

Dr. Anton Berkman

Department Chairman at Texas Western College for 31 years . . . One of the most successful pre-medical advisors in the country . . .

Supporter of College and Community affairs—cultural, social, academic, athletic . . .

Respected and admired by students and fellow faculty members alike . . .

To

DR. ANTON H. BERKMAN

Professor of Biological Sciences

. . . the staff of the 1958 Flowsheet dedicates this annal of the year's activities.

Since 1927, when he came to the College to inaugurate the Department of Biological Sciences, this school and its students have been his greatest interest. He has worked for it, and its community, to the exclusion of other interests.

He has served the college, additionally, as acting Dean of Arts and Sciences and as acting Dean of Student Life.

His stature as an advisor to pre-medical students is such, that only his recommendation is needed for his students to be welcomed to any medical school in the state.

Dr. Anton H. Berkman is a man we are proud to honor in the 1958 Flowsheet.
