Biographical Sketch

Horace B. Stevens was a real estate and insurance agent in El Paso from 1887 until his death in 1926. He was born in Maine in 1858 and moved to the Southwest in 1882, where he worked for a time in Clifton and Solomonville, Arizona. Besides his real estate and insurance business, he was one of the incorporators of the Herald News Company, a founder of the Cloudcroft Baby Sanatorium, and a civic leader who was prominent in his efforts to eliminate vice in El Paso. He was one of the founders of the El Paso Chamber of Commerce and served as its president on several occasions. Stevens was the agent in El Paso for Anson Mills, and, with Gen. Mills, was involved in the consolidation of the street railway lines. The real estate business continued as the Horace B. Stevens Agency under the direction of his son Philip until 1959.

Arrangement

The business records are arranged by format in original order. Receipts and receipt books are arranged chronologically; letter copy books of out-going business correspondence are arranged chronologically, and incoming correspondence is arranged in a roughly alphabetical order within date ranges. Miscellaneous correspondence, including correspondence with Anson Mills, W.W. Mills, and other Mills family members, photographs, and personal papers are filed at the end of the business records.

Scope and Content Notes

The papers consist primarily of business records relating to the conduct of real estate and insurance business in El Paso, but also include some general correspondence, photographs, and auditors' reports for the El Paso Military Institute. The earliest records are signed by J. B. Catron or Richard Comstock. Business records in 1887 and 1888 refer to the business name as Comstock and Stevens. Correspondents include Anson Mills, pioneer El Pasoan and Commissioner of the International Boundary Commission, English expatriate architect George King, W. W. Mills, and many other prominent El Paso residents. Subjects include the El Paso Military Institute, the El Paso and Rio Grande Railroad, and real estate in El Paso.

Notes to the Researcher

The bulk of the papers are well-organized business records, but many of the letter book covers and correspondence folders were discarded because they were contaminated by pigeon droppings during their long storage in an open attic area. Boxes 82-84 were called the Anson Mills Collection for several years before staff determined that they should be part of the Horace B. Stevens papers, since they consisted mostly of letters from Anson Mills to Horace B. Stevens.
