TEXAS COLLEGE OF MINES, EL PASO TEXAS

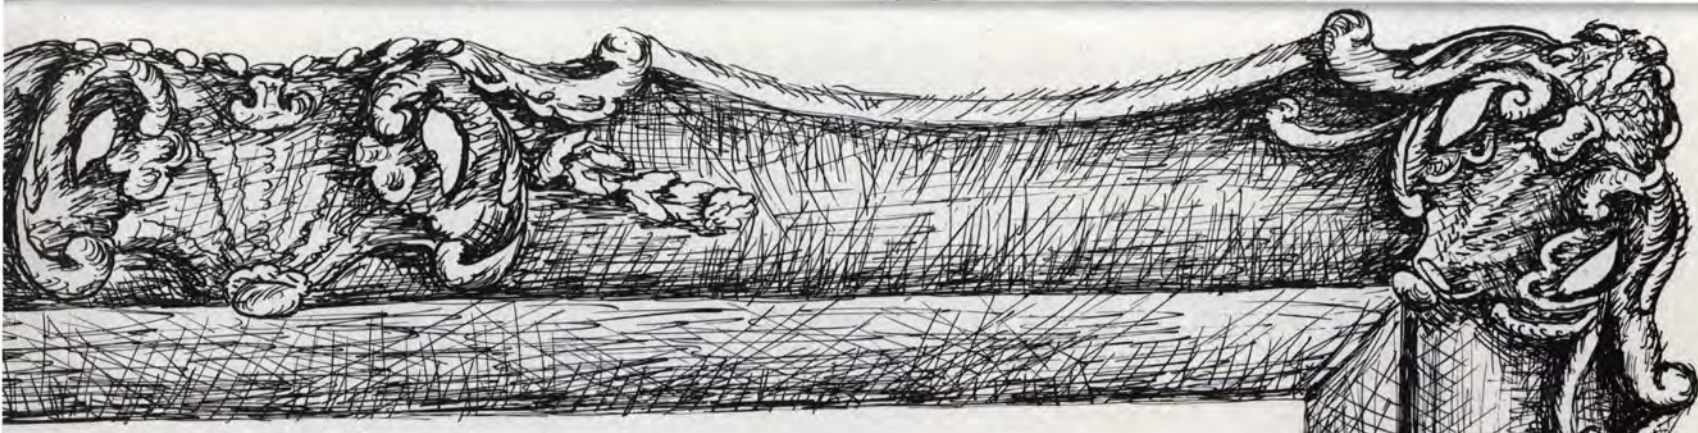

PEACE, tranquility, and serenity are mere words today; but, in the 90's these things really existed. This age is full of noises, rushing, pushing, engines roaring, factories smoking, bribery, restlessness, and selfishness. The world has grown so small that man contemplates expanding to the moon. 'Tis true that these nerve-racking things have been gained, but tranquility which happiness demands has been sacrificed.

THE EARTH was a huge place in the days of the Gay Nineties. Then it took several days to go to "College Center" while today the globe can be circled in approximately the same space of time. Life today is fast: tomorrow it promises to speed up. So, leave the whirlings of today and turn to the past that the "grand old people" speak of so memorably.

BACK TO the days of the "two-stomached" lamps, the afternoon of Sundays in the park while a musical organiza-

# FACE

tion played, the *Police Gazette*, ostrich plumes and bustles, the Gibson girls, the vertebra sofa with the burnt leather cushions. "In My Merry Oldsmobile," a song that could be heard coming from under a helmet, a pair of goggles, and a duster, while other types of song such as "The Shade of the Old Apple Tree" could be heard warbled by the silver throats of the Maple Leaf Four, barbershop style. Leisure moments were spent looking at the latest slides, through a stereoscope, of the Chicago World's Fair, while a cylindrical disk rolled over and over causing scratches of song to come from an old morning-glory horn.

THERE, perhaps is no age as carefree and with as much leisure as this ago of the gingerbread decorations. So, from a great past, the theme of the 1947 *Flowsheet* is taken, escaping as we may from the present-day affairs to the life of the 1900's, when our college was only a dream in the minds of the men and women of the Southwest.

# EDICATION

The 1947 Flowsheet is dedicated to Miss Vera Wise, who has contributed a great deal to the Texas College of Mines. Miss Wise is founder of the Mines Art Department, and under her leadership, it has become international in the study of painting, sculpturing, and design by trips each summer throughout Mexico. As head of the Art Department, she introduced craft courses of weaving, pottery, and jewelry making, and has planned and worked consistently for the construction of the Memorial Art Building, which will be built this summer.

Miss Wise not only is enthusiastic about art, but spends much of her time with extra curricula activities, being sponsor of Chi Omega Sorority and Beaux Arts Society.

So to a fine horsewoman, ceramist, and artist, we offer the dedication of this annual.

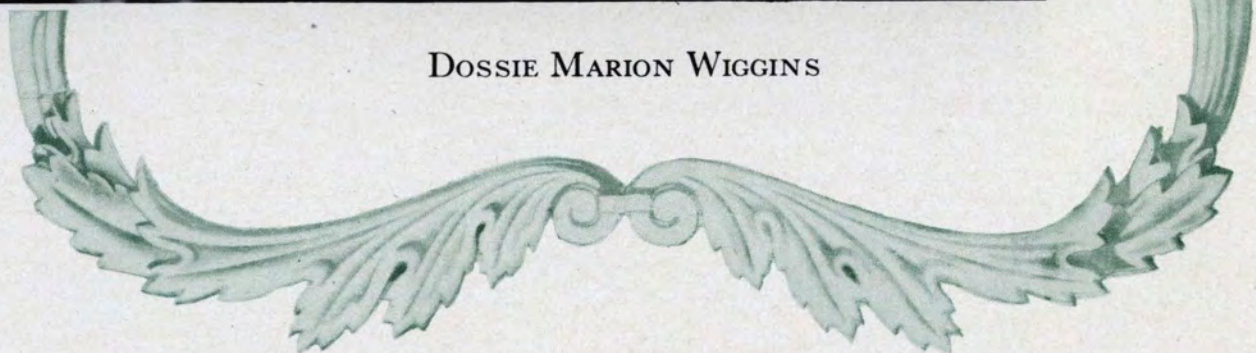

## MESSAGE FROM OUR PRESIDENT

THE TEXAS COLLEGE OF MINES is experiencing the greatest year in its history. The enrollment figures for the year 1946-1947 have surpassed all expectations. Within the memory of its alumni the College has grown from an annual enrollment of approximately 100 to an institution which not very long ago would have been considered among the largest in the entire country. It has been most difficult to keep pace with the growth in student population, in physical plant, and instructional staff. The present conditions present a mighty challenge to all of us who are responsible for the development of the College of Mines. At the present time new buildings are under construction and others must be begun very shortly. Equipment must be added and the faculty must be strengthened. I sincerely urge all students of the College to join with us in making of this institution one of the strongest undergraduate colleges in this entire country. It is a genuine challenge to grow up in the College and with the College.

# INTRAMURAL

This year, a great many veterans, who are exempt from physical training, have turned to Intramural Sports for physical conditioning and workouts. An estimated number of 300 men participated in football, basketball, table tennis, swimming, track, and softball. This year the program has been considerably expedited by Jim Scott, Intramural director, through the formulation of permanent rules and regulations, and the establishment of an Intramural file in the Student Association office.

# THE END

Dear Readers:

For the past one hundred, eighty nine days, three hundred, sixty hours, seven hundred, twenty minutes, thirty seconds, four ticks, or to you fellow Miners, exactly nine and one half months in spawning this '47 Flowsheet. It's been lots of fun even though quantities of midnight oil has been burned, sharp words exchanged, lack of cooperation from the press room typewriters, and paste pots broken and exhausted. There were even times, we didn't have a 'pot to paste in.' As the editor, I want to thank the staff members who have worked so diligently to the end, especially those who have little credit.

We hope you like this book, and if, by chance, any enthusiasm has been stired for making a better book next year, then it's all been worth it.

George Saucier
