AWS Honors Women Students

Mrs. Jean Miculka, TWC instructor in the Speech and Drama Department, was named the Outstanding Faculty Woman at the annual Associated Women Students Honors Night last week.

The election of Sandra Basom as AWS president and other elected AWS officers was also announced. Frances Van Wickel, a junior music major, was elected AWS vice president, and Lydia Vargas, a sophomore majoring in physical education, was elected AWS secretary.

Basketball Comments Diversified

By JOHN RICHARDS

Much publicity has been bestowed upon TW after the Miners won the NCAA basketball championship.

This publicity includes being on the cover of Sports Illustrated as well as having many other stories appear in the major magazines and newspapers in the country. It has also included congratulatory telegrams from such VIPs as Vice President Hubert Humphrey, Senators John Tower and Ralph Yarborough, Representative Richard White and comedian Bill Cosby, among others.

Most of this publicity has been fair in dealing with the Miners' rise in basketball stature. There were, of course, a few off-the-cuff remarks in some of these publications about the low physical and mental preparedness of the Kentucky Wildcats and the lucky charms that the Miners seemed to possess.

One article, however, which appeared in the Newport News, Va., Times-Herald by a Larry Keech, certainly goes too far in trying to belittle and rationalize the Miner's hard won victory.

Mr. Keech's theory for the Miners success is relatively simple. He states that TW coach Don Haskins had very little to do in producing a winner. He merely had to follow four rules in order to produce a national champion:

- A. Find a school with low academic requirements.
B. Locate and recruit the best Negro basketball talent.
C. Since the recruits should be excellent shooters and rebounders by the time they arrive for the first practice, teach them how to play defense.
D. Sit back and watch them win.

Speaking of Coach Don Haskins, Mr. Keech wrote, "He took a short cut to the title." He said that because there were no "bur-

Pershing Rifles Awarded Trophies

Texas Western's Pershing Rifles and Sponsors returned from Arizona State in Tempe March 25-26 with three trophies from 10th Regimental Drill Meet.

PRs, Company H-10, was awarded best company in the 10th Regiment. The Sponsor team captured second place trophy for trick drill and Karen Hamilton won best-drilled individual.

Competition came from 14 drill teams in Arizona, Texas, New Mexico, and California, and five sponsor groups. TW sent 25 sponsors and a 16-man drill team to Tempe

Judging was by Air Force, Army, and Navy officers

Trexler Leaving El Paso

Dr. Richard C. Trexler, assistant professor of history, has revealed plans to leave the Texas Western Campus to take the position of assistant professor of history at Occidental College in Los Angeles.

Dr. Trexler said that he will finish the present term before going to Los Angeles this summer.

Dr. Trexler stated that he will be teaching more or less the same subjects that he taught here.

Occidental is a relatively small campus with approximately 1700 students, but it is a well regarded institution in the liberal arts field, Dr. Trexler said.

Library Schedule For Easter Is Announced

Baxter Polk, Librarian, has announced the schedule the Library will follow during the Easter holidays: April 6, 7, 8, and 11—open from 8 a. m. to 5 p. m. Closed Saturday, April 9.

John Bircher Will Speak On Campus

The Political Science Club will present John H. Roussetot on Campus April 14 at 2 p.m. in LA 116. He will speak on "The John Birch Society." The public is invited.

Mr. Roussetot has served in the United States Congress as a Representative from the Twenty-fifth District of California. He is the National Director of Public Relations of the John Birch Society.

At a public lecture April 14, at 8 p. m. in Templin Hall at Radford School for Girls, Mr. Roussetot will discuss "Does Free Enterprise Have a Vested Interest in The John Birch Society." Admission will be \$1.50.

INTERNATIONAL CLUB MEETING TODAY

There will be a reception of the International Club today, from 7 to 10 p. m. in SUB 308. A dance will follow the meeting. All foreign students are cordially invited.

VICKI NAVA, MILITARY QUEEN

Wanted: Volunteer Dealers

"Wanted: Dead or Alive — Dealers." So read the bulletins posted throughout the SUB, and so comes the cry of help from the SAB who are desperately looking for dealers to aid them in staging the annual Reno Night activities. Those interested in dealing are urged to turn in their names in SUB 306. No qualification other than careful hands will be required.

The SUB will be decorated to represent many of Reno's finest clubs, including Mr. Lucky's, Harold's Club, the Gas Light Club with its French decor, the western motif of the Harris Club, and Hefner's Haven in the Play-boy Club.

A dance will be held in the SUB Ballroom and will feature the wild gyrations of several Go-Go Girls.

Patrons will be provided with free money with which to tempt fate in poker, black jack, craps and chemin de fer.

The festivities on Saturday, April 14 will last from 8 to 12 p.m. and refreshments will be served.

Elections To Be Held April 20-21

Elections for Student Association offices and Student Senate for 1966-67 will be held April 20-21, according to Fred Craft Jr., SA president.

Students interested in running for office should contact Craft as soon as possible.

Eligibility requirements for the various Student Association offices and Student Senate soon to be vacated are as follows:

Any candidate for the office of President, Vice-President, Second Vice-President, President in Charge of Activities, Secretary and Treasurer must have had attended Texas Western College for at least one year and must have and maintain a minimum overall grade point average of 2.5 for a minimum of 60 semester hours.

Candidates for Supreme Court Judge must have and maintain a minimum overall grade point average of 3.0 for a minimum of 75 semester hours. A petition signed by 25 members of the Stu-

(Continued on Page 7)

Military Ball Depicts Greece

The ROTC Military Ball will be held tomorrow night, 8-12 p.m. in the SUB Ballroom.

Sponsored by Scabbard and Blade, junior and senior military honorary society, the theme for this year's Ball will be "An Evening in Athens."

According to Les Grau, chairman for the ROTC Ball, "The Ballroom will be decorated in scenes from ancient Greece. We have been making preparations for the ROTC Ball for nearly two months, and this year should be the best ever."

Military Queen for this year is Vicki Nava, who is also Company Sweetheart for Scabbard and Blade. Miss Nava, who was a twirler with the TWC Marching Cavalcade in 1962-63 and 1963-64, received a BA in Psychology from TWC in January. As Military Queen she was elected by the Senior ROTC cadets.

Lady-in-Waiting is Miss Ellie Spitzberg, a sophomore majoring in secretarial science. Miss Spitzberg was elected by the Junior ROTC cadets.

There are two Battalion Sweethearts, Rosemary Castetter for 1st Battalion, and Karen Davis for 2nd Battalion.

Miss Castetter, a freshman Elementary Education major, is Company Sweetheart of the Pershing Rifles, and a member of the ROTC Sponsors, TWC Choir, and a member of Phrateres.

A sophomore Journalism major, Miss Davis is on the Bell Hall Dorm Council, a member of the Flowsheet Staff and of Tri Delta Sorority.

Six Company Sweethearts were elected by the freshman and sophomore ROTC cadets.

A Company Sweetheart is Miss Ruth Cummings, sophomore majoring in Personnel Management. Miss Cummings is a member of the ROTC Sponsors.

B Company Sweetheart is Miss Barbara Abraham, junior Psychology major. Miss Abraham is a member of the ROTC Sponsors.

C Company Sweetheart is Miss Virginia Schuller, senior majoring in Elementary Education. Miss Schuller is Drill Team Commander of the ROTC Sponsors, secretary of Chi Omega Sorority, member of the Student Senate and Panhellenic Council, and a Sun Duchess.

Miss Gay Sawyer is Sweetheart from E Company. She is a sophomore Biological Science major and member of the Student Activities Board.

Miss Rita Childs is F Company Sweetheart. Miss Childs, a freshman Journalism major, is a member of the Christian Science Organization and ROTC Sponsors.

Miss Judy Phillips is Sweetheart for G Company. Miss Phillips is a sophomore Accounting major.

The Military Ball will open with "presentation of the colors" by representatives of Pershing Rifles.

Convention To Be Held At Sheraton-El Paso

The 1966 convention of the Rocky Mountain Council for Latin American Studies is being held at the Sheraton-El Paso Motor Inn, 4151 North Mesa, today and tomorrow.

Dr. John H. Haddox, head of the Philosophy Department at Texas Western College, will reside as President of the RMCLAS Convention.

Senators Schedule Meetings

Student senators will be available in SUB 308 from 9 to 11 a.m. on Wednesdays and Thursdays till the end of school to speak with their constituents.

Student senators include Kathy Fynn, Mike A. Casillas, Bill Kirkwood, Jim Jobst, Oscar Mercado, Suzanne Strauss, Bob Nelson, Frank Hoy, Lucile Hellums.

Kay Ray, Tony Marquez, Richard Overly, Mac Belk, Jim White, Joe Brown, Linda Shaffer, Sandra French, Jaime Einstein, Jimmy Paul.

Sylvia Palafox, Joe Shirley, Pam Angell, Roy Chavez, Mike Lyons, Carl Zaiss, Mike Spence, Nancy Jobe, Sheila Kerns, Linda Armstrong.

Susan Terrell, Betsy Johnston, Fred Fraser, Charles Peña, Cecilia Cosca, Darryl Kay Shurley, Linda Reinhardt, Dave Hunsicker, Pat Peterson, Bill Ross.

Andy Kozero, Karen Jones, Rol Coe, Don Payne, Suzi Navarro, Mary Clare Walker, Frances Van Wickel, Galen Starkey, Donna Nowell and Betty Einstein.

Dr. Abernethy Will Speak At Seminar

Dean L. L. Abernethy, of the TW School of Engineering, will give the opening remarks at the third annual technical communications seminar open today at TWC.

The program, "Technical Communications—New Men/New Machines," will be composed of outstanding people in the field of technical communications.

Coach Bobby Dobbs will speak at the seminar's luncheon. The program is jointly sponsored by the Trinity Chapter of the Society of Technical Writers and Publishers and the TW office of Institutional Studies.

Past Staff Member, Mrs. Petrello Died

Another name was added to the list of TWC staff members who have died this semester. Cancer took the life of Mrs. Mary Lou Petrello Sunday.

Mrs. Petrello served as Campus Postmistress from 1952 until the Spring of 1965 when illness forced her to resign.

Funeral services were held Wednesday at Kaster-Maxon Funeral Home.

KVOF DANCE

A KVOF sponsored Go Go dance will be held Monday from 12 noon to 2 p.m. in the SUB Ballroom.

Intramurals

By JIMMY PAUL

The Rejects had to stage a come from behind drive to catch the hot-shooting 69ers. Bill Wilkerson (14 points) and Bob Wallace (12 points) dominated the backboards in the second half in order to give the Rejects their 52-47 victory. Phil Ottone (18 points) and Enrique Orona (12 points) kept the pressure on the Rejects with their accurate shooting. The 69ers had a six point lead at halftime, but with domination of the boards and the play making of Willie Fields (10 points) and Eddie Joe Shirley (7 points), the Rejects came on strong and dumped the 69ers zone offense. The Lancers, using a candid fast break, dropped the luckless KKY music makers 48-38. The Lancers were led by Lionel Navo's 19 points and Gilbert Montes' 16. Jim Phelan had 16 with Jerry Smith adding 12 for KKY. Schellenger dumped the rugged SAB team 46-34. Santiago Batres and Wally Magill lead Schellenger with 25 combined points. Don Griffin nailed 16 points for SAB. Burges Hall as usual continued to romp on their opponents, this time they smashed Hudspeth.

The All-League I team is: Steve Salvo—Burges, Neeb Courtney—Burges, Bill Wilkerson—Rejects, Bob Wallace—Rejects, Enrique Orona—69ers, Bob Geske—Hudspeth, Santiago Batres—Schellenger, and Don Griffin—SAB.

LEAGUE II

It looks like League II belongs to the Wetbacks; this week they descended upon Circle K and left them bewildered 63-25. Ronnie Naylor (16 points), Phil Bowen (12 points), Drew Bowen (10 points), Wayne Bowen (9 points) and Danny Wilson (10 points) kept the attack of the Wets constantly balanced. Tavarez had 10 points for Circle K. The Lamplighters came on strong in a tough defensive game to dump the PRs 37-19. Milton Henry had eight for the Lamplighters while Haddad scored six for the PRs. Worrell and the PE Majors won their games by forfeits.

The All-League II team is: Ronnie Naylor—Wetbacks, Wayne Bowen—Wetbacks, Dale Murphy—PEM, Pete Valdez—PEM, Jim Malott—Wesley, Milton Henry—Lamplighters, Don Stavlo—Worrell, and Albert Menchaca—PRs.

FRATERNITIES

The League leading PKT, still relying on defense and failing to capitalize on their offense, joked with LCA 31-10. Earl Waters scored 13 points with Harry Bailey getting seven for PKT. A goal-tending call in the final seconds gave the Kappa Sigs a hard fought win over SAE, 25-24. Dan Kithcart (11 points) and Jim Wyly (seven points) led the Kappa Sigs. Tom Paul had 10 for SAE.

The All-Fraternity team is: Richie Mesa—TKE, Tom Paul—SAE, Earl Waters—PKT, Harry Bailey—PKT, Dan Withcart—KS, Art Karger—KS, Bill Irwin—AKL, and George Campbell—APO.

Here is the play-off chart and the Rosters of the teams participating in the play-offs:

Miner Bats Boom; Six Better .300

The Miner baseball team, after seven impressive wins over worthy opponents, finally dropped a game to New Mexico Highlands University in the course of two twin-bills in two days against the Albuquerque-based team.

TW's Tom Jennings, who led off from the mound in the opening game against the Highlanders allowed only one run, unearned at that, in a full, seven-inning performance. Also noteworthy was the batting of the Miners, who hold a .289 team batting average over opponents' .233. The Highlands team put up "Some of the best pitching we'll face," according to assistant coach Orville Kruschwitz.

"We'll know how much of a team we have after next week," continues Kruschwitz, pointing out that both rivals will provide top flight competition, with seven games crammed into a five day stretch to test the Miner's

stamina and bench strength.

Besides Jennings, whose .000 ERA and 2-0 record paces Miner hurlers, Bob Heinzl contributes another 2-0 record followed by Jim Sanders and Ralph Ornelas, both with 1-0 records and strong ERAs

An unheard of six batters are currently striking better than .300 from the plate, among them Charlie West (.300), Larry McFarlin (.300), Jay Christopher (.462), Phil Olton (.313), Bufe Morrison (.313) and Chuck Stout (.500).

In four games Monday, Tuesday and Wednesday, the Miners host the University of Oklahoma at Dudley Field. Thursday will again find the Miners at the Sun King park in a 1 p. m. double-header against the University of Colorado. A 10 a. m. clash against the same contingent will wind up the series and be TW's last encounter until April 7 at the University of New Mexico.

V., International Travel Est., 68 Herengasse, Vaduz, Liechtenstein (Switzerland).

National Champs Top TWC Records

Whipping Chieftans, Bearcats, Jayhawks, Redskins, and—yes—even Wildcats, Texas Western's Border Bandit basketballers pilfered the National Championship and broke a few school records in the process.

For instance:

—Orsten Artis and Jerry Armstrong both surpassed the record for free throw accuracy by canning .863 and .875, respectively, to erase the old mark of .857.

—The Miners ran up a 23-game win streak, easily topping the former 16 straight by Coach Don Haskins' 1963-1964 outfit.

—They won more games, 23, had fewer losses, 1, and the best win-loss record, 28-1, ever in the history of Texas Western.

—Their .970 won-loss percentage outdid the old record of .821 of the 1963-64 team.

—Six team members—Bobby Joe Hill, David Lattin, Orsten Artis, Harry Flournoy, Nevil Shed, and Willie Worsley—each scored over 200 season points. In 1951 TWC numbered five players over the

double century mark.

—Hill, Lattin, Artis, and Shed each tallied over 300 points making four cagers surpassing that number for the first time in the history of the College.

Of the top 20 all-time Miner scorers in one season, this team landed four on the select list despite the fact that the National Champs were primarily a defensive squad. Hill's 419 points placed him at the number six spot followed by Lattin at seventh with 407 points. Orsten Artis moved up five notches from 15th to 10th with his 35-point two-game effort in the national finals to give him a 352-point total. Shed tallied 306 points for 16th place.

Individual statistical leaders were: Hill in point average (15.0); Harry Flournoy in rebounding (309 caroms for a 10.7 average) and field goal percentage (96 of 192 attempts for a .500 mark); Jerry Armstrong in free throw percentage (.875); and Lattin in total charity shots (111 made of 158 attempted).

Music Dept. Presents 'Tosca'

A play based on revolutionary events that were taking place in the 1800's, Texas Western's Music Department will present "Tosca," written by Giacomo Puccini.

"Tosca," originally written and produced in the Italian language will be presented in English with a cast that has had international experience.

Under the production of Dr. Martin Meyer, "Tosca" is involved with the conquest of Europe. The production tells of emotion of love and cruelty.

The play tells of the aid that is given to the prisoner and the cruelty and true devotion that is involved in trying to help him escape. Floria Tosca, portrayed by Mrs. Adela Semon and Mrs. Lela Lofton, bargains her body for her lover Mario Cavaradossi, portrayed by Hugh Cardon. Tosca in desperation, asks only a safe-conduct out of Rome for herself and her lover.

"Tosca" will be presented nightly March 31, April 1 and 2 at 8 p.m. with one afternoon performance April 3 beginning at 2:30 p.m. Admission prices are \$3.50, \$2.50 and \$1.50 with SA card. All seats are reserved.

New Women's Club Organized At TWC

A new group has appeared on the TWC Campus this year. It doesn't have a name, officers, constitution, dues or any of the other accretions usually associated with an organization.

It does have a purpose: to serve as an organ of encouragement, support, friendship and information to women returning and just starting in college.

"We have women of all ages in our group," said Mrs. Lue Salguero, one of the founders, "but most of us are married and in the 30 to 40 age group."

The group has had two luncheons and has another tentatively planned for Monday, April 11.

Further information may be obtained by calling Mrs. Salguero at 772-6192, or Mrs. Ann Stanton at 755-3352.

ENGINEERING QUEEN . . . Frances Bowden, junior history major, was recently elected the 1966 Engineering Queen. Because of the basketball game, the crowning and coronation has been postponed until a later date.

Artists Show Work In SUB Lounges

An art exhibit of paintings from the Black Range Artists will be held in the SUB lounges from April 4 through Thursday, April 21.

The Black Range Artists is a group of artists from the El Paso-New Mexico area. Mrs. Inez Barratt is chairman for the exhibits in the El Paso area.

The Students Activities Board Exhibits Committee will sponsor the exhibit.

A student poll will be held to choose the best liked of the paintings.

Dr. Cline To Direct Education Program

The Experienced Teacher Fellowship program, a pilot program to educate teachers of bi-cultural children, financed by the U.S. Office of Education through the Higher Education Act of 1965, will start this fall at Texas Western College.

"The purpose of this fellowship program is to upgrade the teacher education program at Texas Western in relation to the needs of the area the College serves," said Dr. Marion Cline Jr., associate professor of Education and director of the \$187,000 program.

"Texas Western, because of its faculty's understanding of the (Latin) culture and its geographical location, could become the leading preparation school for teachers of the Spanish-speaking minority and other specialized groups."

There will be two innovations in this year's TWC fellowship program. They are: Concentration at the elementary school level in teaching of reading in a complete graduate level program, and an interdisciplinary approach for training teachers of Spanish-speaking minorities.

"The departments of Education, Psychology, Sociology and English are undertaking this interdisciplinary approach to provide a program which will upgrade all participants — not only those in the program, but those teaching it," said Dr. Cline.

He also mentioned that the sociology courses offered will deal with border poverty, minority groups and their disorganization. One of the courses offered

throughout the program will be a practicum — working with bilingual children in South El Paso schools and institutions.

Dr. Cline said, "This program was proposed on the premise that one of the greatest difficulties in (Continued on Page 7)

Alan Ehmann Directs O'Casey's Irish Drama

Alan Ehmann, TWC assistant professor of English, is to direct The Theater Downtown's upcoming production of Sean O'Casey's great Irish drama, "Juno And The Paycock."

The Theater Downtown at 620 N. Oregon St. will open the production tonight, and expects to run it for the two weekends prior to, and following Easter. Curtain time is 8:30 p. m. for each performance.

Peripatetic Jottings

Increase In Students Brings Decrease In Available Space

Texas Western is a constantly shifting Campus if one is to judge by recent moves and changes in the last few months.

Once the Student Union Building was somewhat of a sanctuary for students — a place where they could schedule meetings and events.

Each year as the enrollment increases, the SUB seems to get smaller, and this year two meeting rooms were entirely eliminated because expanding different bureaus of the College needed an outlet. Now the Financial Aid office and Placement Bureau occupy rooms 313 and 314, former meeting rooms.

To help combat the problem of reduced facilities, sliding room dividers have been installed in rooms 310, 312, and one of the down-

stairs lounges. Even the hallway across from 314 has been made into a conference room.

It's not too difficult to imagine a time in the future (probably next year) when groups wishing to hold meetings will be assigned to different corners of the Ballroom, and lounges, the El Burrito automat, and game rooms of the basement, and perhaps even to the El Burrito and Flowsheet offices of the fourth floor.

Only the proposed addition to the SUB can combat the situation, and probably by the time it is built, the new portion will only allow a little breathing space, not solving the problem.

As an aftermath of the Miner victory, the Taylor Publishing Company, which prints the Flowsheet, made provisions for four pages to be added to the yearbook to commemorate the National Champs.

As another sideline, the usual press run of 2,700 Prospectors was raised to 4,000, and most were gone

before noon Friday. The memorial issue traveled all over the country, from Vice-President Humphrey to ex students.

—JEANNIE TODARO

BASKETBALL COMMENTS

(Continued from Page 1)

dens of entrance requirements and racial barriers" Coach Haskins was faced with an easier job.

Mr. Keech said, "Negro players are naturally endowed to play basketball. Thanks to superior coordination, a good colored player can shoot better and jump higher than a good white player."

He said that the common feeling was that Coach Haskins and the Miners had not accomplished a great deal.

In his closing remarks about the Miners, Mr. Keech declared, "Texas Western's victory, in a very real sense, cheapened college basketball. One can only hope the Miners' star will fall by the time the 1967 tournament

Elections Coming Up, But Do Students Care?

Student elections are coming up. When? Although the calendar says they will be held April 20-21, no one has taken any preliminary action.

The reason for this mass deficit in information is poor organization. There is no one in charge of the political parties' conventions — no one to get the ball rolling.

Even after the conventions have been held and the candidates have been nominated, it will take quite a while to get ready for the election.

Students should know the candidates that have been nominated, their platforms and their qualifications. With less than two weeks of actual classes before the scheduled election, no one has done anything apparently.

If we must have political parties, at least let's have some organization to get them going and keep them going. This waiting until the last minute to do anything about candidate nominations, elections and publicity usually insures poor voter turn-out, little voter knowledge of candidates' qualifications and sometimes even poor government.

TWC Becomes TWU In Eyes Of The Nation

Texas Western is no longer known as Texas Western College nationally. We have graduated to "Texas Western University."

Several times during the game coverage of the national basketball competition, the announcer referred to TWC as Texas Western University. Although a little disconcerting to fans, the title did lend a bit of prestige to this "small time" college playing among the "big time" universities.

If there is any doubt remaining as to basketball's boost to the College's drive to university title, one need only look to the Senate portion of the Congressional Record of March 22, 1966.

Under the title, "In Praise of Texas Western University," Texas Senator John Tower took the opportunity to "point with pride to the achievements of a Texas basketball team over the weekend, that of Texas Western University of El Paso."

Our good-intentioned College administrators and leaders of the community were using a misguided approach to a name change for Texas Western. We should not be the University of Texas at El Paso; we should follow the lead of the Senate of the United States in recognizing great events of Texas Western University.

Thanks And Praise Are Due To Staff Of Physical Plant

The understaffed, overworked Physical Plant division of the College, under the direction of M. R. Hollenshead, deserves words of thanks and encouragement.

After several months of progressively worsening conditions of some of the buildings on Campus, notably the SUB and El Paso Centennial Museum, a change occurred. Peeling paint was scraped off and fresh coats of paint were applied to the cleaned surface to restore once again the neat, attractive appearance of these two Campus buildings.

Unfortunately, the maintenance program has not been expanded in proportion to the growth of the College, and Mr. Hollenshead should be complimented on the excellent job he does with such limited staff and funds.

TODARO

LETTERS TO THE EDITOR:

Cheerleaders Tell Difficulties Ex Writes Of TW In Missouri

TO THE EDITOR:

Better late than never! It took 26 games and a NCAA Championship to get cheers rather than jeers from the fans. The Texas Western Cheerleaders welcome this transition.

After a most triumphant football season we found our squad reduced to four members and our budget insufficient to finance any future out-of-town games. We were forced to rely on our individual contacts to accomplish that which should have been supported by the College and the city of El Paso. Nowhere was this more evident than in our participation in the NCAA tournament in Lubbock. We now formally submit our apology to our number 1 team and to those enthusiastic fans who manifested their interest.

Concerning Lubbock... we had made plans to go with a family, but we were contacted the morning of the tournament and told that there was a change of plans and they would be unable to go. The TWC fans are assured that our conspicuous absence in Lubbock hurt us more than anyone, but we are glad that the fans responded to the volunteered efforts of the "little man with the orange crepe paper tie."

Cheering the number 1 team in the nation has climaxed our cheerleading experiences and we are deeply indebted to all who afforded us this opportunity. Yea Miners!

THE TEXAS WESTERN CHEERLEADERS

TO THE EDITOR:

As a former museum-beat reporter for the Prospector (1962-63) and semi-grad of TWC (I quit in my senior year) the enclosed is offered as evidence that you can take the boy out of the school, but you can't take the school out of the boy.

RON HUTCHISON

(Excerpts from "Lollipops and Lemons," a column written by Ron Hutchison, News Herald Sports Editor, of Joplin, Mo.)

"A basketball poll reminds me of a Picasso painting. It's a great conversation piece, but frankly, it's not very realistic.

"For example: Texas Western College at El Paso, Tex. is topographically isolated from the rest of the country by a hostile assortment of mountains and deserts, and a series of highways that were constructed by settlers going West in the 1870's. There are some people who insist that the Pony Express is the only form of communicating with the school. TW had to win 16 straight basketball games this season before the national sports writers even knew such a College existed.

"The writers were too busy exchanging notes on the merits of UCLA and Michigan and Kentucky and Duke and a dozen or so others. Texas Western? Where's that?

"Several weeks ago when the U.S. Basketball Writers picked their All-Star teams, not one player from Texas Western was picked from District 6.

"Two from Houston made it. A Texas Tech player was selected. Texas Christian was also honored. A Texas A&M player made it. Texas Western? Where's that?

"To add insult to injury the Miners failed to land a single player on the AP All-America first team or second team or third team and, it's safe to assume, would have been overlooked if there had been a fourth team.

"The source of my discontent stems from the fact that the Miners were passed over throughout the entire year when it came to individual recognition in the form of either District all-stars teams

or the All-America list, yet, had the talent to beat No. 1 rated Kentucky and win the national championship."

(Editor's note: This letter was received by the Student Association and was passed on to us).

DEAR MINERS:

We, the students of Bel Air High School, take this opportunity to congratulate the great Texas Western Miners for their fine efforts in winning the NCAA Basketball Championship.

We as students have backed TWC all season long, and we are proud to proclaim that Texas Western College is NUMBER ONE in the nation and NUMBER ONE in the hearts of all Highlanders and El Pasoans as well!

Engineers Honored By Two Speakers

The Mechanical Engineers were honored with the presence of two guest speakers at their monthly meeting, held Thursday, March 24.

The first speaker was Mr. Harry L. Toops, Assistant General Construction Manager for Chicago Bridge and Iron Company. Mr. Toops had been visiting the TWC Campus and interviewing some of the graduate seniors.

He had brought with him a short film entitled "The Age of Craftsmanship," narrated by Chet Huntley. The film showed how the word "craftsmanship" had come to take a new meaning with the advances being made in today's highly technical world, and what a vital role the engineer plays in this age of craftsmanship. After the film, Mr. Toops held a short question and answer session, mostly having to do with the company and their training programs for engineers.

The meeting recessed for a short intermission while everyone helped himself to coffee and donuts. The second of the two guests, Dr. James E. Cox, of the University of Houston, was then introduced. Dr. Cox is currently the Graduate Adviser in the Mechanical Engineering Department at the University of Houston and was visiting TWC on an invitation by Dr. Jack Dowdy.

Dr. Cox spoke of the increasing demand for engineers with advanced degrees and the importance of continuing one's education after graduation. He highly recommended taking up post graduate studies, even on a part time basis, in order to stay up with the advancements being made in the field of engineering.

He went on to explain the numerous financial aids that are available for qualified students. These aids are primarily sponsored by the government, private industries and the respective universities. According to Dr. Cox, there is a shortage of graduate students today and apparently an abundance of available funds. On this basis alone, he strongly urged students to consider going to graduate school.

BILL MELVER

Dr. West Speaks To Kappa Delta Pi

Dr. John West, acting head of the TWC English Department, recently spoke on "My Faith in American Youth" at a meeting of Kappa Delta Pi, honorary education society.

The Paso Del Norte alumni were hosts to the Epsilon Lambda chapter.

Dr. West, a native El Pasoan, did his undergraduate work at Texas Western and Mississippi College, where he received his BA degree. He earned his MA degree at Texas Technological University and his doctorate at the University of Texas.

He has taught in the Jackson, Miss., public schools and at Texas Tech and Odessa College.

Fellowships Offered To Graduate Students

The Washington Journalism Center will offer graduate fellowships in advanced journalism for the fall and spring semesters, 1966-67.

The fellowships are for graduate students, and will be one semester in length. They will consist of a group of seminars, internships and research projects.

For further information, students should write to: Director, Washington Journalism Center, 2000 G St., N.W. Washington, D. C. 20006.

CLUB ELECTS (Continued from Page 4)

Also Dr. Julian Roebuck, Dr. Patrick Romanell, Dr. Edgar Ruff, Dr. John Sharp, Dr. Kenneth B. Shover, Mr. Leonard Sipiora and Dr. Ellwyn Stoddard. Included are Dr. W. H. Timmons, Dr. C. R. Waits, Dr. Clyde Wingfield, Dr. Calvin Woods.

Dr. C. E. Kelsey, Jr. is director and Dr. Sharp is the assistant director.

FOLK TRIO... Dave Kahne, Donna Knotts and Brad Witt are TW students who have recently formed a new folk singing trio and call themselves "Brad, Dave and Donna." Their first record was released last week and they performed in the Beach Boys Concert last night.

Museum Evolution Tour Set

Plans have been announced by the El Paso Centennial Museum to offer a guided tour through the museum emphasizing evolution. The tour will be available by the first week in April and is open to all students 12 years and older.

The tour will begin in the Planetarium with a lecture on the "Origin of the Universe" and then continue through the various rooms. The discussion of the evolution of man will include the ideas presented by Charles Darwin.

The tour will be conducted by Walt Johnson and arrangements can be made by calling the Museum.

Pass this difficult and challenging 7-part test and win a free GENIUS button!

Part 1. Write your name and school.

Part 2. Write your street address.

Part 3. Write the city where you live.

Part 4. Write the state where you live.

Part 5. What year are you in at college?

Part 6. What field do you plan to be a GENIUS in after graduating?

"Room for GENIUSES," General Electric Company, P.O. Box 215, Church St. Station, New York, N. Y. 10046

General Electric is passing out GENIUS buttons. What's the point?

We want to spread the word that there's room at General Electric for talented people who want to take on big challenges.

We like to call these people GENIUSES. But what they're called isn't so important as where they're headed. And at the General Electric Company, there's plenty of room for GENIUSES, no matter what

their particular field of interest. If you want to be recognized for your talents come to General Electric, where the young men are important men.

And be among the first on your campus to own a genuine GENIUS button. It will serve as a reminder that G.E. . . . and GENIUS . . . and important challenges . . . all go together.

Progress Is Our Most Important Product

GENERAL ELECTRIC

Club Elects New Slate Of Officers

The newly formed Inter-American Student Organization elected new officers at a recent meeting. Max Weber was elected president; Jaime Einstein, vice-president; Bettinacristina Escudero, secretary; Jolin Manger, treasurer; Mario Gaspar de Alva, publicity chairman; Ruben Navarro, first social chairman; Bertha Einstein, second social chairman; and Patricia Palafox, third social chairman.

The Inter-American Student Organization is a student counterpart of the Inter-American Council. The purpose of this organization is "to learn as much as possible about the Hispanic world, of Latin America, of Spain, of Portugal, and to have relations with the universities and embassies of those nations in order to be able to have an exchange of ideas of folklore of people—a general exchange of ideas."

A trip to Chihuahua is planned during Easter vacation in which several students will tour the University of Chihuahua and will visit with Chihuahua's dignitaries.

An exchange program with the South and Central American countries is also planned.

Faculty members of the Inter-American Institute include Dr. Joseph M. Ray, Dr. Guido Barrientos, Mr. Fred Brewer, Mr. Abraham Chavez, Jr., Dr. Marion Cline and Mr. J. Robert Coltharp. Also included are Dr. Lurline Coltharp, Dr. Lloyd Cooper, Dr. Olav Eidbo, Mr. Carlos A. Garcia, Dr. John Haddox, Mr. Wiltz Harrison.

Included are Mr. John Hovel, Dr. Clark Knowlton, Dr. Joseph Leach, Dr. John McNeely, Dr. Samuel Myres, Mr. Ralf Nicolai, Dr. Ray Past, and Dr. John Rich-

(Continued on Page 5)

"CUT AWAY" POTS... John Arnold displays his "cut away" pots. The pot in which he holds his hand behind is "cut through" yet it still can be filled with water.

Applications Due For Defense Loans

Applications are now being accepted for students wishing to obtain a National Defense Student Loan for the fall semester.

The deadline for having applications in is May 1, and forms may be obtained in SUB 313, the Financial Aid Office.

National Defense loans are granted on the basis of the student's financial need. Loans of up to \$1,000 a year for undergraduates are available.

Students are not required to pay back the loan until two years after their college graduation. The loan is paid back on a once a year basis with 3 per cent interest. If a student teaches for five years, the amount of the loan to be paid back is reduced one-half.

WORK-STUDY PROGRAM

The Work-Study program at Texas Western is now accepting applications for jobs on Campus, particularly clerical positions. For further information, contact the Financial Assistance Director, SUB 313.

Pot Thrower Joins TW Art Department

By SUSAN SULLIVAN

One of the TWC's art department's newest additions is John C. Arnold, a bearded, unmarried man of 35 who specializes in ceramics. He has a BA and an MFA in Ceramics—the former from the University of Minnesota and the latter from Arizona State University. Aside from studying art, Mr. Arnold spent three years with the Navy in the Medical Corps and attended pre-med school for two and a half years.

While Mr. Arnold was attending ASU, he was introduced to TWC by a chain of events. Maurice Grossman of the ASU Art Department was invited to TWC to conduct a "throwing demonstration." (Throwing is placing ceramic clay on a potter's wheel and then shaping the design of the pot while the wheel is turning.) While Mr. Grossman was here, he learned TWC needed a potter. Soon after, Mr. Arnold was invited to give a lecture on glazing (Glazing is the finish that is put on the exterior of pottery) to the ceramics classes at TWC.

When Mr. Arnold came to TW in September 1965 he brought not only his skill in ceramics but a new concept of ceramic design.

He carried sculpture into the field of ceramics. He explains it this way — "The traditional pot form is penetrated — cut through — and yet it retains its function with space, or sometimes with water; more can be presented to the observer, who is shown the inside and the 'other side' of the pot. This places the pot firmly in space." To put it simply, he

makes pots with holes in them. Most of them are quite large and very unusual.

Mr. Arnold does not consider himself an artist, but a craftsman. He classes himself as a traditionalist. His approach to design is utilitarian.

When asked why he has a beard, he replies, "I don't think it's because of rebelliousness so much. It's just I don't like to shave."

As for Mr. Arnold's "rebellious nature," it would be difficult to discern. He is very reserved and quiet, yet easy to talk with. He believes American Art is beginning to set a standard and that America is becoming known as a center of art; yet he expressed a dislike for current, "formalized" showiness in art trends. "There is need for a stronger basis of craftsmanship — Art needs to be more accepted — needs to have more of a place."

His plans for the future are to teach for a while and finally to open a pottery studio in this part of the country.

Intramurals

By JIMMY PAUL

Not much action took place in intramural basketball due to the fact that the front gym floor was covered with cardboard two weeks early for the Science Fair. Therefore the play-off game between the Rejects (League I champs) and the Wetbacks (League II champs) was held in the Auxiliary Gym. The Rejects, without the services of Bob Wallace and Charlie West, arrived late for the game, but started out with a smooth working machine. Using their two big men, Bill Wilkerson and Fred Carr, the Rejects seemed to stun the explosive Wetbacks. This same thing happened to Texas Western when they played Oklahoma City, but just like the Miners, the Wets began to jell as the game progressed. Wayne Bowen and Danny Wilson began grabbing valuable rebounds and Drew Bowen started his destructive, driving lay-ups. Next the Wets put up their full-court press, harrasing the enemy the length of the court. As if that wasn't enough, they started their touted fast break. The Wets had built a nine point lead at half-time.

NAYLOR FINDS EYE

The second half went all Wetback, Ronnie Naylor found his eye and began to build on the score, Hector Martinez threw in six of his eight points, and Wayne, Phil and Drew Bowen broke the game open with their driving lay-ups, rebounds, and defense. The Rejects, holding on gamely, were down seven points with 10 minutes left to play, but lack of their usual bench strength began to show with the strong Carr and Wilkerson beginning to tire. So went the rest of the team. The Wets really poured it on with their famed fast-break and won the game 55-39.

SCORES

REJECTS—39

Fred Carr	10
Bill Wilkerson	14
Jim Paul	8
Curt Parson	2
Mike King	3
Bill Sultermeyer	2

WETBACKS—55

Danny Wilson	10
Drew Bowen	18
Wayne Bowen	7
Ronnie Naylor	10
Hector Martinez	8
Phil Bowen	2

The Wetbacks will play the PKT team for the Intramural Championship this week.

In League I action the 69ers dropped KKY 30-23. Robert Reyes, (nine) Bobbie Ludwig, (nine) and Ricky Orone (eight) lead in scoring as well as a strong defensive effort.

League II had no action due to the gym conditions.

The Fraternity league finished up their scheduled games with Phi Tau the undefeated champs. AKL was really giving the PKT's a battle until Bill Irwin snapped his ankle as the Phi Taus went on to win 37-28. Berry Waters had 14 points while brother Earl scored 12. Irwin nailed 19 points before leaving the game. The KS team jumped SAM 36-14 to end the season 6-1, and a second place in the Frat league. Dan Kithcart (12 points), Bob Nutley (six points), Stafford Weiner (six points) and Art Karger (six points) all lead the strong offensive unit. Baskind had eight for the SAM team.

SAE smashed last place LCA 46-17. Using a stingy defense and a smooth offensive, the SAEs were lead by Tom Paul's 14 points, Garry Schmolder's eight, Rick Eason's eight and John Hammond's four points.

Make-up games in all leagues will be completed this next week.

Here are the results of the spring bowling meet. The scores are for a three game total.

NCAA-Bound Craig Dear Practices 'Power Golf'

By DOUG CONWELL

Three hours a day, up to 20 hours a week, and between 100 and 200 balls hit each day. That is the normal practice schedule for Craig Dear, Texas Western golf team member, who is busy preparing for NCAA competition June 22-25 at Stanford University, Palo Alto, Calif.

Craig, junior at TW, describes his practice routine as work on the basic fundamentals of golfing, and what is known as "power golf." This is hitting a ball off the tee as straight as possible and "going for the hole in every shot." Even though he usually practices two or three hours a day, it can go as high as six or eight when a tournament is near.

The enthusiast works out at either Coronado Country Club, Horizon Courts, or the El Paso Country Club. Craig said Coronado offers the best facilities.

"You've got to be a mountain goat to play at Coronado," said Craig about the course. "I usually walk the 18 holes in three hours, which is good conditioning for me." The course is five miles long.

Craig has been interested in golf ever since he was seven year old. He comes from a family of golfers, and his father, who operates a golf course in Albuquerque, N. M., is a professional player. His brother, Terry, is "considered number one amateur in New Mexico and one of the best in the Southwest."

The TW golfer placed in the U. S. Amateur Open Championship several years ago and was New Mexico's representative to the competition two years ago. In the Hilton Open Golf Tournament in El Paso, Craig's brother, high school student at Albuquerque Highlands, beat him.

"I didn't have any complaints," said Craig, "he beat everybody

else—including 45 pros. And he set a tournament record."

Craig was the only Texas Western golfer to play in the National Collegiate Championships in Knoxville, Tenn., in June, 1965 and came third in the driving division contest. He has also played in the East-West match, which pits the top 20 to 25 amateur golfers in the sections of the country.

Craig summed up his strengths in the sport as being able to "hit the ball pretty far off the tee, and hit a lot of greens." He said he doesn't putt any better than any other golfer, and that his weakness is use of the "wedge," a short golf club. Half of the practice balls he hits during practice are with the wedge.

The TW golfer kept par with the rest of the team last year, ending the season with an 8-1 record, the same as the team average. He was in competition with golfers from New Mexico State University, Arizona University, Western New Mexico, and the Air Force Academy.

He came in fourth in the 1965 Albuquerque Open Amateur Championships and went to Truth or Consequences, N. M., to set a course record. For six weeks following his match there, he didn't compete in any matches, but instead began a rigorous training program for himself.

"I practiced every day after that—and I hit 6,000 balls during the summer," Craig said.

After a summer of intense practicing, the golf enthusiast was ready for the 1965-66 season. He entered the New Mexico Open Amateurs in September and placed third. Throughout the year, he has continued training and golfs each day from 10 a.m. to 2 p. m. at the Coronado Country Club. The Texas Western team has so far beaten Western

New Mexico and lost to New Mexico State.

Craig puts a question mark on the future of the some-what unknown TW golf team, by saying, "It all depends upon whether we get any support from the athletic department."

Four matches and two tournaments are lined up for the golf team. The Sun Devil Invitational in Phoenix, Ariz., and the NMSU Invitational, are slated for later this spring. Also, the team may compete in the Pikes Peak Intercollegiate and NCAA Tournament in California "if we can get any backing from the department."

Craig is pinning his hopes on the NCAA tournament in June. It will be his last year to be eligible for this competition because of the ruling that a golfer may play only two years in the NCAA if he has played varsity as a Freshman. Craig began on the varsity squad in his first year at Texas Western.

Possibly one of the more important points of Craig's golfing philosophy is summed up in his description of why he practices so regularly: "You can play all you want to, but you have to sharpen up what you've got."

ELECTIONS

(Continued from Page 1)

dent Association electorate and submitted to the Student Association President is another requirement for this office.

Prospective members for the Student Senate must have at least an overall grade point average of 2.2 for a minimum of 12 semester hours. Candidates for this post, of which there are six (Science, Arts, Fine Arts, Education, Business, and Engineering), should submit their names, along with a transcript to the Student Association President.

Problems Of Labor Discussed

An Educational Conference on Labor Problems for the Railroad Industries will be held on the TWC Campus Wednesday, Thursday and Friday. The conference is sponsored by the TWC Extension Service in cooperation with the joint Brotherhood of Railroad Trainmen and Brotherhood of Locomotive Firemen and Engineers.

The current problems and responsibilities of the members of organized labor will be covered as well as problems of leadership, leadership training, gaining participation, communications and civic duties of members.

TWC faculty members participating in the conference include Michael Brand, associate professor of economics; Dr. Rex Strickland, professor of history; and Ralph Segalman, assistant professor of sociology.

Featured union speaker is Charles Luna, BRT president.

TW College Players To Meet Thursday

College Players will sponsor a general meeting for all drama majors and other students who are interested in next year's theatre season on Campus Thursday at 7 p. m. in Magoffin Auditorium.

At this meeting, the plays for the 1966-67 season will be discussed, and general try-outs for the season will be held. Special emphasis will be given to readings for Shakespeare's "Othello," which will be the first production of the Fall season.

DR. CLINE

(Continued from Page 3)

teaching Spanish-speaking children is the lack of knowledge on the part of in-service teachers of the sociological backgrounds of the children with whom they are working.

"I hope that with the better understanding of the Latin culture, we might become completely bi-cultural in our approach to problems of education in the future," Dr. Cline said.

BLAKE EDWARDS' "The Great Race"

Dr. Shah Gains Honors In U.S.

By JO ANNE KIRBY

Dr. Chandrakant C. Shah, a native of Calcutta, India, and now an instructor in the TWC Government Department, has gained recognition from both the United States and Indian governments for his outstanding achievements scholastically and as a practitioner of international law. He has added stature to the rank of the foreign student in the U. S.

Dr. Shah came to TWC last semester after completing requirements at Southern Methodist University in Dallas for a doctorate of the Science of Law — the first such degree to be awarded in the Southwest. For this achievement he was named an honorary citizen of Texas by Governor John Connally and received a congratulatory letter from President Lyndon B. Johnson.

UNITED NATIONS ADVISOR

Dr. Shah, 27 and unmarried, will be appointed India's legal advisor to the United Nations, a position he will assume at the age of 30 (in compliance with a constitutional age requirement of the Indian government.) Previously, he served the government of India as an international law consultant during his studies in London, England.

He holds these degrees: an AB from Bombay University, Bombay, India; LLB, Government Law College, Bombay; Advocate at Law, High Court of Bombay; Barrister at Law, London University, London, England; Master of Laws, Georgetown University, Washington, D. C., and doctorate of Science of Law, SMU, Dallas. To exemplify his zeal for learning he completed his LLM in nine months and his PhD in one calendar year — normally a combined program of five years.

During his studies at Georgetown, he worked at various government jobs to finance his education. Among them were positions with the State Department, the Justice Department, and the U.S. Senate. He was employed by the American Chemical Society as finance ambassador to Bombay, which occasioned his first personal meeting with the late President John F. Kennedy. He later visited President Kennedy at the White House and presented him with a copy of work done on his LLM thesis.

TRAVELED IN 16 COUNTRIES
Dr. Shah, who has traveled in 16 countries, said, "Americans are wonderful to foreigners." He paid his first visit to the U.S. in 1962 on a proposed one-night stay in New York City. He was greeted by the Committee on Friendly Relations Among Foreign Students and invited to remain for one week. They introduced him to the American way of life and arranged for him to visit Georgetown University; hence, his studies in the U.S.

"The Little Rockefeller of Calcutta" is the title given the head of the Shah family, one of the wealthiest in India. This remarkable family of five boys and two girls boasts — in addition to the achievements of Dr. Shah — a plastic surgeon, a business

DR. SHAH

leader, a certified public accountant and an engineering student.

HARD WORK
However, the incidence of family wealth is not responsible for Dr. Shah's lengthy formal education. It was financed by hard work and diligent study; he received no financial support from anyone.

"Most U.S. students think they cannot go to college without money," he said, "and this is not true. Ambition will find its way."

He finds El Paso and El Pasoans enjoyable, largely due to the fact that El Paso's is his "hometown climate." He plans to return to India this summer for a visit.

His ultimate aim for the future is to research and write publications in the field of law for the edification of future students. He has completed his doctorate thesis on the subject of "A Comparative Study of Law of Evidence in the U.S., the United Kingdom and India."

Bell Hall Field Declared Kite Flying Disaster Area

By SUSAN SULLIVAN

Recently, the design classes of TWC's Art Department held a kite flying contest in the baseball field behind Bell Hall.

There were plenty of kites—small ones and very large ones. Aside from the variety of size, the kites were of many colors and of various design. Some kites were pussy cats, bats, birds, butterflies, airplanes, or satellites.

It was a beautiful day but angry art students.

there was absolutely no wind—not even a phfft. The only kites that got off the ground had to be propelled—from a sports car, or a motor scooter, or the flyer had to run very fast.

Most kites not only did not fly, they met disaster. They nose-dived and broke; they got run over by above mentioned sports car and motor scooters; or they were stomped on in a rage by

Application Deadline Is Tuesday

The new editors and advertising managers of the Campus Publications (El Burro, Prospector, and Flowsheet) will be announced in the April 15 issue of the Prospector, John J. Middagh, director of student publications, said.

Letters of application will be accepted until April 5. Those who have not yet applied may still do so by submitting a letter of application addressed to John Middagh; by delivering the letter personally to SUB 402 during the day between 8 a. m. and 12 noon and from 1 to 4 p. m., or sending the letters through the Campus Mail.

Students should include in their applications not only their qualifications but also their reasons for seeking the position.

Qualifications are, a "C" average and regular enrollment in TWC for one year before the date of assuming the position. It is not necessary to be a journalism major to apply.

All applications go before a publications board composed of students and faculty members for review.

SOPHOMORE MEN:

Want to be a leader and double your chances for success in life? You can, by earning both a degree and an Army officer's commission at the same time... *even though you may not have taken ROTC training in your first two years!*

Through a new program, you can be commissioned as a Second Lieutenant after taking two years of Army ROTC training while you complete your studies for a college degree. You can qualify for this program by attending a special six-week summer training camp after your sophomore year and then completing the ROTC Advanced Course in your junior and senior years of college.

Here's what ROTC training and an officer's commission will do for you:

- It will qualify you to fulfill your military obligation as an officer.
- You will learn to organize, motivate, and lead others.
- You will develop leadership qualities that many college men miss—self-discipline, physical stamina, poise, bearing, the acceptance of responsibility and other qualities that contribute to success in either a civilian or military career.
- You will receive \$40 per month during your junior and senior years, plus pay and mileage for summer training.

The training and experience you will receive through Army ROTC will pay off for the rest of your life. A decision to take advantage of this new program could be one of the most important you will ever make.

You owe it to yourself to investigate this new important opportunity.

For complete information on the new Two-Year Army ROTC Program see the Professor of Military Science on campus.

ARMY ROTC

IF YOU ARE GOOD ENOUGH TO BE A LEADER, DON'T SETTLE FOR LESS!

Learn Europe from behind the counter.

25 000 JOBS IN EUROPE

Luxembourg—Each student applicant receives a \$250 travel grant and a paying job in Europe such as office, factory, sales, resort, farm work, etc. Send \$2 (for handling and airmail) to Dept. O, American Student Information Service, 22 Ave. de la Liberte, Grand Duchy of Luxembourg for a 36-page booklet giving all jobs, details and travel grant application forms.
