# DEDICATION

BAXTER POLK

Since Mr. Polk's arrival to the "College of Mines" in 1936, he has had one goal—to make the library more useful and more attractive to both graduates and undergraduates. From a mere 12,000 volumes that were in the library at the time of his appointment as head librarian, the number of tomes has grown to more than 150,000. Plans for the next ten years include an even greater increase up to 500,000 volumes.

Mr. Polk received his B. A. in English and Spanish from Hardin Simmons, his B. S. in Library Science from

the University of Oklahoma, and his M. S. degree in Library Science from Columbia University. Besides Mr. Polk's duties as librarian, he has performed in many dramatic productions, and he has also participated in many cultural projects in the El Paso area.

Because we are grateful for our library, because we are proud of our library, because of our librarian's personable wit, and because he is our friend—we dedicate this, our Golden Anniversary Edition of the Flow-sheet, to Baxter Polk.
