought them through the season with a 3-7 record, but if a closer look is taken, it is easy to see that the record could have been an even 5-5, for the games with Texas Tech and Wyoming were well, hard-fought games that could easily have gone our way. We are eagerly anticipating bigger and better things from our Miner team in the 1964 season, and Coach Harper has this job of building what many TWC fans predict to be one of the best teams in recent years.

At 32-years of age, Harper is perhaps one of the youngest head coaches at a major college. A gifted organizer, the popular Harper has surrounded himself with a group of young, dedicated coaches—ones he feels will be an asset to Texas Western, El Paso and, certainly to the athletic department. He captained his high school and junior col-

lege teams and was chosen to the All-Texas Conference team in 1953—his junior year at Austin College.

Ken Almond joined the TWC coaching staff from Rusk, Texas High School where he had served as head coach for two years. His 1962 team won the first district championship in a decade. Almond has worked with the ends and the offensive backfield.

Don Duke has a rich coaching background—eight years in Texas high schools. His alma mater is Austin College, the same as Warren Harper. Dean Slayton coached at Sherman High School under Harper, having played his college career at the University of Tulsa. At Tyler Junior College, he was named to the All Conference Team. John Young, the centers and guard coach, is the only TWC grad on the football staff. He served as a tri-captain for the Miners during his senior year, and was named to the All-Border Conference team three years as a guard.

Dean Slayton

Donald Smith

John Young

FOOTBALL TEAM

The Texas Western College Miner football team played one of their most exciting seasons this year. They christened the new Sun Bowl with a win against North Texas State for their opener, and barely lost the closing game to Wyoming, 7-6. It was the toughest schedule the Miners have played in several years, and enthusiastic, record-breaking crowds supported the TWC team at all home games and quite a few road games.

September 21	North Texas State	34-7
September 28	University of New Mexico	7-23
October 5	New Mexico State	14-13
October 12	University of Arizona	7-13
October 19	Arizona State	0-27
October 26	Colorado State	14-21
November 9	Xavier University	0-24
November 16	Texas Tech	3-7
November 30	West Texas State	13-0
December 7	Wyoming	6-7

Kneeling: Head Coach Warren Harper, standing: Don Smith, defensive backfield; Don Duke, tackles; John Young, centers and guards; Ken Almond, offensive backfield; and Dean Slayton, ends and linebackers.

MINERS

Leroy Johnston
Co-Captain Guard

Jim Evans
Co-Captain End

The Red Raiders had a difficult victory over the determined Miners as seen here. It took five Raiders to get one Miner to the ground.

CLIP EAGLES' WINGS

The passing of Jerry Tucker, the receiving of Jimmy Evans and alert, heads-up ball playing on the part of the entire Texas Western football team carried the Miners to their first victory of the 1963 season, crushing the North Texas State Eagles, 34-7, before a crowd of more than 20,000.

The Miners' second game, played at Albuquerque, put the TWC team at a one and one standing, losing the game to the University of New Mexico, 23-7.

Texas Western's second win came after spotting the New Mexico State Aggies two quick touchdowns when they returned from the dressing room. They unleashed a rugged defense and their well-known passing talents edged them past the lads from Las Cruces, 14-13.

MISTAKES BRING DEFEAT

Miner errors were one of the main causes for Texas Western's loss to the University of Arizona in Tucson. The team ran smoothly throughout most of the game, but the breaks were falling the wrong way. A fumble, an unsuccessful punt, and victory-minded Arizona defense put the Wildcats ahead and left them there, 13-7.

It was a weary group of men who trudged into the Miner dressing room the night of October 19. Arizona State had just given the Miners a tough 27-0 licking.

The Miners looked good in spots, but those spots were few and far between. The Miners just couldn't match the speedy ASU backs.

Texas Western went into the game against the Colorado State Rams a favorite and came out a disappointed 21-14 loser. The Rams caught fire to pull one of the major upsets of the TWC season. Each time the Miners got within scoring range, penalties, fumbles or swiped passes stopped them, and CSU would find themselves with the ball again.

The Miners used the long bomb from Val Tenorio to Harrison Gamble to break the backs of West Texas State. Jerry Tucker added insult to injury by pushing over six more points in the final stage. Curtis Robinson continued his job making sevens out of sixes after the second six-pointer.

Texas Western lost another close one to Wyoming, here in the Sun Bowl, 7-6.

When a Miner spots an enemy, he holds fast even if a short flight is necessary.

The Xavier Muskateers of Cincinnati added another victory to their record, downing the Miners, 24-0. Five swiped TWC aerials and three Miner drops were responsible for the defeat. A bright note—the Miners completely halted the Muskateer passing attack, shutting them out on five attempts. This gave the Miners the number one spot in the nation in pass defense.

The Red Raiders, heavily favored, found the Miner's homecoming spirit too much as the Miners pushed the Raiders all over the field, dominating the statistics. The sour note in the statistics song—the score, 7-3. The Miners just couldn't capitalize on the few breaks they had.

Head Coach Don Haskins and Assistant Coach Henry Iba. Coach Haskins has led the Miners to their third straight successful season under his guidance, and this year were consistently rated in the top twenty teams by beating such schools as the University of Wichita and Arizona State. Also, for the third year, the Miners were the winners of the annual Sun Bowl Tournament held here at the Memorial Gymnasium to sell-out crowds.

BASKETBALL TEAM

Under the guidance of Coach Don Haskins and his assistant, Henry (Moe) Iba, Texas Western College's basketball team made record-breaking history for the college and El Paso. Led by All-American center Jim "Bad News" Barnes, the Miner team became the ninth ranked team in the country. Meeting all opposition, they combined a superbly coached conference with a back-breaking offense to end the season with a 25-3 record. They were second in the nation in defense allowing their opponents a mere 55.3 points per game to the 72.5 points they earned for themselves.

Nationally, the Miners put the basketball world on its feet and Texas Western College on the map when they beat Texas AM in the NCAA district tournament. When the Miners went to the NCAA regional tourney in Kansas City, they gave Kansas State the scare of its life before finally bowing to the eventual tournament winner. Out of the tournament but still in the running for third place, the Miners came back the following night to smash highly-rated Creighton.

The Miners also created a sensation when during the reg-

ular season they defeated the fourth and seventh ranked teams in the nation, Wichita and Arizona State.

Considered a rebuilding year for Coach Haskins, the 1964 season was a masterpiece in coaching annals. Coach Haskins had a big start by having Jim Barnes as the nucleus of the team. He took the finest athlete in the history of Texas Western College and added forwards Andy "Jumping-Jack" Stoglin, Harry Flournoy and Charlie Banks to make up the powerful scoring and rebounding combination that broke opponents all season.

The playmakers of the team, guards Orsten "Little O" Artis, Bob Dibler and Steve Tredennick, made life miserable for opponents throughout the season, their ball-hawking abilities saving point after point for the Miners. Their adept passes and quick thinking set up many a score for their team-mates up front.

Also assisting, but not in the headlines as much, were the upcoming stars of the team, Jerry Armstrong, Jim Holmes, Togo Railey and Ron Schockley.

Jim Barnes reaches for the ball when the Miners beat the University of New Mexico on their court. Following this game the Miners were catapulted into tenth place in the national basketball ratings.

Andy Cohen

Orville Kruschwitz

The 1964 baseball team is an "infant" as far as sports are concerned at Texas Western, but under the excellent coaching of Andy Cohen and Orville Kruschwitz a promising future is to be seen in the coming years. Head coach Andy Cohen, is a noted El Pasoan, and he has seen much action on the baseball diamond in both the Major and Minor Leagues. Orville Kruschwitz was the only assistant coach this season, and he is a mathematics instructor at Texas Western.

BASEBALL COACHES

BASEBALL TEAM

This is TWC's second season playing baseball. Nine lettermen have returned to spur the team to even greater success than their very promising 18-14 first season.

This year's schedule of nearly thirty games included encounters with two Western Athletic Conference teams, Arizona and New Mexico, and the Amateur All-Stars of Ciudad Chihuahua, Mexico.

The baseball players do not have a diamond of their own as yet. Practice games are played at Hugo Myer Field, and home games at Dudley Field.

Standing: Assistant Coach, O. C. Kruschwitz; Bill Gilcrease, Brooks Cline, Larry Machristie, Jay Christopher, Charlie Arciniega, Nolan Richardson, Charles Pearce, Mike Barrueta, Larry Menchaca, Cletus James, and Bufe

Morrison. Kneeling: John Jimerson, Toby Tovar, Wilmer Crews, Jack Harris, Bob Berryhill, Coach Andy Cohen; bat boy, Hank Cohen; Steve Legg, Gil Mendoza, Joe Carrasco, and Richard Simon.

Hardin, Teddy Teegarden, Buddy Luce, Pat Casey, Tom Linde, Santiago Batres, Glen Bigelow, Mark Yarbrough, and Coach Moore.

Ross Moore, a native of Louisiana, has done great service to the College for twenty-four years acting in the capacity of trainer and track coach. A runner himself in his TWC student days, he chose to remain at Texas Western and to use his skill towards the furthering of the athletic program of his Alma Mater.

Don Hardin, assistant track coach, received his Masters at Iowa State Teachers College at Cedar Falls, Iowa. While attending the college, he was a runner and excelled in the mile. Besides his position as P. E. professor, he is currently working on his Ph.D. at Iowa University at Iowa City.

James Smith, Zeak Williams, Mark Yarbrough, Ray Hitburn, and Jim Allen

This year, fifteen stalwart Miners battled for additional honors in track and field. This demanding sport calls for a high degree of physical fitness, profound judgement, and individual excellence in hurdling, long and broad jumping, sprinting, discus-throwing, and relay events. Nine meets have been held this year, four at Kidd Field.

George Balanis, Lupe Yzaguirre, and Stan McPherson

Glen Bigelow, Ray Hitburn, and Buddy Luce

MILITARY

Fifty years ago the local press recorded two items of news. The first was a happy one; a new school of mining had opened in the Southwest, and was located here in El Paso. The other, a very grave statement that war had broken out in Europe. To the isolationists of that era, perhaps these facts were unrelated, but to four students of those early days this was not so. They were called to service in World War I.

The contribution of this College during World War II would be almost impossible to assess. The decrease in the number of males enrolled during the War years bear witness to the fact that the contribution was not a small one.

In 1943, 250 engineering trainees, cadets of the National Army Specialized Training Program (A.S.T.P.) entered the College of Mines for training in engineering and other sciences, with orientation in the basic humanities. Under their own commandant they were under military discipline and were housed in barrack buildings moved on to the Campus for this purpose. This program closed the following year when they were integrated with the regular army.

R.O.T.C. first appeared on Campus in 1948, and were billeted in two wooden huts; though time and a little patience elevated them to the familiar grey home adjacent to Kidd Field. It was not until the opening of the Memorial Gymnasium in 1961, that they moved into the elegant quarters that they occupy today.

Members of R.O.T.C. were at first trained to become Anti-Aircraft Artillery Officers; this has changed with the passage of time. Today, the program is geared to produce officers trained in general military science who will, on graduation, proceed to a specific branch school for specialized training. In the last ten years, TWC has produced 353 regular and reserve officers.

The yearly complement, on the average, is around four hundred; the Berlin crisis of 1961 was an exception to this. Almost six hundred patriotic students stepped forward that year prepared to serve their country.

ADVERTISING

FRUSTRATION

Someone appears to be frustrated by the actions (or lack thereof) of the girls of Hawthorne House. They're far from being alone in their frustration though. The advertisers of El Paso are one of the most disillusioned ethnic group in the Southwest. Their investments, via advertising, support to a large extent student publications—the Prospector, the Flowsheet, and El Burro (?). Yet results are rarely forthcoming, and there's nothing sadder than a fat little advertiser with tears running down his cheeks. It's a blow against free enterprise, God, mother, and apple pie. So patronize our advertisers (or we may just put a damper on your sex life too).

Remember when . . .

You first came to TWC, and wondered just what college life would be like . . .

When Freshman year was over and your marks weren't too bad after all . . .

Your Sophomore and Junior years, when you were getting accustomed to the rigors of higher education . . .

And Senior year, when you really attained status on the campus.

The years are behind you now, and we hope they have been wonderful times. We wish you the best of luck in the years ahead.
