This year for the first time, Intramural Competition was sponsored by the Physical Education Department. Because of legislation which abolished appropriations for such activity, and in keeping with the principles of physical education, the department was more than willing to take on the responsibility.

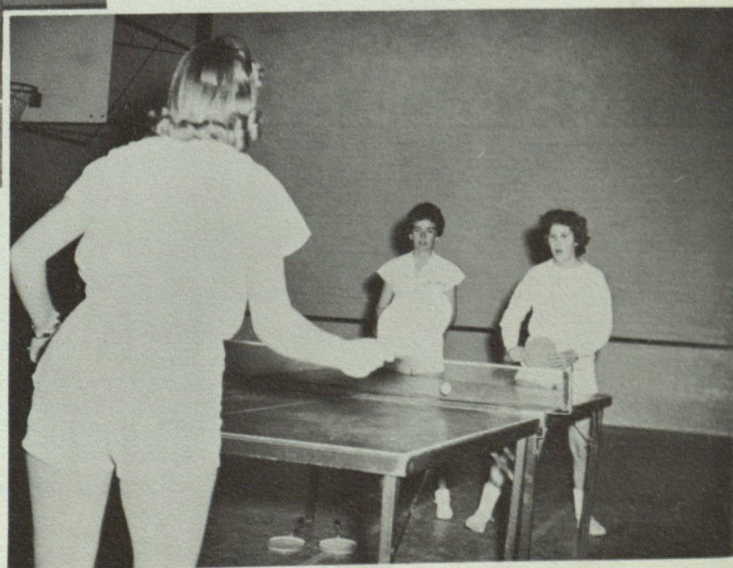

We have the Men's Council and the Women' Council to thank for the program that was provided and the guidance of the respective directors.

HEY! Why don't you play with your feet on the ground like everybody else?

Come on birdieeeeeee, OVER!!!

Whew! . . . I thought that was going to go over.

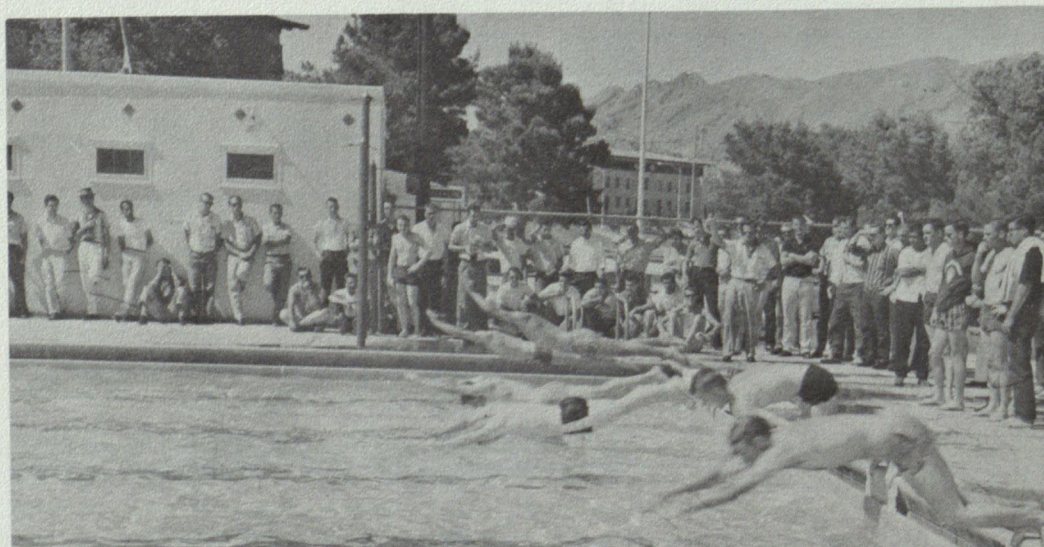

This is the type of action that was prevalent during Intramural competition.

Competition was clean, hard, and a credit to each organization represented. It was open to the public and those who witnessed the games were provided with a treat.

What do you think? Did he or didn't he?

Let's see who can make the biggest splash!

As the batter braces herself for an equally mighty swing . . .

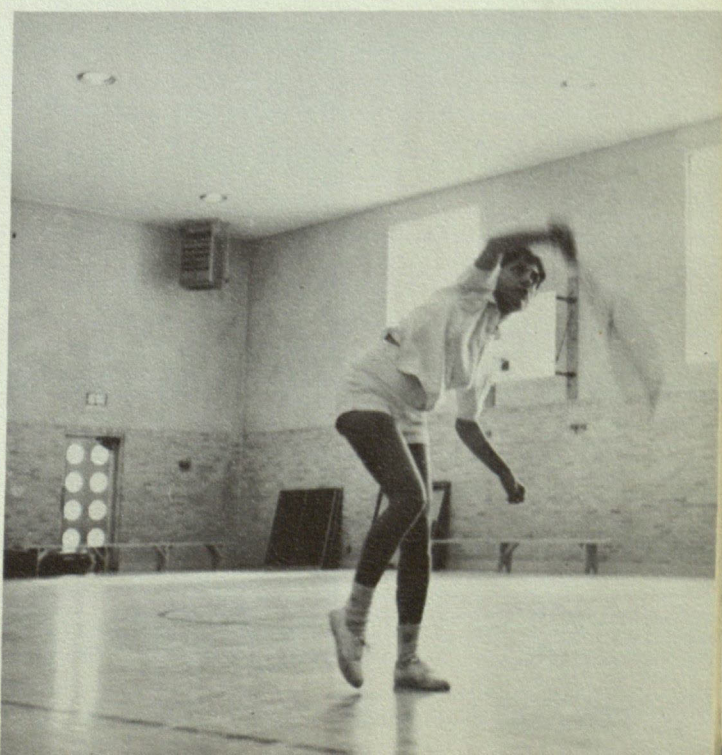

The pitcher lets go with a mighty throw . . .
