**EL PASO, TEXAS**

# TO DR. W.H. TIMMONS...

--- We proudly dedicate the 1963 Flowsheet. A friend to his students and highly regarded by his fellow professors, Dr. Timmons became a hard-working member of the faculty at the college upon his arrival in 1949. Dr. Timmons received his Ph.D in history from the University of Texas, where he wrote his dissertation on Jose Maria Morelos, called "the greatest leader of the movement for Mexican independence" from Spain. From this dissertation has come a new book of significance in Mexican History—a biography entitled **Morelos—Priest, Soldier, Statesman of Mexico**. From his early research into the life of the Mexican leader, Dr. Timmons became convinced that too little was known about the great leader, so he determined to help bring him more forcefully to the attention of Americans. His book has done so. For his teaching, for his friendship to students, for his hard work to advance the interests of this college, we salute him and to him we dedicate this yearbook.

Dr. S. D. Myres, Mr. Carl Hertzog, and Dr. Timmons survey the frontispiece of Dr. Timmons' new book on Jose Morelos.
