# FLOWSHEET

1961

TEXAS WESTERN COLLEGE  
EL PASO, TEXAS

# DEDICATION

HE talks of history, and his students listen and learn.

HE lectures, but he also listens. In his classes there are many questions always answered, and debates.

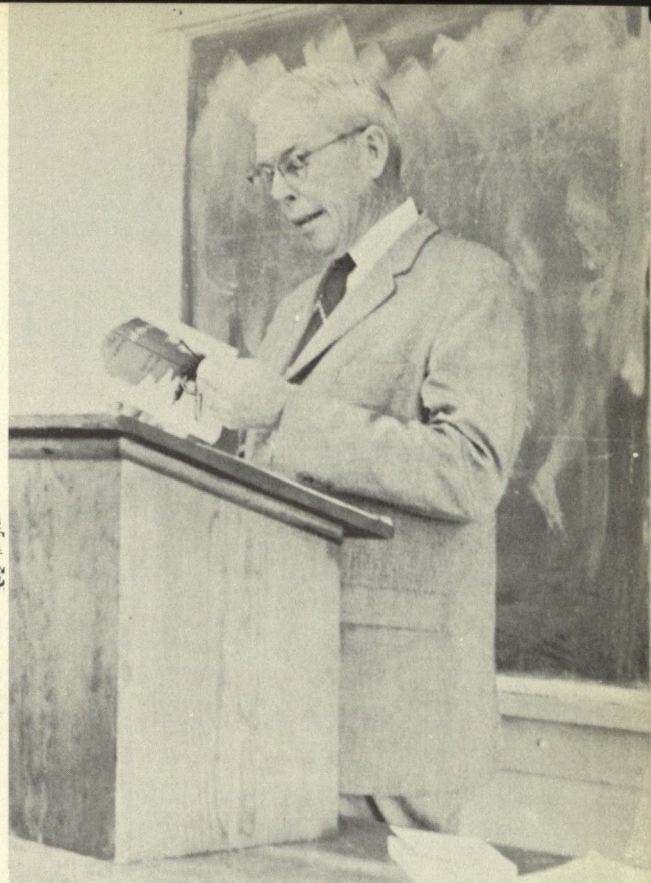

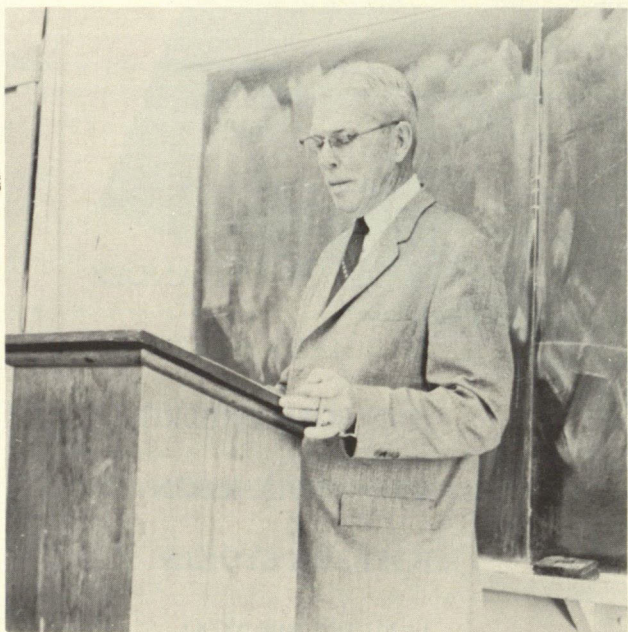

HE brings alive Clio, the Muse of History.

HE knows a lot about the history of England, the United States, the Southwest, the Biblical Lands, and many other places, but that isn't all. Ask him any question concerning baseball and see how much further his historical knowledge goes. He can also tell you Joe Schnorz' batting average for the year, Ought-One.

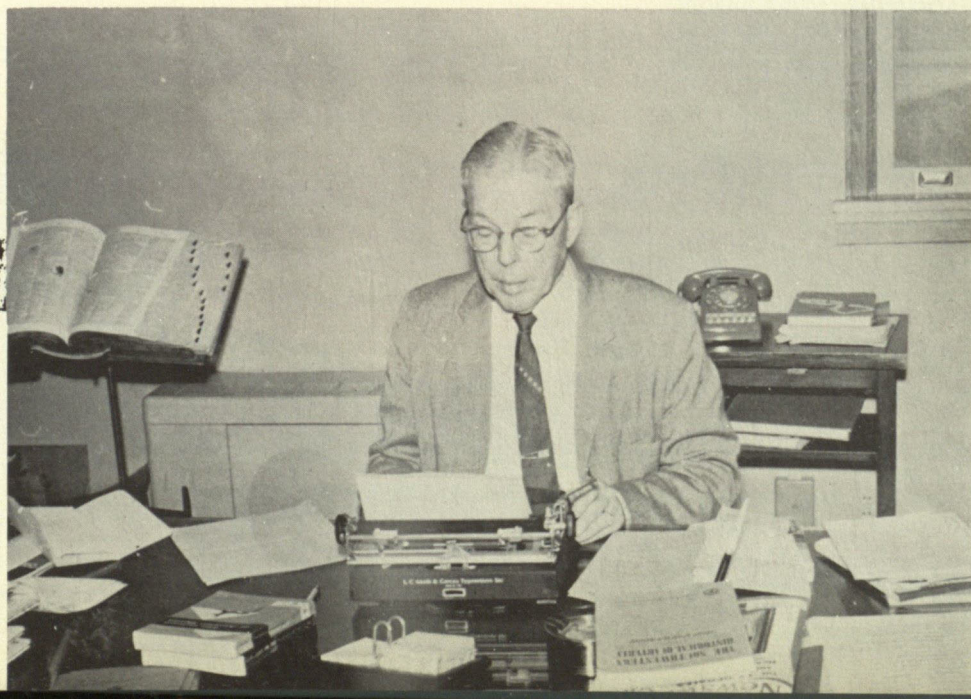

WE speak of Dr. Rex Strickland, the teacher to whom we dedicate this 1961 Flowsheet, with thanks from the many students he has taught at Texas Western.
