I am.  
I am in the morning  
running through fields—  
fields of golden flowers  
breathing in the wind.  
I search for something—  
something I want to touch  
yet nothing is felt,  
something I want to see  
the vision fades.  
And I must keep running  
until I find my way.

I listen to the sound  
of the morning bird  
beckoning  
warning me to hurry  
and begin the day.  
The stillness  
silent stillness  
gives me time to plan  
all that I must do.  
Soon the campus  
will come alive  
with people hurrying  
to and from classes  
and I will become  
one within the many.

What is the totality of life?  
 Be life only a means to return  
 to the dust of the earth—  
 an inescapable circle  
 with no definite beginning  
 or ending,  
 I can only surmise.  
 Today.  
 Today I must find myself.  
 Shatter my worldly suspicions  
 to accomplish all that before  
 I have left untouched.  
 I must strive to create  
 that which is an expression  
 of myself and my life.  
 I live for this minute  
 as if it symbolizes an infinity.

The anxieties and pressures  
cause me to quiver.  
Temporarily I hesitate.  
My thoughts focus.  
I will do that which  
I think is right—  
be it right or wrong  
tomorrow.  
It is my choice—  
my decision.  
I must learn to stand  
by myself—  
trusting my judgment,  
trying my integrity.  
Like a quarterback  
calling a play,  
only I must face  
the final consequences.

Sometimes I yearn to escape  
from the everyday trivialities.  
And escape I must  
from a thousand realizations  
of discovering how little I know.  
Escaping into my own dimension  
or perhaps from myself.  
Dreams end abruptly.  
Morning light shines brightly  
to bring me back.  
Back to the patterns I have made.  
My day by day existence continues.

My search continues everyday.  
Sometimes leaving me alone.  
Alone with my thoughts.  
I am one person and one idea  
perhaps only to influence myself—  
But I must prepare now.  
My pulse quickens with my  
thoughts.  
I must prepare for the generation  
that will soon question me  
as I have questioned those before me.  
My only fear—  
Will I have an answer?

I am not ready yet.  
 There are infinite things  
 important  
 that I want to accomplish—  
 that I must accomplish.  
 I too have questions  
 and am unsatisfied  
 so I sense, strive  
 and grasp  
 to understand and comprehend  
 every fact, feeling  
 and emotion  
 that I contact.  
 Soon I will be ready  
 but now is too soon.

Where do I stand in comparison  
to so many?  
In this world there is no need  
for those who just fit  
into an everyday routine.  
I must set my pace while I am young.  
My whole existence depends upon  
my action now.  
I must love, learn, and live  
as I grow  
maturing in attitude  
at times childlike—  
somewhere in between  
not able to fully make up my mind.

My curiosity beckons  
yet I am apprehensive  
of what I may find.  
I look at today  
with doubts and perhaps  
a touch of cynicism  
wondering what tomorrow  
will bring.

An election year.  
 Wallace, Nixon, and Humphrey.  
 What happened to McCarthy?  
 Students talk politics  
 and I listen  
 before I decide my choice.  
 I finally have some say  
 one vote,  
 but it is mine alone.  
 My country is unstable  
 perhaps like me  
 not sure of the right  
 direction  
 leaves one floundering  
 in between  
 until guidance is found.  
 Will a new leader provide  
 a solution for Vietnam—  
 dog tags or love beads?  
 Student riots and questioning,  
 racial strife,  
 poverty and social adjustment—  
 is there an answer?  
 Only the years will tell—  
 if we are willing to wait.

Classes become deeper—  
the work begins to pile.  
The burden is felt.  
I struggle through pages  
of endless reading  
wishing I could be outside  
like the children—  
playing hide and seek  
with no cares about  
tomorrow.  
But I am no longer free,  
I accept the responsibility  
of studying and trying  
knowing that my goals  
will make my hours of  
study worthwhile.  
For now, I must somehow  
be content reading material  
I like and dislike  
and arrive at some  
conclusion to what  
knowledge I have acquired.

Crisp autumn weather  
swirls the golden leaves  
clear blue skies  
herald the beginning of football season.  
My hair blows in the breeze  
and the smell of winter seems close.  
Happy, colorful cheerleaders lead  
the encouraging chants  
while the orangemen play  
to entertain a sun bowl crowd  
filled with anxious spectators.

Homecoming 1968.  
Seemingly weeks of preparation  
and hours of working on floats  
until fingers are numb and backs hurt.  
Studying is neglected  
as anticipation builds for the weekend.  
Exes return to a University  
of new construction  
both physically and academically  
stretching and expanding  
to provide for those of us  
who will someday return as exes also.

Days become shorter  
darkness earlier  
as the cold wind blows.  
I button my jacket and clutch books  
for warmth.  
My face is blushed—my senses alert.  
On cold days, people seem to hibernate  
in warm places.  
An early snow, unusual for El Paso  
leaves burly cactuses soft with snow  
and a panicked campus  
with snowball fights.

Christmas holidays approach at last—  
a long deserved holiday.  
Time to go home and become bored with doing nothing.  
Visiting with parents, old friends, and shopping  
adds to the festive spirit.  
Christmas is a shining time—shining faces—  
shining ornaments—shining expressions of happiness.  
But time passes too quickly and a new year appears.  
Resolutions will be made with high anticipations.  
I will vow to study and bring up my grades  
just as I resolve every year  
only hoping to have more will power this year.

The winter has been long  
and the land has been barren.  
Suddenly, I feel a though the earth  
will explode with the colors of spring.  
I can see the yellow daffodils, pink blossoms  
clustered on branches and soft green grass  
reminding me of cool ice sherbets.  
The earth trembles with a realization—  
a rebirth of life.

Overnight.  
It suddenly happened as it always happens  
spring is here.  
You can feel its presence in the carefree air.  
You can see it in the expressions and faces  
of people who are in love  
some just for the sake of loving someone new in the spring.  
All of the many days of waiting  
culminate with a yellow sun, shining with warmth  
making new leaves dance with light before my eyes.  
Chased away is a lonely winter.

Like children at play  
the campus comes alive  
with people blinking from the light  
and glowing from the warmth  
energetic—  
excited—  
or maybe just relaxing under a tree  
with a big chunk of juicy watermelon.  
The feeling is definitely there—  
spring is in the air.

Remember that afternoon in April?  
 You came to me in softness  
 filling my day with happiness  
 and tears from laughter.  
 We looked at each other  
     not making promises  
 that could be easily broken  
 nor demanding possession.  
 You did not try to change me  
     from what I am.  
 Instead we shared thoughts—  
     hopes  
 believing only in each other.  
 Wishing we could give the world.

Yesterday is gone  
forever.  
Yet things are not  
quite the same.  
Reminiscing of days past  
perhaps will make me sad.  
So many things and thoughts  
are distant now  
somewhere  
placed for safekeeping  
to make room for the  
present.

When I graduate—  
 what will I leave behind?  
 Four or more years  
 of waiting  
 for that one piece of paper.  
 A diploma.  
 I expected everything  
 to be different  
 and it is.  
 But not like I had thought—  
 there are new pressures  
 to add.  
 I am just as unsure today  
 as yesterday  
 and today is already departing.

College has meant so many things—  
 something different for all.  
 For some it remains  
 an accumulation of facts  
 a product of knowledge—  
 to others, a guarantee of accomplishment.  
 Knowledge I have acquired  
 in varied amounts  
 But the real quest—  
 wisdom—  
 will I ever learn the secrets of wisdom?  
 Are they taught through love and beauty  
 anger and disappointment?  
 Can one ever experience enough  
 to acquire wisdom?  
 Is it nurtured like a delicate bud  
 that grows to maturity with time  
 and the proper amount of light?

When I was very small  
I remember that someone told me—  
A beautiful day is to be used  
as you wish.  
If a vacancy occurs today—  
it will be filled  
tomorrow.  
Sunny days and fluffy clouds  
leave me unpretentious  
with almost childlike innocence.

During the night  
the blossom will bloom  
bringing with it  
a delicacy and freshness  
that leaves me in awe.  
All drowsy flowers  
awaken from their sleep  
radiant with summer.

The quiet joy of life  
stirs an inner emotion—  
a feeling of tranquility and peace  
makes me forget a torn world.  
For these few seconds  
I stand very still  
to marvel  
at the intricate yet simple  
manifestations of living.

Everywhere I look  
 surrounding me—  
 there are people  
 so very many people  
 who are like me  
 and I am like them—  
 we hope, need, question  
 and dream.  
 We are all one  
 brothers and sisters  
 interacting, changing, learning  
 to live  
 with the reality  
 of our dependency  
 on each other for our being.

Have I lived in a world of dreams?  
I have searched to see—  
I have touched to feel.  
I know I have come close  
but not close enough  
to whatever awaits on that pedestal.  
For now, I vow to never quit  
quitting and giving up is to grow old—  
my heart knows in silence  
the secrets I am searching.

Joanie Fellmeth  
Miss U. T. El Paso  
Senior speech and drama major  
from Carmel, Indiana  
Joanie is a member of Tri-Delta,  
enjoys water sports,  
and is interested in speech therapy.

Sherrie Shamaley, 1968 Homecoming Queen.  
Brown eyed freshmen education major  
from El Paso  
member of Zeta Tau Alpha  
plans to teach elementary school children.  
Sherrie reigned during homecoming weekend  
after election by the student body.

Pam Wimsatt  
Flowsheet Beauty  
Sophomore education major  
water sports and diving  
enthusiast.  
Pam wants to teach children.  
She was sponsored by Chi Omega  
in the beauty competition.

Sandy Avritt

Sun Princess

Sandy is a member of Chi Omega.  
She is a junior secondary education major  
who enjoys photography and swimming.  
She also lists reading Rod McKuen  
poetry as a favorite pastime.

Christina Wardy  
Summer School Queen  
Senior language major  
sponsored by Phrateres.  
Christina writes poetry  
and plays chess.

# Cheerleaders

1968-69 cheerleaders from bottom row: Beverly Knox, Joyce Hallmark, Janna Page, Robin Wallis, Karen Minson. Top row: Mehala Carroll, Cheryl Bates, head, Janett Saracino.

that damn  
tie . . .

Records are deceiving. The 1967 football squad was unmistakably the best in school history. Three points separated that team from a good season and an unbeaten season. However, this is 1968, a new year, a building year that no one accepts despite the loss of West, Wallace, and Carr. The fever hits, and hopes are higher than ever before. The Mines are picked nationally in pre-season polls, and there is talk of a conference championship, better yet, an unbeaten season. Everyone is tasting Sugar. Who's first—California at Santa Barbara? Who are they? "I'll give you Sanna Barba and 35 for ten." The game ends, 14-14—a frustrating tie—those vacancies suddenly seem real. UT, El Paso's characteristic weakness returns to haunt again; that of no running back. Confidence turns to doubt as New Mexico, a WAC foe, brings a young wide-open ballclub to El Paso. For twelve minutes New Mexico looked like a repeat with Santa Barbara—then all hell broke loose. Head coach Bobby Dobbs pulled halfback Leroy Johnson out of his orange cap, and while Dawson found the range, Leroy found the room to romp. The final, 44-15. The Lobos were no pushover, but Saturday means ASU and that's a different story. Dobbs pessimistically predicted smoothness to be a week or ten days away but there just aren't ten days in a football week. Four will have to do.

## support hits bottom

The big game, Arizona State. It has been eleven frustrating years since the Miners last defeated State, and it took the Sun Devils just one quarter to make it twelve. ASU turned early mistakes into 21 quick points, and romped to a 31-19 win. Given the protection, Dawson hit 18 of 41 attempts for 307 yards. But the following week in Tuscon against The University of Arizona, he just couldn't find the range. The score, 25-0, the first shutout dealt to any Dobbs coached ballclub. Arm-chair quarterbacks called it bad breaks, but good teams make their own breaks. Seven days later El Pasoans witnessed the ultimate in humiliation as small college Long Beach State gambled on a two-point conversion in the final minutes and squeaked by 22-21. Few could offer a sound reason for the sudden collapse. Some pointed to the opening tie, but most just shook their heads in disbelief. What happened to the confident, talent-loaded squad that opened the season? Are we really this bad? Only time will tell. With attendance and support down, Dobbs replaced Dawson. Junior Bob Stewart took over with hopes of pulling a few upsets, and salvaging a .500 season.

Only a handful believed the Miners would finish with more than two wins as they prepared for New Mexico State. Dobbs made some changes, and both the offensive and defensive units underwent face-liftings. In addition to Stewart filling in for Dawson, sophomore Billy Taylor replaced Murphy, and sophomore Jeff White relieved Waddles of his place-kicking duties. Dobbs risked the last bit of unity with possible dissention, but his move paid off. Suddenly a collection of one-play performers jelled into a 60-minute ballclub. White booted field goals of 21, 44 and 45 yards, as the Aggies fell 30-14. Stewart played beautifully, but seven days later against BYU he couldn't get untracked. Five minutes into the fourth quarter, Dawson replaced Stewart; the same Brooks Dawson who had been booed out of a ballgame two weeks earlier in El Paso. With the score 25-3, Dawson inspired the most spectacular college football comeback of the entire year. The final, 31-25. Hitting 17 of 24 passes for 304 yards in the fourth quarter alone, Dawson captured both the Associated Press and the Western Athletic Conference Back of the Week.

## ten minutes to remember

## thank God it's over

The Mines returned home for the final three games, the first with North Texas State University and their fearsome defense. Dawson and Stewart shook the "Mean Green" with 31 points, but two touchdown producing mistakes in the secondary kept the Eagles close—close enough that a field goal in the final six seconds won it 34-31. Wyoming, Homecoming '68, had special meaning to everyone. At last, the chance to avenge last year's 21-19 loss, and at the same time knock off the current WAC leader. Typically, El Paso fell behind quickly as the Cowboys grabbed a 20-0 halftime lead. Stewart led a gallant second half effort, but the Pokes held on for a 26-19 victory. One more, Colorado State University—thank God it's almost over. The two first year entries traded the lead three times until Eugene Childs hit off-tackle, slid outside, and raced up the sidelines 54 yards to ice a 23-19 win.

It would be hard to point to one weakness and label it the reason for the 4-5-1 season. Certainly erratic quarterbacking played a big part, as did a defense that yielded 19.9 points a game. But an offense that averages 21.3 points should net better results than the record shows. No doubt, Dobbs will fare better next year, but it will take smarter play and better support from crowds that jeered and gave up too early. Years of effort sweeten the victory; similarly quick success oftentimes goes unappreciated. Everyone loves a winner. Ask one head coach in particular suffering through a bad season. People wonder what this school lacks. Perhaps it's pride in both victory and defeat.

# doubt turns to hope

The mixed emotions about football turned to doubt about basketball. Last years squad posted a 14-9 record, turned down a post-season bid, and returned every starter except All-American Willie Worsley. But a weakness continued to haunt the Miners, a weakness characteristic of the teams since '66,—no big man. The team had speed but who would rebound. Coach Haskins took his unproven team to Las Cruces for the Pan-American Center Dedication tournament. An opening win over Denver pitted the Miners against New Mexico State in the championship game. This would provide the test—everyone knew State was good. Haskins played a ball control game which kept the score close in the first half. The Aggies pulled out ten points after half but U.T. El Paso fought back. Two points down and only seconds left—Mike Switzer took the shot. State won 51-49. Even the loss showed that the Miners had a good team, doubt turned to hope. But—23 games to go. Time enough to be great or fail.

The Miners put away Southern Mississippi and won two games over Southern Colorado State. Ples Vann, 6-4, jumped like a 6-7 man. The team held its own against height, and even out rebounded some. But our play was sloppy and ragged—the team played only 30 minutes of good basketball. In five days the Miners would travel to Albuquerque and fifth ranked New Mexico. The team appeared to have jelled. They played strong against the Lobos leading most of the game. Within seven minutes of the great upset and possible national ranking, the team began to fade, while the Lobos came on strong to win 65-61. But the loss was narrow and we looked impressive. Back home the Miners took Eastern New Mexico and prepared to defend its Sun Carnival Tournament title. Nate Archibald scored 31 points in defeating Georgia Tech in the opening game. The Miners defeated Loyola of Chicago 97-70 for the championship, and looked toward New Mexico again. The Lobos came into the game eighth in the nation. But this was to be a complete reversal of the first game. The Miners trailed throughout the game and with six minutes left they were down 67-60. The defense clawed at the Lobos while the offense continued to shoot well. The final—U.T. El Paso 71, New Mexico 67. The screaming fans mobbed the Coliseum floor. Not since 1966 had there been a game like this. Those who remembered 1966 well, recalled a game with New Mexico where the Miners were down 20 points and fought back to win the game, and later the NCAA championship. But it is dangerous to let memories replace reality—the year is 1969, and the season not yet half over.

## 1966 . . . ?

## riding high until . . .

The Miners stood 8-2 as they left for the Trojan Invitational Tournament. The opening game against Tulsa was close. With three minutes left the score was tied, but in those last minutes Tulsa outscored the Miners 10-2 to win 81-73. Lack of height hurt U.T. El Paso. But Tulsa was climbing in national poles and once again the defeat was something less than a mere loss. The next night against Montana State the Miners rebounded from the loss to win 103-90. Nate Archibald began to look like an All-American, scoring 35 points. However, the defense was at its worst. The Miners came home to cream Tahoe Paradise College 109-63. The easy game allowed Haskins to clear the bench and give reserve players some needed experience. Archibald led the team to a 93-83 victory over Arizona State. He hit 12 of 13 field goals and eight of nine free throws for 32 points. Two nights later U.T. El Paso wiped out Pan American 100-53 with Archibald hitting for 30 points. The Miners were riding high. In four games they had averaged over 101 points per game. But the defense was not good. We ran with the ball and luckily the offense kept pulling us through. But Haskins predicted that if the defense didn't shape up, we would lose more than we won.

## ... disaster hits miners

Colorado State began disaster for the Miners. CSU pulled into a lead early but we came back in the second half. The game went down to the end, and CSU scored a last second free throw to win 64-63. The vision of 1966 shattered. Bobby Jo Hill hit a last second shot that beat CSU three years ago—just the opposite this time. New Mexico State came into the Coliseum seventh in the nation. A win over State would give us a good chance for a postseason tournament. In spite of poor shooting and Aggie height we kept close. Down by three with five minutes left, the Miners lost by 15. The same thing happened against Seattle and Arizona. Something within the team cracked in the closing minutes. The Miners came home from three road games and four straight losses. More than half of the 8,000 screaming fans who cheered the win over New Mexico were conspicuously absent from the Centenary game. But they missed one of the finest. Archibald and Switzer each scored 30 points in the 86-65 victory. Another game with New Mexico State and the last chance to salvage the season. The Miners fell apart and were as much as 30 points down. We pulled back together to outscore the Aggies in the second half but it was not enough, State won the third game of the series 78-62.

Colorado State	78	58
Arizona State	82	95

Baseball approached in an air of guarded optimism. The team was returning from a 18-18 season in 1968. Hitting suffered when Charlie West graduated but seven of nine starters were returning. Coach Andy Cohen said the hitting would come; it was pitching and defense that would bring success or failure. The team could be strong, but pre-conference opponents looked tough and the WAC was strong. The Miners compete in the Southern Division with New Mexico, Arizona, and Arizona State. The season, expanded to 50 games, looked long and hard, but the team looked forward to WAC competition. They might not win the championship, but baseball at U.T. El Paso was growing and promised to provide fans with excitement and action.

pitching, defense—  
key to success

\*doubleheader

Several years ago Wayne Vandenburg predicted his track team would take the 1968 NCAA championship. This seemed far fetched—no one could still believe the 1966 basketball team. But our track team was ranked nationally in the spring of 1968. They finished third in the NCAA Indoor Championships and placed high in the Outdoor meet. That spring Australian Kerry Pearce set a new two-mile World Record of 8:27:2. Tri-captains of the team were Kerry Pearce, Danny Tague, and Leslie Miller. Three team members competed in the 1968 Summer Olympics, although they did not represent the United States. Leslie Miller, ran in the 400 meter, and Gerald Wisdom competed in the long jump for the Bahamas. Mike Fray finished fourth in the 200 meter race for Jamaica. But representing U.T. El Paso, the team began the 1969 season and another try at the NCAA championship.

## track fights for recognition

The team looked even better in 1969 than in 1968. They went to the WAC Indoor Meet in Albuquerque and walked off with the unofficial team title. No official title was given because several conference schools were not present. U.T. El Paso set three meet records. Danny Tague ran the 600 in 1:10; Pinto Bean jumped 15-8 in the pole vault, and Cris Fisher ran the 880 in 1:53.1. The WAC meet was important and the win impressive but the NCAA Indoor in Detroit and the Outdoor in Nashville were the big ones. If nothing happened, the team had a good chance to take the NCAA championship in one or both of the meets.

# NCAA champions... maybe?

D. Tague, P. Heglar, V. Murphy, J. Gonzolas, H. Jackson, G. Mazzioti, B. Fischer. Second Row: Coach Wayne Vandenburg, M. Fray, J. Birkelbach, R. Hill, G. Jones, N. Jones, B. Springfield, R. Nrugilbower. Back Row: V. Monarie, S. Brown, S. Carter, F. Josephs, R. Thars, L. Miller.

## cindermen set new records

## undefeated— a perfect season

The 1969 wrestling team went undefeated in eight dual matches and tied Southern Illinois for first place among eight teams in the New Mexico Invitational. U.T. Austin and U.T. El Paso are the only intercollegiate wrestling teams in Texas. The Miners could be great—but that takes money. Only three full scholarships could be afforded; in spite of this, over 40 men came out for wrestling. But not all 11 weight divisions were represented—we had no hope for taking the WAC championship. However, with only one junior and the rest sophomores and freshmen, Coach Bruno Rolak said that with luck and a little money, the team could be great the next two years—better even than the undefeated 1969 team.

# 1969 WRESTLING

	Miners	Opp.
Ft. Bliss	36	2
Ft. Bliss	35	0
New Mexico State	25	6
Artesia		
New Mexico State	22	postponed 9
Ft. Lewis Colorado	34	3
Artesia	44	0
Arizona Western	18	11
Mesa College	24	11
New Mexico Invitational		tie—1st of 8 teams

First Row: Coach Rolak, J. Alvarez, A. Handy, S. Lujan, L. Wollschlager, D. Wadsworth, B. Yetter, S. Guerrero, D. Smith. Second Row: A. Alexander, R. Wiggs, E. Maze, K. Breheny, A. Evans, B. Beers.

B. Beard, T. Beier, O. Wingfield, J. Hamilton, B. Bondi, G. Gonzalez, R. Leverich, R. Whittenburg.

## golf

The golf program at U.T. El Paso has never been strong but the team has potential. Ronnie Leverich finished second in the Arizona Invitational in Tuscon. The team practices several times a week at the Ascarate Golf Course. Fred Adkins, the pro at Ascarate took over coaching duties and the team planned to compete in several intercollegiate tournaments with southwestern schools. Now that U.T. El Paso is in the WAC, the golf team will be competing for the conference championship.

Tennis at U.T. El Paso is struggling to get organized. The team lost its coach and without one to co-ordinate the tennis program into the athletic department, nothing could be done. Team members practiced at the El Paso Tennis Club and prepared for a few matches. Jackie Guadagnoli is nationally ranked and others on the team are good, but this talent is being wasted through lack of concern for the tennis team.

## tennis struggles to organize

## soccer strives to gain official status

U.T. El Paso's soccer team is not an official University athletic team, but it is growing in prestige. The team began three years ago but this was its first well organized unit. Members represented ten foreign countries. They have won four, lost one, tied two. The loss was to the German Air Force team, the best team at Fort Bliss. The German team had never been scored on and had never scored fewer than ten goals. But U.T. El Paso lost only by four goals to two. Later we tied the German team 2-2. The soccer team is pushing for official intercollegiate status. They have played New Mexico State and planned to have games with Arizona, New Mexico, and other major college teams.

#### Men's Division

Circle K	168
SAE	165

#### Women's Division

PE Majors	132
Tri Delta	107
Bell Hall	107
Hotel Dieu	103
Zetas	100
Kappa Delta	99

## intramurals

The Intramural program at U.T. El Paso divides participating teams into two divisions, men and women. Each division is then further divided into Greek and Independent teams. Each division competes separately and then scores are compared to give the overall standings. The men compete in flag football, pool, tennis, handball, paddle ball, bowling, table tennis, free throw shooting, wrestling, basketball, softball, golf, track, and swimming. The women compete in volleyball, bowling, tennis, free throw shooting, basketball, softball, track, and swimming. The intramural activities provide recreation and competition for the average students on campus and many students take advantage of this opportunity to relax and enjoy themselves.

# GROUPS

The individual stands out  
in relation to accomplishments.  
Interests guide the way  
from classroom oblivion  
to a world of activation.  
To be recognized for yourself  
hoping that someone else might notice  
motivates the spirit.  
A gesture of understanding  
when collecting for the Milk Fund,  
a sense of liveliness—  
laughing as we walk the parade route.  
An indication of pride as we support  
the University functions,  
and most of all group identification  
as we seek the security of companionship.  
All of which adds a little more  
meaning to our lives.

## SA Officers

It's grin then back to grind at the old salt mines for these four miners who have led this western community to new frontiers. The pioneers that won the west, the Student Association Officers, governed this border settlement on the foothills of the Rockies and coordinated its student activities.

4. R. McCluskey  
President

# Spirit Committee

High Spirits? Well, it could just be that these ten candidates for sleepless sweepstakes lost theirs in their concentrated drive to intoxicate students with non-bottled spirits. With a mixture of signs and streamers spiked with a number of miscellaneous delights, the Spirit Committee came up with a formula guaranteed to typify any student.

5. L. Dewitt
6. B. Puckett

## Student Senate

A new underground organization? No, a ground one. In fact, it is one of the most level headed groups on campus, the ground control of the university—the Student Senate. The Student Senate, composed of students from all the departments, served as the legislative body with prime governmental concern over student matters and affairs. 1968-69 marked a great year for the group as it passed numerous new bills and exercised its governing power wisely.

# Activity Council

In dual cooperation, the Union Council and the Student Association joined forces to form the Activity Council. This group is for better planning of student activities and to prevent conflict between the two organizations. The group is headed by Steve Hogner of the Union and Oralie Anthony of the Student Association.

# Supreme Court

The interpreters of law, agents of the judicial system—the Student Supreme Court. The Student Supreme Court handles discipline cases, traffic, dorm, organizational disputes, and constitutional questions. In a hush and by surprise, the Court handed down its major decision in November that disqualified the Homecoming float winner.

# Union Council

In the shadows of a blistering afternoon sun, one of the foremost organizations on campus, the Union Council, relaxes for a moment before returning to the Union to plan, plot, and pilot activities. Lectures, luncheons, dances, and films; the Union Council was continuously coordinating activities for students and faculty in the heart of the University—the Student Union.

# Associated Women Students

Women politicians? Well maybe not, but these women represent part of the student government at U.T. El Paso. The Associated Women Students organization is the governing body for all women students on campus to which each women's organization sends representatives. The purpose of AWS is to coordinate the activities of all the women's organizations and prepare freshmen women for college life.

## Worrell Hall

Worrell Hall goes first class, whether in a vette or on a test. These dorm students, many of whom are on scholarships, must maintain a 3.0 overall grade point average. This particular dorm has a unique intellectual and musical record to add. They have housed five student association presidents in the past 13 years. They have also won Sing Song competition in 1968. No wonder that Worrell stays on top.

## Bell

Pretty U.T. El Paso coeds, members of Bell Council enjoy the fresh air and scenery provided by Leech Grove. As members of the council, the women are among some 100 women residents of Bell Hall. The council sends its representatives to the Associated Women Students where they participate in both the governing and judicial councils. Bell Hall Council also has the opportunity to enjoy the dining facilities of Bell Hall as well as the companionship and friendship of many new people.

# Hudspeth

Demonstrating their physical prowess and good grooming, members of Hudspeth Council have a good time posing for the Flowsheet photographers. That's probably because the men know what fun dorm life on the U.T. El Paso campus really is. Hudspeth Hall houses 100 men combining their abilities in friendship, school spirit, intramural sports and leadership to make the hall one of the most impressive dorms on the campus. Residents come from all across the country as well as from several foreign nations.

2. R. Stordock  
President
3. V. Monari
4. D. Falls
5. G. Johnsen
6. R. Briggs

# Hawthorne

Members of U.T. El Paso's only co-educational dorm council recognize the fun and challenge of living in Hawthorne House. Hawthorne House is the newest residence center on campus with spacious quarters for modern living. Members follow the same strict rules as enforced by other campus dorms, but find plenty of time to relax, make new friends—and occasionally study. Residents also actively participate in campus functions including homecoming, Christmas decorations, and Campus Carnival.

1. C. Neu
2. C. Whitehill
3. J. Carnaham
4. K. Heines
5. K. Schroeder
6. P. Ferguson

# Burges

Burges Council takes great pride in their dorm, one of the newest and largest dorms on the U.T. El Paso campus. Housing 180 men, Burges Hall is active in campus events sponsoring school dances, participating in homecoming activities and other campus projects. Besides set functions, members devote most of their time to just living in the relaxed atmosphere of a college dorm. Of course, this includes late night bull sessions, new friendships, over-sleeping, and adjusting to the "good life."

# Honors

# Honors Council

After planning numerous activities, Honors Council members relax on the green, green grass of the campus museum. The Council is composed of a representative from each organization requiring a 2.75 grade point for membership. Members set activities for the 68-69 school include: co-sponsorship of Scholarship Reception, co-ordination of Freshmen Orientation, sponsorship of a Who's Who and Men of Mines dinner and co-sponsorship of Honors Night each May.

## Alpha Beta

Are these Alpha Beta members really planning a take over of the valuable revine by the Liberal Arts Building? No, actually it's a little display of enthusiasm for their service fraternity. As members of Alpha Beta, they are active campus and community service projects. Activities include close association with the spirit committee and the Student Association. Alpha Beta also sponsors a project helping local orphans.

# Beta Epsilon Pi

Who has a better right than Beta Epsilon Pi, national honorary engineering society, to proudly display the U.T. El Paso Engineering Building? After all, they are the only national collegiate chapter of Tau Beta Pi in the entire New Mexico and Southwest area. Recognizing this honor, members enthusiastically participate in various campus activities including: assisting at Freshman Orientation, conducting slide rule classes for all interested students, sponsoring the annual engineering open house, and working in conjunction with the El Paso Engineering Guidance Council.

# Alpha Lambda Delta

Art anyone? There is more to being a good scholar than just scholarship alone. The women of Alpha Lambda Delta, the national scholarship honorary for freshmen women, fully realize this as they prepare to tour the city art museum. Becoming a better woman involves more than above average scholarship; it involves the absorbment of culture. What better way than at the museum? Aside from the culture trips made by the organization, the women of Alpha Lambda Delta busy themselves with such programs as Honors Night and the high school Equivilency Program. While being active, the members must maintain a 3.5 grade point average.

# Chenrizig

Chenrizig members make a pleasant addition to the new U.T. El Paso library. Chenrizig, a local senior women's honorary organization, places an emphasis on service. Members, who must maintain an over all 3 point grade average, promote relations between the faculty and students through special luncheons, sell football mums, sponsor a social get-together for freshmen women and promote scholarship. They have applied to become a chapter of Mortar Board, a national honorary organization.

## Cardinal Key

Cardinal Key makes a pleasant addition to any desert scenery. These "desert flowers" are members of the national honorary sorority for junior women and are active members of the U.T. El Paso student body. The members, who must maintain a grade average of 2.75 and possess qualities of scholarship, leadership and character, are tapped on Woman's Honor Night. Besides emphasizing academics, service projects are a major part of Cardinal Key's function. Projects include visiting wounded soldiers from the Vietnam conflict, selling spirit ribbons, helping El Paso's orphanages and working in the museum.

## Chi Gamma Iota

Chi Gamma Iota is the largest service organization on campus, having membership in excess of 150. With members of most races and ethnic backgrounds, its purpose is to promote good will and fellowship, to aid student veterans, to further understanding among veterans, students and faculty, and to render service to the community and to this university.

# Circle K

Circle K, a service organization, went all out this year in helping with money raising projects. Early in the fall members collected several hundred dollars for the local United Fund. During the Thanksgiving holidays, Circle K collected money for needy people in the El Paso and Juarez area. In addition to helping out at registration, members ushered at various performances and events at both Liberty Hall and the El Paso County Coliseum.

Fun and games also contributed to the club's yearly activities. Circle K was crowned as football Intramural champions in the fall. Dancing galas were sponsored by Circle K at Christmas time and again for their annual initiation in January.

## Kappa Delta Pi

Members of Kappa Delta Pi have taken "Current Problems in Education" as their theme. In an effort to find concrete answers to urgent problems, the national honorary education society is conducting a survey of problems. As a major project they have invited Professor Edwards to discuss "Religion in Today's Schools," and Dr. Christian to discuss "The Mexican Student in Today's School."

## Student Legal Association

The Student Legal Association represents students in disciplinary actions taken by the University against them. This free service is available to all students although most cases handled are traffic cases and traffic ticket appeals. In Supreme Court cases on campus and in front of other disciplinary bodies, the members of the Legal Association gain an insight into law practices by defending individual students.

Vice-President

# Orange Key

These enthusiastic Orange Key members could hold their own against any roaming mountain goat. U.T. El Paso's Orange Key is an honorary scholastic and service organization made up of freshmen and sophomore male students maintaining a 3 point over all grade average. They participate in intramural sports and conduct a teacher evaluation survey.

## Phrateres

Girls who have their meetings at seven every Wednesday morning have to be dedicated, and that is just what these girls are. They are the members of Phrateres International, a womens' social and service organization whose membership is open to all University women enrolled as full-time students. U.T. El Paso's chapter is Sigma Phi and this local chapter sponsors several service projects during the year, including some internationally oriented. Phrateres members give food and clothing to needy families at Thanksgiving, Christmas and Easter.

# PE Majors

How would you like to play around the rest of your life? If you would, you'd better be a good sport. Obviously, this is what PE majors have in mind. Whether they become professional ball players, coaches, teachers, or athletic directors, their profession will be one of fun and recreation. But not all will be sweet as cream. There will be times of hard fought defeats, bruised and broken bones, and long, hot, sweaty days; but then again, that's sports.

## Pre-Med

The beginning of a long hard road is in store for all Pre-Med students. Anesthesia fumes, scalpels, syringes, and other medical equipment will be familiar sights to these students for a long time to come. Already these students have visited various hospitals and clinics to observe doctors and nurses in their work and to ask questions about what will be their life time profession. Sleepless, long, and hungry nights will become a part of their lives but will prove worthwhile and successful at the end of the road.

## Sardonyx

1. M. Sell  
Vice-President
2. R. Hix
3. L. Winchester
4. L. DeWitt  
President
5. D. Floyd
6. J. Snaveley
7. G. Hunter
8. R. Bovey
9. K. Kuenzli  
Secretary

Study, study, study! That is exactly what it takes to maintain a 3.0 grade average as required of the members of Sardonyx, the men's honorary society for juniors and seniors. And what better place to study than the new library on campus? When not helping with such service projects as freshmen orientation or Honor's Night, a member of Sardonyx could probably be found either studying in the library or admiring the University seal in the front entrance of the library.

# Sigma Delta Pi

Meetings, meetings all the time, but well worth the time spent on them. And Sigma Delta Pi, the national Spanish Society, succeeds in making their meetings worthwhile by encouraging group discussions entirely in Spanish, and by having interesting and varied programs. Meetings also mean more than the study of Spanish, they mean the making of new friendships and the exchanging of new and old ideas.

12. T. Santelli
13. F. Brewer  
Sponsor

# Spurs

At your service? Well, most of the time anyway. Spurs, the national service honorary for sophomore women, takes a little time out from their many service projects to gather at the local stables and enjoy some horseback riding. After all, maintaining a 2.5 grade point average and performing such service projects as ushering at drama performances, serving at the homecoming barbeque, and sponsoring Hi and Smile Week, does take up extra leisure time. But the U.T. El Paso Spurs, in their cheerful white uniforms, are always ready and willing to give up activities such as horseback riding to be "at your service."

## Steven Scholars

The Steven Scholars must have been fired up to achieve the highest scholarship awards made at U.T. El Paso. These scholarships range up to \$5,000 for four years.

The Steven Scholarships are awarded after special considerations by the scholarship committee. Each candidate is examined in regard to personal characteristics, with special attention given to the following: personality, leadership, cooperativeness, personal adjustment, initiative and ambition, extra curricular activities, good health, personal integrity, and potential for development in a particular field.

## Religion And Music

# Baptist Student Union

The Baptists have taken over the Methodists, for this picture anyway. They were forced to move out of their previous building to make way for the new Engineering-Education building. The Baptist Student Union members are sharing the classrooms, recreation room and lounge of the Methodist Student Center with their offices down stairs. The BSU join for a year of fellowship in many dimensions, of challenge in missions, of opportunity for sharing a faith that will not be contained.

# Kappa Kappa Psi

The AX chapter of Kappa Kappa Psi is off the launching pad heading for a record-breaking year. Upon selection as one of the top ten chapters in the nation, their expectations are high with 22 active members returning. Their activities range from selling cokes during band rehearsals, moving interest with the band and fraternity in mind, to preparing a social for the guest conductor for the annual high school band night. Expecting more pledges during second semester, George Hunter, their District IV President says, "Just watch us go!"

24. G. Taylor
25. G. Hunter

# Tau Beta Sigma

To label Tau Beta Sigma, a national honorary sorority for college bandswomen, as wholly serious would be an understatement. Their social activities include holding receptions for guest conductors and guest artists of the UT El Paso symphonic band and marching calvacade, and helping with various band functions with services such as providing apples to all the band members as they traveled by bus to the University of Arizona football game in Tucson. This chapter was chosen one of the top ten in the nation at their past national convention and the top chapter in District IV at the previous district convention.

# Sigma Alpha Iota

Music anyone? If not for you, then certainly for the members of Sigma Alpha Iota, the international professional fraternity for women in the field of music. These music majors not only excel in music, but they must maintain high scholarship and character. Service and money making projects keep the members of SAI busy through out the year working and playing. But most important the women of SAI promote the development of music through out the college.

# Marching Cavalcade

Perhaps the best known of the University bands is the Marching Cavalcade, a 150 piece unit, which has received acclaim for the precision of its marching and the concert artistry of its playing while on the field. Flexibility and musicianship mark the programs of the U.T. El Paso Symphonic Band. The roster lists 56 men and 21 women. Forty-five of these are music students, and the rest come from an interesting variety of intellectual disciplines. As members of one of the largest and most respected organizations on campus, bandmen and bandswomen feel an intense pride and loyalty to the band.

## University Chorale

The University Chorale participates in singing for clubs and various organizations throughout the city. Among these activities include others such as their participation in ballet and opera choruses, home concerts, and tours which are also part of the program. A tour to Mexico is planned for this year, they toured Canada and the entire Southwest in previous years. The University Chorale bases its selection upon auditions and individuals may become soloists for operas or other programs. They study selected works in the field of choral literature.

# Majorettes

U.T. El Paso majorettes, Marilyn Gregory and Rebecca Phillips, discover a new method to capture an audience.

# Golddiggers

The Golddiggers appear in their school uniforms in front of Memorial Gym. They are a part of the U.T. El Paso Marching Cavalcade, participating in half-time shows at football and basketball games. Each year, the Golddiggers go on one of the out-of-town trips with the band; this year they went to Tucson, Arizona. As active supporters for the University, the girls participate in the homecoming parade, sing song, and talent shows.

## Publications

## Prospector

The Prospector editorial staff gathers around the horseshoe table, enthusiastically tackling the copy for the bi-weekly campus newspaper. The editor, Robert Scardino, relaxes with his feet up while members of the staff are armed for action with cameras, past issues of the Prospector, and photographs. To facilitate the bi-weekly publication, the Prospector is now printed by the off-set process. Staff members and editors have worked to promote their newspaper as the "Assayer of Student Opinion."

5. R. Vincent
6. R. Chavez

## El Burro

El Burro staff members find the outdoor atmosphere most inspiring. In fact, one member is just "head over heels" about the "old outdoors." The group took advantage of building construction in the fall to find a distinctive site for literary discussions and just plain enjoying nature. El Burro staff collects, writes and edits material for the campus variety magazine. The magazine, youngest of the University's student publications, has experienced an up-and-down career as a humor, variety, literary volume and competes annually for honors in the Texas Inter-collegiate Press Association contests.

# Flowsheet

Printing never looked easier, huh? The editors and staff members of the Flowsheet try their hand at the mechanical processes that bring the yearbook into being. Donning printers' aprons, each member grabs a tool and this is what they came up with. The print shop will never be the same. Under the direction and editorship of Sandy Avritt, the Flowsheet staff arranged picture taking sessions, worked on layouts, wrote copy and helped prepare the index. One of Sandy's innovations for the 1969 Flowsheet is the group picture technique for organizations which is more natural and true-to-life.

## Press Club

What could be a more appropriate activity for the Press Club than pressing? Rallying in front of the journalism building, Kelly Hall, the Press Club members pull out their ironing board, irons, and other necessary aids on a Saturday afternoon to discuss the campus publications and to plan activities. The Press Club has become a recognized campus organization. Its members have participated in such activities as Journalism Day and Homecoming. The Press Club is composed of Journalism majors and minors.

# Alpha Epsilon Rho

Gathered around their plaque, these students and their advisor are concentrating on records, microphones, lighting, cameras and other equipment of their trades. Perhaps their interest stems from their mutual membership in Alpha Epsilon Rho, the national Radio-TV honorary fraternity. The local chapter members are outstanding Radio-TV majors who meet to discuss equipment, innovations and broadcasting. They also give service to the local college radio station, KTEP.

# Fraternity Sweethearts

Looking like New York models isn't hard for these campus beauties. And what better way to describe the fraternity sweethearts than pert and elegant. Each beauty is selected for her charm, personality, and interest in the fraternity. Each sweetheart is honored at an annual Spring formal and serves as fraternity sweetheart for the following year. Such an honor has its duties which include helping with fraternity rush and participating in all fraternity sponsored activities.

## Alethia Kais

Let's get organized! So came about the Alethia Kais, the auxiliary branch of Alpha Kappa Lambda. The first year is always the hardest, but the girls in Alethia Kais seem to have overcome this idea as they worked diligently to organize. And succeed they did as they had projects to raise money for the fraternity building fund and helped with rush.

## Crescents

Need any help moving? If so, just call on the Crescents. But it seems as though the auxiliary branch of Lambda Chi Alpha made more of a mess than anything else as they helped the fraternity move to a new lodge. Crescents's other activities include giving dinners for the fraternity, helping at rush, and taking part in all fraternity sponsored events.

# Little Sisters Of Minerva

Looking for a little sister? Who wouldn't want a sister that looked like one of these pert little faces. But these sisters are all members of the Little Sisters of Minerva, an auxiliary branch of Sigma Alpha Epsilon. They already have the position of being little sisters to the men in the fraternity.

Take us along! Say the members of the Order of Diana to the men of Tau Kappa Epsilon. As an auxiliary branch of the TKE's, the girls don't want to be left out of the action. So, they enthusiastically pitch in and take part in all fraternity activities.

## Order Of Diana

# Interfraternity

Composed of two representatives from each campus fraternity, Interfraternity Council places emphasis on friendship, cooperation and understanding. Members of the council foster these goals through the exchange of meaningful ideals and suggestions. The council also does much to recognize and appreciate members of all Greek organizations by sponsoring the annual Greek Week. Through varied activities and competition the Greeks have a good time while strengthening the bonds of friendship. The week also is designated for the announcement of the Outstanding Greek Man and Woman.

# Panhellenic

As members of the U.T. El Paso Panhellenic Council, these young women are representatives of the five nationally affiliated sororities on campus: Alpha Epsilon Phi, Chi Omega, Delta Delta Delta, Kappa Delta, and Zeta Tau Alpha. The council is the major governing body for sororities setting standards and regulations. The major responsibility of Panhellenic Council, besides sponsoring good will and cooperation between sororities, is the supervision of rush activities. The council evaluates the procedures every year to insure a fair and effective program. Other activities include the annual Panhellenic workshop to promote and improve campus-sorority activities and cooperation.

# Alpha Epsilon Phi

Sweets for the Sweet. Happy AEΦ's get together at the local ice cream parlor to select their favorite flavored lollipop. Keeping with the sweet tooth, the pledges sold candied apples as one of their pranks on the actives. Besides their social activities, the AEΦ's have adopted their new National Philanthropy, The Arrow, as a project to help the American Indian. Aside from sorority functions, the women of AEΦ participate in many campus activities and honorary societies. They boost members in Cardinal Key, Associated Women Students, and Panhellenic.

## Phi Kappa Tau

Fun loving Phi Tau's pause for a "cool one." Well, maybe they are a little more enthusiastic than that! Wouldn't you stop for a cool one too, on a lazy Sunday afternoon. Who can blame them after participating in a full year of activity and fun? Alpha Psi chapter of Phi Kappa Tau is the oldest national fraternity on campus and has rapidly grown with the University. This year the Phi Tau's have done much to combine civic service with fun. Their activities include sponsoring a Christmas party for children of the Southwest Orphanage, building a homecoming float for Fanfare '68, participating in the Campus Carnival and sponsoring the annual "Splash day" held on the first day of spring when their lodge pool is filled with water.

# Sigma Alpha Epsilon

Welcome to the SAE Open House! Usually, the men are a bit more formal in their attire. However, they suddenly felt the need to welcome their guests in a more relaxed atmosphere. The SAE's typify the versatility and enthusiastic energy of the Greek Fraternities. Known as the "singing fraternity", the men of Sigma Alpha Epsilon serenade the sororities while they tap new members for Little Sisters of Minerva. Texas Gamma chapter seems to be a "swinging fraternity" as well. They enjoy parties and fun while achieving the more serious expectations of their brotherhood.

# Tau Kappa Epsilon

TKE's are flying high this year. Although they seem ready to board the Continental jet for a destiny unknown, the TKE's have decided at the last moment to remain part of the U.T. El Paso "jet set" instead. Known for their civic and school service projects, the men of Tau Kappa Epsilon have contributed their time and effort to beautify the campus. They have regular speakers and breakfasts throughout the school year. When not working on worthy projects, the TKE's enjoy the rapid pace of fraternity living.

## Zeta Tau Alpha

Hanging from the rafters and peeking from the windows, the Zeta's present a pretty picture of sorority life. The pledges don their grubbier hats and their craziest hats to distinguish their pledge class from the active chapter. The actives look poised and polished in their blue uniform dresses. The Zeta's are very proud of their new wooden crest, detailed with sorority symbolism. They are also exceptionally proud of the honors and achievements of their individual members.

First Battalion Staff

# Army ROTC

Through the Army Reserve Officers Training Corps students are prepared to enter the U.S. Army as officers. Many hours of drill and instruction produce men of responsibility and leadership. The ROTC department is divided into two battalions; the First Battalion consists of Companies A, B, and C, and the Second Battalion consists of Companies E, F, and G.

The ROTC program produces men of responsibility and leadership. Through the instruction the men learn and practice Military Sciences and tactics and are trained in the art of organizing and motivating. The ROTC cadets are responsible for raising the flag every morning and furnish color guards for various school functions.

## Sponsors

The first cavalry wagon train never had scouts like these U.T. El Paso Sponsors. All Sponsors must possess outstanding drill characteristics and conform to the highest ideals of the ROTC Sponsors. They must also maintain a 2.0 overall grade point average.

The purpose of the ROTC Sponsors is to encourage, preserve, and develop the highest ideals of the military profession. These scouts, instead of finding Indians, picked up three first place trophies which were won at the PR drill meet, the Scabbard and Blade meet, and the New Mexico State meet, and an outstanding exhibition trophy won at the Texas A&M meet.

## PR Commander

Ed Hunter commands the now nationally recognized Pershing Rifle drill team. He states, "In the past ten years, Pershing Rifles have come from the little known group over the hill into a well integrated part of campus and community life." Ed and his PR unit are involved primarily in developing the best drill team in the country.

## PR Sweetheart

Sandy Perryman reigns as the present Pershing Rifle sweetheart. Given the rank of honorary captain, she serves as hostess to their various functions. Sandy attends the PR meetings and assists with their many activities, which include building a homecoming float, and guarding the flag on different occasions. She is also eligible to compete in the regional meet with other PR Sweethearts.

PR's drop their guns for a breather at a nearby river bank.

# Pershing Rifles

"Can do" is the motto adopted by this year's Pershing Riflemen. Exemplifying their new motto, they won the participation award for homecoming week. The Pershing Rifles, an honorary military organization, are dedicated to leadership, duty, and community service. The PR's on the U.T. El Paso campus are interested in providing service to the University and the city by providing a polished color guard at the larger civic functions in the city.

## PR Pledges

The Pershing Rifle pledges laid down their guns to relax in the park, after participating in one of the roughest pledge programs in the country. They must attend four 7:00 a.m. meetings a week, Saturday and Sunday drill sessions, and undergo a rigorous physical fitness program. Unlike many of the other groups on campus, Pershing Rifles pledges undergo a hell month instead of a hell week. The effect of the program can be seen in the fact that Company H-17 has been awarded best company for seven out of the past eight years.

## SAME

The Society of American Military Engineers, is a corporation in which the engineering services of the armed forces join all fields of civilian engineering practices. The purposes of the Society are to advance knowledge of military engineers, to promote efficiency in the military engineer service and to develop relations of helpful interest between the engineering profession in civil life and that in the military service.

Officers of SAME include: King Gorman, Treasurer; Donald Hudson, President; Bob Mascorro, Vice-President; and Bert Jennings, Secretary.

# Scabbard And Blade

Scabbard and Blade is the national honorary military society founded on the principles that military duty is an obligation of citizenship and that college men have a greater responsibility because of the opportunities afforded them for the study of military science. The members of the honor society performs services which include sponsoring the Combat Hop and the Military Ball, manning the cannon at football games, and raising and lowering the flag.

# PEOPLE

People.  
I exist as one of many.  
Depending on others for my being  
and they depend upon me.  
In the mass of those  
who live day to day  
with their hopes, dreams  
and disappointments  
I share a common bond.  
I am like them and they are like me.  
Individuals standing out  
in the crowd of people,  
asking for only a chance  
that some of our dreams  
may someday come true.

## Faculty

 John Peace, San Antonio

Chancellor of The University of Texas System:  
 Harry H. Ransom, Ph. D.

# Acting President Milton Leech

Last summer Vice President Milton Leech was appointed acting President of the University of Texas at El Paso. He first came to this institution in 1949 to begin organization of a Department of Drama and Speech. Dr. Leech received his BFA from the University of Texas at Austin in 1948 and in 1949 became the first student to receive a MFA from that University in Dramatic Production.

Before becoming Vice President in 1965, he served as Director and Head of the Drama and Speech department and as Executive Director of MISSION '73. Among President Leech's accomplishments was the creation of Leech Grove between the Administration Building and Cafeteria. Shady, green and quiet, the park is enjoyed by students for everything from barbeques to study.

Dr. Clyde Wingfield

## Executive Assistants

Dr. Clyde J. Wingfield, who came to U.T. El Paso in 1964 and previously served as head of the Political Science department, now holds the position of Executive Vice President. Steele Jones arrived on Campus in 1956 and assists the President as Development Officer. Mrs. Joy Riley, Executive Assistant to the President has been here since 1964. James Bacon is Assistant to the President in charge of the Office of Contracts and Grants.

## Men Of Mines

Men of Mines stand before a traditional background of mining. Engine Number One, an early engine used in the hauling of mine ore to El Paso from the southwest mining towns, is a reminder of past and present in Men of Mines. Men of Mines originates back to a time when U.T. El Paso was the Texas College of Mines with Engineering as the first school. Each year the University honors its top engineers.

# Who's Who

Each year Nationally accredited colleges and universities honor men and women students who exhibit outstanding quality in leadership and service. These students are first selected by local committees composed of professors and deans. Then a national selection committee chooses a final list of students. To be selected is an honor which entails the entry of one's name into the book of **Who's Who in American Colleges and Universities**.

## Best Dressed Coeds

Out to discover the newest fashion trends, U.T. El Paso's best dressed coeds head to Amen Wardy's for a visit. Keeping up with the changing styles and color combinations is only part of being well dressed. These coeds also realize the importance of good grooming and poise to achieving the total look. Representing each womens organization on campus, these lovely young ladies were selected as the best dressed individual in their group. Making sure that they look near perfect from head to toe, the best dressed set certainly adds a fashionable look to the campus.

## Does an automatic stick shift make it more attractive?

Our optional automatic stick shift  
doesn't have a clutch.

Just a stick you don't shift much.

Drive 1 drives you all over town.

Drive 2 drives you up and down the  
highway.

Stop by and shift for yourself.

TED FRANCO III

I am.  
I am in the end—one individual.  
Within myself I find the strength  
to carry my burdens  
and the patience to accept  
that which I will never understand  
hoping that wisdom will be gained  
somewhere along the way.  
To live as a man  
strong and proud—  
free and unafraid—  
I realize that my failures  
can only teach me,  
my accomplishments can only  
add to my total self.  
And only I can decide  
what that will be.

Come with me and climb the heights to see  
the stars above and waves hitting below.  
On silver wings shining with youth  
I will guide you with my hopes  
challenge you with my fears,  
if only you promise to hold my hand.  
Together we can search our thoughts  
as every aspect of life continues rapidly.

Forgotten are the things  
that can and will  
never be.  
Time passes by me  
and changes me  
with maturity and values  
different from those  
in the past.  
A world awaits for that which  
I can give  
promising nothing in return.  
To seek my own happiness  
and to succeed at that  
which will make me content  
with myself is all  
that I ask.

The night will come and pass  
as morning light brings a new day.  
Fresh with new hopes to add to old ones  
I will continue my endless search  
to see and feel every expression of life.  
To experience the tiny joys  
of touching soft roses in the spring  
and learn from the sorrows of that which  
I cannot understand—  
the lonely moments and tears  
mixed with happiness and faith—  
have made me human and vulnerable  
to my constant dream that someday  
the screen will be removed from the window,  
the smell of rain will awaken me  
and I will reach outside knowing—  
now I may live.

Changing from Texas Western College to the University of Texas at El Paso has left the campus and students with growing pains and a new sense of pride. The *Flowsheet* has grown with you and the University, finer in quality and more modern in style. We have attempted to present a unique book worthy of representing a University. We have emphasized the individual and his thoughts, aspirations, and concerns in the opening and closing section of the book. It is for you, the individual, that the *Flowsheet* was designed. For you to remember, enjoy, and recapture the meaning of your years at the University of Texas at El Paso.

# 1969 FLOWSHEET
